ABOUT THIS PLAN

Integrated Planning and Reporting Framework

The Integrated Planning and Reporting (IP&R) Framework promotes integration with community based objectives, informed by state-level plans and cascading down through to implementation across Council.

The Operational Plan details those actions that Council will take (through projects, plans and actions) to deliver the priorities that are aligned to the objectives of the Community Strategic Plan, One – Central Coast.

INTRODUCTION

The draft Operational Plan 2021-2022 was developed with the focus of addressing the serious financial situation advised by Council in October 2020. Since exhibition, new information has come to light, resulting in a number of changes that provide clearer direction for 2021-2022 and following three financial years. The information presented in this final Operational Plan 2021-2022 includes these changes and differs to what was presented in the draft Operational Plan 2021-2022. Progress reporting and further updates will be included as part of Council's usual quarterly reporting process.

Public Inquiry Announcement

On 26 April 2021, the Minister for Local Government announced that a public inquiry into Central Coast Council would be conducted. As a result, Council will remain under Administration, with Mr Dick Persson stepping down as Administrator and Mr Rik Hart assuming the role. This also means that the local government elections that were due to be held September 2021 will be postponed until late 2022.

For more information on the public inquiry please visit the Office of Local Government's website:

<https://www.olg.nsw.gov.au/public-inquiries/central-coast-council-public-inquiry/>

Current Financial Position

Council's financial situation included an accumulated debt of \$565M, with a number of actions implemented or well underway. As reported in the Q3 Business Report, this includes:

- Obtaining \$150M in bank loans
- Major reduction in operating expenses
- Reduction in employee numbers resulting cost savings of \$31M
- Reducing expenditure in materials and contracts by \$22M
- Ensuring infrastructure spending budget is capped at \$170M per year
- Commenced proceedings to sell \$40-\$60M in underutilised assets

Council's projected financial position at 30 June 2021 was reported in the Q1 Business Report as an operating deficit of \$115M (excluding capital grants and contributions). As a result of the above actions initiated to date the Q3 Business Report now indicates an operating deficit of \$103.3M (excluding capital grants and contributions).

Special Rate Variation Determination

Council applied to Independent Pricing and Regulatory Tribunal (IPART) for a 15% permanent rate increase. IPART announced its determination in May 2021, with a 15% rate increase approved for three years starting from the 2021-2022 financial year.

Council may resolve at a future point in time to apply once again for Special Rate Variation for the 2024-2025 financial year and onwards.

