# School Holiday Programs

April 2026

## General – All Sites

### Supervision at our pools

Active supervision at our pools consists of four key elements:

**Be Prepared:** Ensure you have everything you need before getting into the water, such as towels and dry clothes.

**Be Close:** Always be within arms' reach of your child.

**All Your Attention:** Focus all your attention on your child and get into the pool and talk and play with them.

**All the Time:** You should never leave your child alone in the water, nor should they be left in the care of an older child or with the assumption that your responsibility diminishes due to the presence of lifeguards.
