

# Environmental Risk Assessment

**Event Name:** \_\_\_\_\_ **Event Organiser:** \_\_\_\_\_

**Event Location:** \_\_\_\_\_ **Event Time:** \_\_\_\_\_

**Number of Expected Attendees:** \_\_\_\_\_

Type of Environmental Impact	No Impact	Minor Impact	Control Measures For Minor Impact (Specify below or attach additional information)	Potentially Significant Impact*
<b>Air</b>				
Dust from disturbing topsoil. E.g. Excessive dust from pedestrian traffic on hot days				
Emissions from any generators.				
Emissions from vehicles or equipment.				
Other: (Please specify)				
<b>Water</b>				
Waste water from food stalls located next to water ways.				
Waste water from temporary amenities.				
Water consumption				
Runoff/muddy water from site into nearby waterways				
Other: (Please specify)				
<b>Soil</b>				
Erosion caused by excess pedestrian traffic				
Erosion caused by vehicles driving over site.				
Erosion caused by vehicles parking in inappropriate areas e.g. Parking located next to bush land with the potential to damage root systems of significant vegetation.				
Erosion caused by set-up or pack-up if it involves heavy machinery.				
Wet weather may make site muddy.				
Damage to beach vegetation that may de-stabilise sand dunes				
Other: (Please specify)				
<b>Noise and Vibration</b>				
Noise during set-up or packup from power tools or machinery.				
Loud music / fireworks				
Whistles / Air horns				
Announcements over PA e.g. PA system used throughout event for announcements				
Vibrations from machinery or equipment (rides, power generators, refrigeration units)				
Other: (Please specify)				
<b>Waste</b>				
General waste e.g. General food and other waste generated throughout the event.				

Food or organic waste				
Waste water				
Recyclables				
Other: (Please specify)				
<b>Weather Conditions</b>				
Will inclement weather have an effect on the potential environmental impacts of the event? E.g. Inclement weather could cause excessive muddy run off and degradation of the soil.				
Other: (Please specify)				
<b>Chemicals</b>				
Use and storage of any chemicals (fuels, cooking oils, cleaning products)				
Other: (Please specify)				
<b>Fauna &amp; Flora</b>				
Disturbance to native animals living on the event site. E.g. Event located in close proximity to bush land.				
Damage to habitats or nests of native animals.				
Trampling of vegetation by pedestrian traffic.				
Damage to vegetation by vehicular traffic.				
Environmental vandalism e.g. breaking off tree branches				
Other: (Please specify)				
<b>Resource &amp; Energy Use</b>				
Water consumption				
Energy consumption				
Use of plastic products				
Food serving items (plates, cups, utensils)				
New equipment				
Other: (Please specify)				
<b>Social &amp; Economic</b>				
Conflict of land use or public access. e.g. Event located close to residential areas.				
Parking blocking local resident access.				
Road closures.				
Disturbance to neighbouring residents				
Disturbance to regular activities for the site such as sporting competitions.				
Other: (Please specify)