OUR ORGANISATION

Our Values

SERVE

IMPROVE

COLLABORATE

BE YOUR BEST

BE POSITIVE

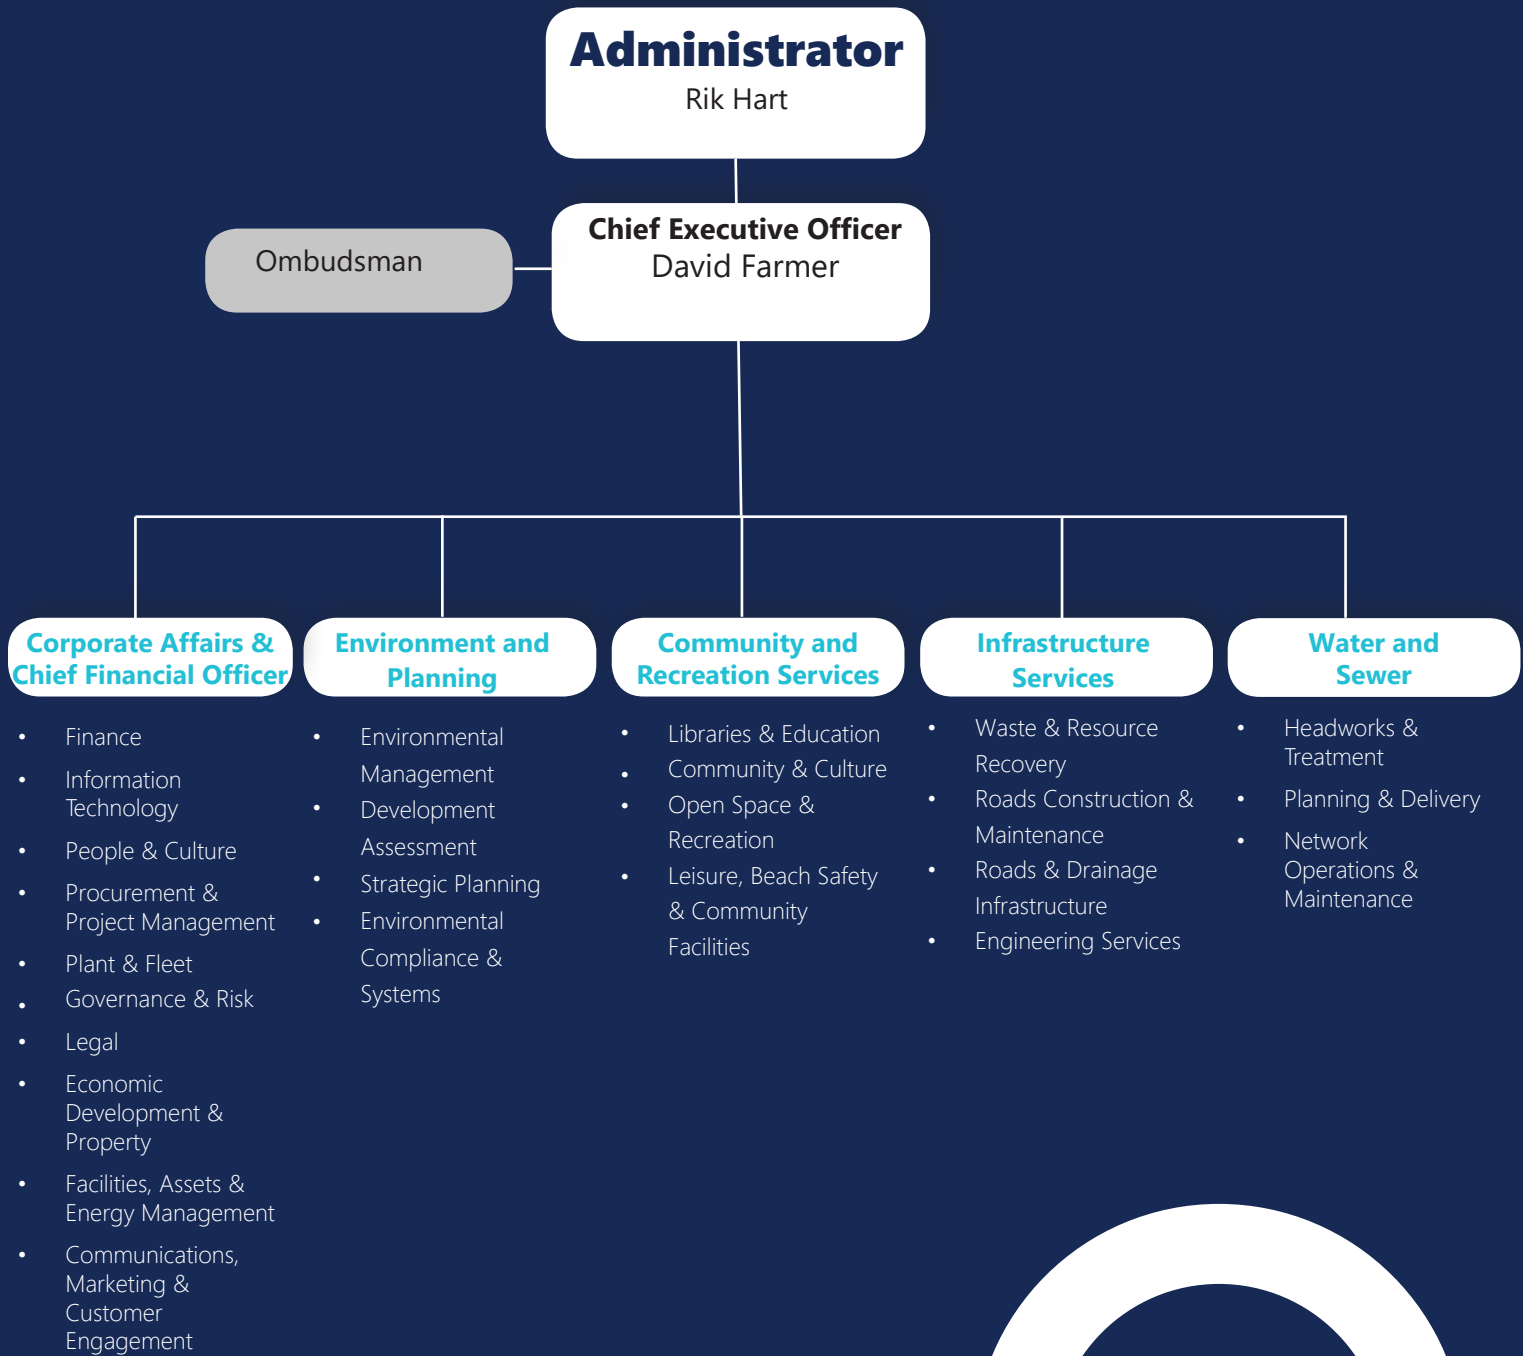

BE SAFE

The core values of Central Coast Council are reflected in every decision we make relating to our employees and our community. They connect us to one another and unite us as we work together to achieve the Council vision and implement the community's vision.

Organisational Structure

**OPERATIONAL
PLAN**

HOW TO READ THIS PLAN

The Operational Plan is aligned to the five themes of the Community Strategic Plan (CSP) and links to the Focus Areas and Objectives.

The diagram below demonstrates these linkages.

Community Vision

The community vision is a statement that captures the community's aspirations for the future of the Central Coast

CSP Theme

The Operational Plan is aligned to the five themes of the CSP and links to the Focus Areas and Objectives:

Belonging
Smart
Green
Responsible
Liveable

Delivery Program

Details the outcome to be achieved at the end of the Delivery Program period

Operational Plan

Details the specific action or indicator to be undertaken or measured within the 2021-22 financial year

Responsible Unit

Details the unit responsible for delivering this item in accordance with Council's operational structure

BELONGING

OUR COMMUNITY SPIRIT IS OUR STRENGTH

- A1** Work within our communities to connect people, build capacity and create local solutions and initiatives
- A2** Celebrate and continue to create opportunities for inclusion where all people feel welcome and participate in community life
- A3** Work together to solve a range of social and health issues that may impact community wellbeing and vulnerable people
- A4** Enhance community safety within neighbourhoods, public spaces and places

CREATIVITY, CONNECTION AND LOCAL IDENTITY

- B1** Support reconciliation through the celebration of Aboriginal and Torres Strait Islander cultures
- B2** Promote and provide more sporting, community and cultural events and festivals, day and night, throughout the year
- B3** Foster creative and performing arts through theatres, galleries and creative spaces, by integrating art and performance into public life
- B4** Activate spaces and places to complement activity around town centres, foreshores, lakes and green spaces for families, community and visitors

