

Onsite Sewage Management System Application for Plumbing and Drainage Inspection

Where a development application is required, fees should be paid upon lodgement of such application. It is the responsibility of the applicant/owner when making an application for a service to ensure that it is required and that the fees have not already been paid. All plumbing and drainage works must be in accordance with the *Plumbing and Drainage Act 2011*. This includes provision of a *Notice of Work*, *Certificate of Compliance* and a *Sewer Service Diagram* by the licensed plumber within the required time periods. Plumbing works are required to be inspected by Council. Private Certifiers are not authorised to inspect plumbing works.

To Be Completed and Emailed to admin.plumbinganddrainage@centralcoast.nsw.gov.au
