

Community Bulletin - COVID-19 Information

YOUR SAFETY

Staying safe on the move

There have been increased cases of community transmission of COVID-19 in neighbouring regions, so extra resources have been provided to prevent transmission in point-to-point transport such as taxis or Uber cars.

At 7 Merinee Rd, West Gosford the NSW Government has set up a free sanitisation station for cab and Uber drivers. Sanitisation includes disinfecting high-touch areas such as door handles, window controls, headrests and payment terminals.

Operating 7am-7pm Monday to Friday and 8am-5pm Saturdays. Once per vehicle, per day.

When out, help prevent the spread of COVID-19.

- maintain physical distancing (at least 1.5m)
- practise good hygiene
- consider wearing a mask
- remain at home if you are feeling unwell
- self-isolate if you are waiting for test results or had recent contact with a COVID-19 case.

YOUR FACILITIES

New customer service point opens

As we comply with changing COVID-19 restrictions, some of our facilities have adjusted their operation – closing, opening with restrictions or being able to re-open fully.

The most recent changes include:

- re-opening our Wyong administration office's customer service point. This is now open Monday-Friday from 8.30am-5pm. A duty planner is available until 12.30pm each day. Cash payments are not accepted.
- Ensuring our gyms and leisure centres comply with updated measures to reduce the spread of COVID-19 in fitness settings. COVID Safety Plans are in place and hygiene marshals are monitoring gym usage. Please ensure you carry hand sanitiser, use your own towel and practise strict personal hygiene when exercising.
- Closure of the Smart Work Hub at Gosford to help customers avoid being in a space for an extended length of time with potential COVID-19 cases.

For updates on the operating status of all Council facilities, visit centralcoast.nsw.gov.au/covid-19

YOUR WELLBEING

Community connections

Connecting with your community will help with staying mentally healthy.

- Stay informed. Use information from reputable sources including NSW Health website, the Australian Government website, the NSW Government Facebook page or through Council's website and social channels.
- Support others in our community – look out for neighbours and family or volunteer to help others at volunteering.nsw.gov.au
- Keep connected to your family, friends and work colleagues through phone, email, video calls and social media where possible.
- Download the translated resources for the languages spoken in your family nsw.gov.au/covid-19/resources-other-languages

For information on support services available, including:

- housing and homelessness
- children and family
- seniors, people with disability and carers
- domestic and family violence
- Aboriginal Elders and communities

A maximum of 20L or 20kg for all other items.

The Household Chemical CleanOut program is brought to you by the Department of Planning, Industry and Environment and Paintback.

Disability Inclusion Action Plan

We are inviting people who live with a disability, their family members or carers and people working in the disability sector to fill in a survey or join a forum to help Council develop our new four-year Disability Inclusion Action Plan 2021-2025.

The Plan will set out actions that Council will take to give people with disabilities better access to mainstream services, facilities and information so they can fully participate in our community.