Services

- Galleries
- Stadium

Operational Plan 2021-2022

Delivery Program	Reference	Project / KPI	Target / Timeline	Responsible Unit
Provide beach lifeguard services to patrolled beaches from September to April each year.	2122_OP_082	Council to safely patrol 15 beach locations and beach safety, education and messaging programs provided (in partnership with Surf Life Saving Central Coast)	30 April 2022	Leisure, Beach Safety and Community Facilities
Efficient delivery of community facilities that meets the community needs	2122_OP_090	Delivery of high-quality exhibitions and programs at Gosford Regional Art Gallery that attracts 155,000 visitors per year	30 June 2022	Leisure, Beach Safety and Community Facilities
	2122_OP_091	Delivery of 195 cultural productions, events and performances at Laycock Street Community Theatre	30 June 2022	Leisure, Beach Safety and Community Facilities
Increase positive community attitudes and behaviours towards people with disability	2122_OP_107	Implement relevant actions from the Central Coast Disability Inclusion Action Plan	Four projects delivered	Community and Culture
Provide a premier venue for sports and entertainment on the Central Coast community	2122_OP_144	Conduct survey of respondents that are either satisfied or very satisfied with Central Coast Stadium	67%	Economic Development and Property
Improved management of companion animals throughout the Central Coast	2122_OP_197	Develop a Responsible Pet Ownership Policy for the Central Coast	By 30 June 2022	Environmental Compliance and Systems

SMART

A GROWING AND COMPETITIVE REGION

- C1** Target economic development in growth areas and major centres and provide incentives to attract businesses to the Central Coast
- C2** Revitalise Gosford City Centre, Gosford Waterfront and town centres as key destinations and attractors for businesses, local residents, visitors and tourists
- C3** Facilitate economic development to increase local employment opportunities and provide a range of jobs for all residents
- C4** Promote and grow tourism that celebrates the natural and cultural assets of the Central Coast in a way that is accessible, sustainable and eco-friendly

A PLACE OF OPPORTUNITY FOR PEOPLE

- D1** Foster innovation and partnerships to develop local entrepreneurs and support start-ups
- D2** Support local business growth by providing incentives, streamlining processes and encouraging social enterprises
- D3** Invest in broadening local education and learning pathways linking industry with Universities, TAFE and other training providers
- D4** Support businesses and local leaders to mentor young people in skills development through traineeships, apprenticeships and volunteering

Services

- Airport
- Business Development and Innovation
- Holiday Parks
- Major Economic Projects
- Town and City Centre Management
- Visitor Economy

Operational Plan 2021-2022

Delivery Program	Reference	Project / KPI	Target / Timeline	Responsible Unit
Create opportunities to expand tourism	2122_OP_130	Destination Management Plan - Implement revised Strategic Priorities and Supporting Actions from 2018-2021 DMP	100% of actions delivered by 31 December 2021	Communications, Marketing and Customer Engagement
	2122_OP_131	Develop 2022-2025 Destination Management Plan	By 31 December 2021	Communications, Marketing and Customer Engagement
	2122_OP_132	Tourism Opportunity Plan - Implement Revised Year 2 Actions from 2019-2024 Tourism Opportunity Plan	90% of actions completed by 30 June 2022	Communications, Marketing and Customer Engagement
Grow tourism and profitability of the Holiday Parks	2122_OP_153	Implement business strategy plan focussing on the future requirements of the business (pending approval from Council)	30 June 2022	Economic Development and Property

GREEN

ENVIRONMENTAL RESOURCES FOR THE FUTURE

- E1** Educate the community on the value and importance of natural areas and biodiversity, and encourage community involvement in caring for our natural environment
- E2** Improve water quality for beaches, lakes, and waterways including minimising pollutants and preventing litter entering our waterways
- E3** Reduce littering, minimise waste to landfill and educate to strengthen positive environmental behaviours
- E4** Incorporate renewable energy and energy efficiency in future design and planning, and ensure responsible use of water and other resources

CHERISHED AND PROTECTED NATURAL BEAUTY

- F1** Protect our rich environmental heritage by conserving beaches, waterways, bushland, wildlife corridors and inland areas, and the diversity of local native species
- F2** Promote greening and ensure the wellbeing of communities through the protection of local bushland, urban trees, tree canopies and expansion of the Coastal Open Space System (COSS)
- F3** Improve enforcement for all types of environmental non-compliance including littering and illegal dumping, and encourage excellence in industry practices to protect and enhance environmental health
- F4** Address climate change and its impacts through collaborative strategic planning and responsible land management and consider targets and actions

Services

- Energy Advisory Service
- Health and Environmental Compliance
- Natural Disaster Impact Mitigation
- Beach Management
- Environmental and Sustainability Education
- Natural Bushland Reserves

- Waste and Recycling Collection

Operational Plan 2021-2022

Delivery Program	Reference	Project / KPI	Target / Timeline	Responsible Unit
Reducing Council's energy cost, improve energy productivity and reduce Council's greenhouse gas emissions	2122_OP_071	Review emissions reduction targets in alignment with IPCC recommendations.	Revision of targets to Council by 30 June 2021 Draft emissions Reduction Pathway approved by 30 June 2022	Facilities, Assets and Energy Management
Regular operation wrack and algae collection (and other equipment under contract) in near-shore zones of Tuggerah Lakes	2122_OP_97	Removal of 5,000m3 of floating wrack and macro algae from the Tuggerah Lakes Estuary annually	By 30 June 2022	Environmental Management
Implementation of Council's Biodiversity Strategy	2122_OP_98	Deliver priority actions (1.2.1, 1.4.2 and 2.3.1) of the Central Coast Council Biodiversity Strategy	By 30 June 2022	Environmental Management
Complete Flood Studies and Floodplain Risk Management Plans in consultation with the community.	2122_OP_99	Complete the following flood studies: <ul style="list-style-type: none"> • Northern Lakes Floodplain Risk Management Plan • Wallarah Creek Floodplain Risk Management Plan • Davistown and Empire Bay Floodplain Risk Management Plan • Woy Woy Peninsula Floodplain Risk Management Plan 	By 30 June 2022	Environmental Management
Provide a reliable, safe, cost effective and environmentally responsible domestic waste collection to the Central Coast region	2122_OP_178	Percentage of domestic waste bins collected on scheduled date	>99%	Waste and Resource Recovery

Operational Plan 2021-2022

Delivery Program	Reference	Project / KPI	Target / Timeline	Responsible Unit
Expand the diversion of domestic waste from landfill through increased resource recovery resulting in environmentally responsible waste collection services	2122_OP_179	Percentage of domestic solid waste diverted from landfill	>40%	Waste and Resource Recovery
An Environmental Management System (EMS) for Central Coast Council that is consistent with AS/NZ ISO 14001:2016	2122_OP_198	Implement Phase 3 of the EMS Project	By 30 June 2022	Environmental Compliance and Systems

RESPONSIBLE

GOOD GOVERNANCE AND GREAT PARTNERSHIPS

- G1** Build strong relationships and ensure our partners and community share the responsibilities and benefits of putting plans into practice
- G2** Communicate openly and honestly with the community to build a relationship based on transparency, understanding, trust and respect
- G3** Engage with the community in meaningful dialogue and demonstrate how community participation is being used to inform decisions
- G4** Serve the community by providing great customer experience, value for money and quality services

DELIVERING ESSENTIAL INFRASTRUCTURE

- H1** Solve road and drainage problem areas and partner with the State Government to improve road conditions across the region
- H2** Improve pedestrian movement safety, speed and vehicle congestion around schools, town centres, neighbourhoods, and community facilities
- H3** Create parking options and solutions that address the needs of residents, visitors and businesses
- H4** Plan for adequate and sustainable infrastructure to meet future demand for transport, energy, telecommunications and a secure supply of drinking water

BALANCED AND SUSTAINABLE DEVELOPMENT

- I1** Preserve local character and protect our drinking water catchments, heritage and rural areas by concentrating development along transport corridors and town centres east of the M1
- I2** Ensure all new developments are well planned with good access to public transport, green space and community facilities and support active transport
- I3** Ensure land use planning and development is sustainable and environmentally sound and considers the importance of local habitat, green corridors, energy efficiency and stormwater management
- I4** Provide a range of housing options to meet the diverse and changing needs of the community and there is adequate affordable housing

Optimise the usage of the Baker Street Car Park for visitors to the Gosford City Centre	2122_OP_149	Maintain average occupancy rates for business hours - Monday to Friday	60%	Economic Development and Property
Ensure short term burial capacity is not compromised	2122_OP_150	Maintain minimum (10 years) capacity for burial sites across each operational cemetery	Noraville: 600 Jilliby: 160 Wamberal: 300 Point Clare: 610 (to be reviewed annually by 30 June 2022)	Economic Development and Property

LIVEABLE

RELIABLE PUBLIC TRANSPORT AND CONNECTIONS

- J1** Create adequate, reliable and accessible train services and facilities to accommodate current and future passengers
- J2** Address commuter parking, drop-off zones, access and movement around transport hubs to support and increase use of public transport
- J3** Improve bus and ferry frequency and ensure networks link with train services to minimise journey times
- J4** Design long-term, innovative and sustainable transport management options for population growth and expansion

OUT AND ABOUT IN THE FRESH AIR

- K1** Create a regional network of interconnected shared pathways and cycle ways to maximise access to key destinations and facilities
- K2** Design and deliver pathways, walking trails and other pedestrian movement infrastructure to maximise access, inclusion and mobility to meet the needs of all community members
- K3** Provide signage, public facilities, amenities and playgrounds to encourage usage and enjoyment of public areas
- K4** Repair and maintain wharves, jetties, boat ramps and ocean baths to increase ease of access and enjoyment of natural waterways and foreshores

HEALTHY LIFESTYLES FOR A GROWING COMMUNITY

- L1** Promote healthy living and ensure sport, leisure, recreation and aquatic facilities and open spaces are well maintained and activated
- L2** Invest in health care solutions including infrastructure, services and preventative programs to keep people well for longer
- L3** Cultivate a love of learning and knowledge by providing facilities to support lifelong learning
- L4** Provide equitable, affordable, flexible and co-located community facilities based on community needs

FINANCIAL INFORMATION

FINANCIAL SUMMARY

Overview

Council continues to face a serious financial situation and has implemented a number of measures to manage costs and increase income to achieve long-term financial sustainability including: obtaining \$150 million in bank loans, major reduction in operating expenses, reducing staff back to pre-amalgamation numbers from over 2,500 to under 2,000, selling \$40-\$60 million in underperforming assets, reviewing fees and charges and finding new revenue sources. In May 2021, the Independent Pricing and Regulatory Tribunal (IPART) approved a 15% Special Rate Variation (SRV) rates increase for the Central Coast for three years starting from the 2021-2022 financial year. Whilst the approved SRV provides Council short term stability, it does not provide for long term financial sustainability and a further SRV will be required. The financial scenario below assumes Council will apply and be awarded a permanent 15% increase at the expiration of the three-year period.

It is also noted that the financial information is subject to rounding.

Financial Summary

Financial Summary	2021-2022	2022-2023	2023-2024	2024-2025
	\$ million	\$ million	\$ million	\$ million

FINANCIAL INCOME

Operating Income

Council is budgeted to receive \$666.8 million in operating income in 2021-2022.

Sources of Revenue

Council's rates, annual charges, and user charges and fees make up approximately 75% of Council's total operating revenue. These amounts are applied in accordance with the relevant legislation and are explained in detail below.

Rates

The total amount of ordinary and special rates Council can levy is defined by legislation.

Rates income is regulated by the Office of Local Government, which uses a rate peg system to allow Councils to recover income from the community to deliver services. Rate pegging has been in place since 1977. Under the rate pegging system, Councils can only increase certain rates and charges by the maximum approved annual percentage allowed by the Independent Pricing and Regulatory Tribunal (IPART). As part of addressing the financial crisis Council has received approval for a three-year increase to ordinary and special rates of 15% (including the rate peg).

Under the *Local Government Act 1993*, there was a rate path freeze for merged Councils which included Central Coast Council. This meant that Council was required to maintain the rate path that was last applied by the former Gosford City and Wyong Shire Councils. From 1 July 2021 however, rates will be harmonised across the Central Coast local government area. For more information on rates harmonisation please refer to the Statement of Revenue section.

The freeze in the rate paths was not a freeze on the amount Council could levy by way of rates. What it meant was that Council's permissible rates income was the sum of the rates income for each of the former local government areas within Central Coast Council's local government area, as if the amalgamation had not occurred, plus the allowable rate peg set annually by IPART. For 2021-2022 IPART approved a rate peg of 2.0% as the allowable increase in Councils permissible rates income.

Under the *Valuation of Land Act 1916* Council is required to use the most current land values when calculating ordinary and special rates. These values are provided by the NSW Valuer General (VG), the independent statutory authority responsible for determining land values in NSW. The latest values provided by the VG are being used for levying rates in 2021-2022 and have a base date of 1 July 2019.

Annual Charges

Water, Sewerage and Stormwater Drainage Service Charges

Central Coast Council's water, sewerage and stormwater drainage services and a number of its associated ancillary services are levied under the *Water Management Act 2000*. Those services are declared monopoly services under s. 4 of the *Independent Pricing and Regulatory Tribunal Act 1992*.

Council's prices must therefore be set in accordance with any IPART determined methodologies and/or maximum prices and are subject to approval by the relevant Minister.

IPART issued two determinations on the maximum prices that Council can charge for water, sewerage and stormwater services on 24 May 2019. The determinations apply for three years from 1 July 2019 to 30 June 2022 (the 2019 determination period):

1. Central Coast Council - Maximum prices for water, sewerage, stormwater drainage and other services from 1 July 2019
2. Bulk water transfers between Hunter Water Corporation and Central Coast Council – Maximum prices from 1 July 2019

In April 2021 IPART Clarification Notice No. 1 of 2021 was published in the NSW Government Gazette due to the fact a clerical error was identified in the original IPART modelling by Council. Amendments have been made by IPART in the Notice to the 2020-21 sewer service charges to correct the impact of this error. The error set sewer service charges marginally lower than they should have been. This reduced the sewer service charge revenue that Council was able to collect over the three-year determination period by \$1.8 million or 1% and resulted in customers paying around \$5 to \$10 less in each of the last two years. So that Council can recover this revenue, sewer service charges will increase from 1 July 2021. While customers will pay slightly higher prices in 2021-2022, they will pay no more in total than was intended over the three-year determination period. This is because lower prices were applied for the first two years of the determination period

All prices for water, sewerage, stormwater drainage and ancillary services for 2021-2022 are in accordance with IPART's final determinations issued on 24 May 2019 and IPART Clarification Notice No. 1 of 2021 which was published in the NSW Government Gazette on 30 April 2021 adjusted by the 2021-2022 CPI multiplier of 3.3% as the final determinations were made in 2019-2020 dollars.

The CPI multiplier as per the IPART determinations is the consumer price index All Groups index number for the weighted average of eight capital cities, published by the Australian Bureau of Statistics. The maximum prices in the determinations are to be adjusted for inflation by multiplying the specified price in 2019-2020 dollars by the specified CPI multiplier.

For 2021-2022 that is calculated as the percentage change from the March Quarter 2019 to March Quarter 2021, which equals 3.3%,

$$\text{CPI} = \frac{\text{CPI March 2021}}{\text{CPI March 2019}}$$

The multiplier for 2021-2022 is a two-year multiplier and is the sum of the March 2019 to March 2020 Consumer Price Index movement of 2.2% and the March 2020 to March 2021 Consumer Price Index movement of 1.1%.

Domestic Waste Management Charge

Central Coast Council provides domestic waste management services including weekly domestic waste (red) bin collection, alternate fortnightly recycling (yellow) and vegetation (green) bin collection and six free kerbside collections per year.

Any amounts charged to residents for the domestic waste management service is “restricted for purpose”, which means Council can only recover the cost of providing the service from residents without any profit. Any unspent funds must be restricted and used only to pay for the costs of providing domestic waste management services.

User Charges and Fees

This category of income represents a user pay system and relies wholly on demand. It includes both statutory charges, where the price is set by regulation and Council determined charges, where the fee is set to reflect market rates and/or contribute towards the cost recovery of providing the service.

Examples of both types of fees and charges include water usage charges, sewer user charges, waste facility fees, holiday park user charges, child care fees, Roads and Maritime Services (RMS) user charges, development application fees, community facility hire fees, building and shop inspections, construction certificates and companion animal registrations.

Council sets other fees and charges based on partial (subsidised) cost recovery, full cost recovery or subject to market forces. Pricing categories are disclosed against each fee in the Fees and Charges schedule appearing in Fees and Charges section of the Operational Plan.

Operating and Capital Grants

Operating grants are provided to Council to fund the delivery of services. Some of the grants are for the delivery of specific services and others are general grants or “untied” grants which means Council can use the funding based on local priorities.

Income received for specific purpose means that it is restricted in use and cannot be used for any purpose other than that identified in the funding agreement. This income is kept as a separate cash reserve until such time as the expenditure occurs. Common examples of specific purpose grants received by Council include roads, street lighting, bushfire prevention, waste and recycling, child care, library services and recreational facilities.

Each specific purpose grant has been considered individually for the LTFP and only those that have been ongoing in recent years have been included as recurrent future income e.g. street lighting. Many of the specific purpose grants received by Council are capital and non-recurrent in nature.

Capital grants are provided to Council to fund renewal or upgrade works on Council assets or for the purchase or construction of new assets. Capital grants are reflected in Council’s budget when the grant funding has been confirmed as approved by an external grant funding body. During the financial year as part of Council’s quarterly budget reviews any new capital grants confirmed will be reflected in the latest financial forecast.

Financial Assistance Grants

The Federal Government provides the Financial Assistance Grant program to local government under the *Local Government (Financial Assistance) Act 1995* (Commonwealth). The Financial Assistance Grant (FAG) program consists of two components:

- A general purpose component which is distributed between the states and territories according to population (i.e. per capita basis)
- An identified local road component which is distributed between the states and territories according to fixed historical shares.

Both components of the grant are untied in the hands of local government, allowing Councils to spend the grants according to local priorities.

The NSW Local Government Grants Commission recommends the distribution of the funding under the FAG program to NSW local governing bodies in accordance with the *Local Government (Financial Assistance) Act 1995* (Commonwealth) and the National Principles for allocating grants. The grant is paid in equal quarterly instalments by the Australian Government to the NSW Local Government Grants Commission for immediate distribution to local governing bodies in August, November, February and May.

The Australian Government prepaid a portion of the 2021-2022 FAG as it has historically in June. Historically there has been a prepayment of the FAG to Council in June when the Government has additional funds to expend or in extenuating circumstances such as COVID-19 to support Council to deliver essential services. The prepayment of the FAG impacts the timing of when the income is recognised (in which financial year) but does not impact the amount which Council receives overall to fund essential services. The 2021-2022 budget includes an assumed partial prepayment of 2022-2023 FAG based on historical trends. Any changes to the timing of FAG payments will be reflected in the quarterly budget review process.

Other Revenue

Other sources of revenue include commercial and residential rent, fines and infringements, cemetery plots and memorials, water and sewerage service connections and royalty payments for landfill gas.

The majority of income projections related to other revenues contained within the LTFP are based on historical trend, escalated with CPI.

Interest and Investment Revenue

Council's investments are made in accordance with the *Local Government Act 1993*, the *Local Government (General) Regulation 2005*, Council's Investment Policy, the Ministerial Investment Order issued in 2011 and the Office of Local Government Investment Policy Guidelines published in 2010.

Council invests cash in fixed rate term deposits with Approved Deposit Institutions, keeping risk low while at the same time securing ongoing returns.

Interest rates have been low in historical terms since 2010-2011 and therefore the LTFP has adopted a conservative stance and assumes a stable interest rate over the next few years consistent with recent yields. The amount of interest revenue calculated in the LTFP is directly linked to the available cash balances from the cash flow statement.

Other income in this category relates to interest imposed on overdue rates and charges. Further information on the rate of interest payable on overdue rates and charges can be found in the *Statement of Revenue* section of the Operational Plan.

FINANCIAL EXPENDITURE

Operating Expenditure

Council's budgeted operating is \$659.7 million for 2021-2022.

Employee Benefits and On-Costs

Employee benefits and on-costs includes salary and wages paid to staff and other direct staff costs such as superannuation, payroll tax, fringe benefits tax and workers compensation.

Borrowing Costs

Traditionally Council has used long term loans to finance large capital expenditures, particularly related to major water and sewerage network projects. The practice of borrowing funds to generate cash flow to deliver large infrastructure allows the cost of the project to be spread across the useful life of the asset in order to facilitate intergenerational equity for these assets.

Council secured \$150 million in new borrowings during 2020-2021. External loan balances are forecast to be \$347 million at 30 June 2021. Interest expense has been projected based on the rates applicable for each loan.

Materials and Contracts

The Materials and Contracts budget includes materials, consumables, contractor and consultancy costs and contracts including Council's waste collection contract, equipment hire and fuel, information management hardware and chemicals (for water and sewage treatment).

Depreciation and Amortisation

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life. Even though this expense item has no cash consequence, we must invest in equivalent renewal or upgrade works to ensure that the assets are held to their optimal levels of serviceability.

Depreciation expense assumptions are based on the effective lives of existing assets and the expected useful lives of new assets. This information is reviewed annually.

Other Expenses

The other expenses budget reflects costs not included in other operating statement expenditure groupings and includes: Council’s contributions to emergency services, the Environment Protection Authority waste levy, insurances, electricity, street lighting and gas, software expenses, Mayoral / Councillor fees, Holiday Park management costs, telecommunication costs, bank charges and Local Government election costs.

Capital Expenditure

Council has budgeted to invest \$175.0 million on assets in 2021-2022 to improve and add to Council’s asset portfolio, which has a gross replacement cost of over \$10.2B.

Capital Works by Expenditure Type

The 2021-2022 capital works program is targeted at renewal and upgrade works to existing assets, with 84.7% or \$148.2 million focussed on renewals and upgrades of existing assets. This allocation allows Council to maintain and renew existing assets and to address the asset backlog.

Council has also budgeted \$26.8 million, or 15.0% of the capital works program, for new and regionally significant assets.

Capital Works Program Summary by Expenditure Type	2021-22 Budget \$	% of capital works program

LONG TERM FINANCIAL PLAN

LONG TERM FINANCIAL PLAN SUMMARY

About the Long Term Financial Plan

The Long Term Financial Plan (LTFP):

- Provides financial projections, scenario modelling and performance measures
- Highlights issues and helps assess the long-term fiscal sustainability of Council and whether service levels need to be adjusted now or into the future
- Details the assumptions and drivers that help form the LTFP

Central Coast Council is both a Local Government Authority regulated by the *Local Government Act 1993* and a Water Supply Authority regulated by the *Water Management Act 2000*. This means that Council has the following funds to ensure appropriate reporting of services based on restrictions. The LTFP refers to Consolidated Fund which is the total of all the funds. The Water Supply Authority refers to only the water, sewer and drainage funds.

Fund	Consolidated	Water Supply Authority
General	✓	
Water	✓	✓
Sewer	✓	✓
Drainage	✓	✓
Domestic Waste	✓	

Council continues to face a serious financial situation and has implemented a number of measures to manage costs and increase income to achieve long-term financial sustainability including: obtaining \$150 million in bank loans, major reduction in operating expenses, reducing staff back to pre-amalgamation numbers from over 2,500 to under 2,000, selling \$40-\$60 million in underperforming assets, reviewing fees and charges and finding new revenue sources. In May 2021, the Independent Pricing and Regulatory Tribunal (IPART) approved a 15 percent Special Variation (SV) rates increase for the Central Coast for three years starting from the 2021-2022 financial year. The financial details contained in this section reflect the following scenarios for modelling and comparison purposes:

- **Scenario 1:** In May 2021, the Independent Pricing and Regulatory Tribunal (IPART) approved a 15% Special Rate Variation (SRV) rates increase for the Central Coast for three years starting from the 2021-2022 financial year. Whilst this increase gives Council short term stability, it doesn't provide for long term financial sustainability and a further SRV will be required. The financial scenario assumes Council will apply and be awarded a permanent 15% increase at the expiration of the three-year period.
- **Scenario 2:** Standard rate peg (no rate rise), this would mean 2% increase in 2021-2022 and 2.5% in 2022-2023.

It is also noted that the financial information is subject to rounding.

10 Year Forecast Summary

At its meeting on the 23 March 2021, Council adopted the following 10 Year Long Term Financial Plan. As recommended by Council this has been used as the basis for the preparation of this Operational Plan. The drivers and assumptions used to develop this model are detailed throughout this Section, with the Income Statement, Balance Sheet and Cashflow Statement drawn from this model. Whilst the recently approved SRV provides Council short term stability, it doesn't provide for long term financial sustainability and a further SRV will be required. The 10 Year Forecast below includes the assumption that Council will apply for and be awarded a permanent 15% increase at the expiration of the three-year period.

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10
	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31

FINANCIAL DRIVERS

The following financial objectives are the drivers to the Long Term Financial Plan. Tracking of the key performance indicators (KPIs) the projections are detailed under *Financial Performance*.

Financial Objective	KPI	Target
Positive Operating Performance	<ul style="list-style-type: none"> Council to deliver a modest surplus Achieve surplus in all funds 	<ul style="list-style-type: none"> Operating performance ratio >0 Balanced budget Own source operating ratio >=60%
Strong Liquidity	<ul style="list-style-type: none"> Maintain a strong cash position Restricted cash and liabilities fully funded Sufficient unrestricted cash to seize opportunity or cater for shocks 	<ul style="list-style-type: none"> Unrestricted current ratio >=1.5 Rate and charges outstanding <5% Cash expense cover ratio >=3 months
Focus on Assets	<ul style="list-style-type: none"> Align to Asset Management Policy and Strategy Capital ambitions fully funded Attract funding from government and partners Reduce and eliminate the asset backlog 	<ul style="list-style-type: none"> Asset renewal ratio >1 Asset maintenance ratio >=1 Infrastructure backlog <=2% Capital expenditure ratio >=1
Manage Debt Levels	<ul style="list-style-type: none"> Reduce debt levels over the medium term Focus on intergenerational equity Reduce funding costs 	<ul style="list-style-type: none"> Debt service coverage ratio 2.00x Debt ratio <15%
Leverage Assets	<ul style="list-style-type: none"> Improve returns from assets Invest in value accretive strategic assets Build a strategic property portfolio to supplement other income streams and fund catalyst projects 	<ul style="list-style-type: none"> Return on invested capital Improvements in property portfolio Increased rental income and gains on sale Jobs growth
Maintain or Enhance Service Levels	<ul style="list-style-type: none"> Alignment to CSP Objectives (prioritised expenditure) Best value service delivery Measurable productivity / efficiency improvements Outcome focused 	<ul style="list-style-type: none"> Reduced net cost of service Asset management ratio >1 All plans adopted by Council are incorporated in and integrated with the Long Term Financial Plan

FINANCIAL IMPACTS

State or Federal Legislation

All aspects of Council operations are heavily regulated and are therefore highly sensitive to State or Federal Government legislative changes. Legislative decisions, for example increases to Waste Levy and Cost Shifting have a material impact on Council's financial position. Every service Council offers can potentially be materially impacted by legislative change. For example, changes to childcare staff ratios impact the costs associated with delivering the service.

Cost Shifting

Cost shifting is where the responsibility and/or costs of providing a certain service, asset or regulatory function, are shifted from a higher level of government to a lower level of government. The cost is shifted without providing corresponding funding or adequate revenue raising capacity.

Cost shifting continues to place a significant burden on Council's financial situation, to the tune of approximately \$45 million per annum. Despite the recognition of cost shifting and its adverse impacts on NSW Local Government there has been no change in funding for these costs.

Examples of cost shifting include contributions to the NSW Fire and Rescue, NSW Rural Fire Services and NSW State Emergency Service, lack of adequate funding for public libraries and the failure to fully reimburse Councils for mandatory pensioner rebates.

Section 88 Waste Levy

Included in the cost shifting analysis, but worthy of specific mention, is the NSW Government's Waste Levy in s. 88 of the *Protection of the Environment Operations Act 1997*. This levy requires Council to pay a contribution to the NSW Government for each tonne of waste received for disposal at Council's waste management facilities. It presents a particularly material impost on Council. In 2020-2021 the budgeted expenditure on the Waste Levy is \$29 million.

Traditionally this State Government tax has been passed on to consumers and businesses through the Domestic Waste Management Charge (for kerbside collections), and waste disposal fees (for waste received over the weighbridge at Council's Waste Management Facilities).

Waste facility revenue will be impacted by the increasing Waste Levy, as both domestic and commercial tippers find less expensive disposal methods and/or resort to illegal dumping.

We will continue to analyse the feasibility of alternate waste management techniques in an attempt to reduce the volume of waste going to landfill and increase the amount of waste diverted. This will reduce the total Waste Levy charged as the levy only applies to waste going to landfill.

IPART Water and Sewerage and Stormwater Drainage Pricing

Water, sewerage and stormwater drainage prices are regulated by IPART. As the pricing regulator, IPART undertakes periodic reviews and determines maximum price levels for the services provided for a predetermined number of years, also known as the price path.

Council's revenue, operating and capital expenditure budgets for water, sewerage and stormwater drainage and other services reflect IPART's determination issued on 24 May 2019 for the 3-year determination period from 1 July 2019 to 30 June 2022. A new determination will be approved by IPART for prices commencing 1 July 2022.

Natural Disasters

In recent times natural disasters have impacted significantly on the Central Coast economy. Natural disasters such as droughts, bush fires, storm events and pandemics negatively impact on the services which Council provides and may cause damage to Council assets. Natural disaster events impact on the delivery of services and the progress of the capital works program all of which will have a financial impact, such as additional costs for clean-up and repairs, additional costs for materials due to scarcity, cost to replace damaged assets and loss of income where services are reduced or ceased temporarily.

Natural disasters have not been factored into the LTFP as the financial impact will be different for each event. However, the financial impact will be factored into the forecast results for the reporting periods which the natural disaster impacts.

Optimising Property Portfolio

Council continues on the path to financial recovery and sustainability and is pursuing \$40-\$60 million in property asset sales. The sale of Council assets which are underperforming or surplus to Council's current and future needs is crucial to deliver a much-needed boost to Council's financial position. The review and sale of Council assets will be an ongoing process, undertaken in a strategic and well-considered manner for both the immediate and future prosperity of the Central Coast. The properties will be sold through a competitive sales and marketing campaign to achieve the best sale's price for no less than the market value.

Projected Population Growth

The population of the Central Coast is approximately 342,000 with projections for 415,000 people by 2036. To meet the projected population growth it is estimated that an additional 41,500 dwellings and 24,600 new jobs will be needed to support the increase in the population.

Ageing Population

There has been noticeable legislative change in response to the ageing population such as phased increases to the age pension retirement age and the level of the superannuation guarantee charge.

As detailed in the Workforce Management Strategy, the current compulsory superannuation levy of 9.5% is expected to increase to 12% by 2025-2026 financial year. The financial implications of these changes include compounding increases in employee costs. Key considerations need to be given to how we will manage this generational diversity and provide financially sustainable solutions in the area of workforce management.

An overall increase in the ageing population will increase revenue pressures generated by additional pensioner rebates which are partially subsidised by the State Government. Councils which have a higher percentage of pensioners than the State average will need to fund more in pensioner rebates. Our region has a higher proportion of aged pensioners compared to other local government authorities. As the number of eligible pensioners increases in our local government area Council must fund a larger amount of pensioner rebate.

Development Activity

Development activity is closely aligned to the broader economic climate and remains difficult to project future trends.

In recent years income related to development applications has fallen and a significant proportion of this is a result of changes to State Significant Development (SSD) provisions, including specific provisions of the Gosford City Centre. Under these circumstances applications are lodged (and fees paid) directly to the Department of Planning Industry & Environment. These SSD provisions are generally for larger applications and therefore the fees are significant on a per application basis. Note Council officers are still required to undertake assessment work for these applications, through formal referral processes, so whilst the fees are reduced, the level of work remains approximately the same.

Sensitivity Analysis

Long term financial plans are inherently uncertain. They contain a wide range of assumptions that can impact future outcomes, and future patterns of income and expenditure will rarely behave as they have in the past. However, understanding the events of the past and factors that may create impacts in the future assist with testing LTFP parameters to determine whether it is flexible enough to endure such pressures.

The sensitivity analysis models impacts to variability of key assumptions that will most likely affect the LTFP.

The table below shows financial impacts to our operating result by individual key drivers. These are based on high level assumptions and 2021-2022 budgeted estimates and may have other consequential outcomes if they are realised.

Item	Variation (+ or -)	Approximate Operational Impact 2021-2022
Rate Peg	1.0% rates	\$1.8M change in revenue
Interest Rate	1.0% rate	\$4.0M change in revenue
Water Usage	1.0% consumption	\$0.6M change in revenue
Waste Disposal Volumes	1.0% tonnages	\$0.2M change in revenue
Inflation Other Expenses	0.5% cost base	\$0.5M change in expenses
Inflation Materials	0.5% cost base	\$0.9M change in expenses
Staff Establishment	1.0% increased turnover rate	\$1.8M change in expenses

FINANCIAL INCOME ASSUMPTIONS

Assumptions Summary

The financial assumptions that have been included in this LTFP are listed in the tables below. In May 2021, the Independent Pricing and Regulatory Tribunal (IPART) approved a 15 percent Special Variation (SV) rates increase for the Central Coast for three years starting from the 2021-2022 financial year. This will result in an additional \$22.9 million income in 2021-2022. Whilst this increase gives Council short term stability, it does not provide for long term financial sustainability and a further SRV will be required. Scenario 1 assumes Council will apply and be awarded a permanent 15% increase at the expiration of the three-year period.

Scenario 1: A three-year 15% increase + assumed continuation of SRV

Depreciation	\$5.5 million increase per annum.										
Other Expenses	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%

SCENARIOS

The LTFP includes the following scenarios designed to model the impact of changes in assumptions.

Scenario 1: A three-year 15% increase+ assumed continuation of SRV

Scenario 2: Standard rate peg increase

The two scenarios maintain a consistent capital works program and operating expenses. The net operating results (before capital income) for all scenarios are shown on the below graph.

The Operating Statement, Balance Sheet, Cash Flow Statement and Performance Measures provided below are based on **Scenario 1: A three-year 15% increase + assumed continuation of SRV.**

Income Statement – Scenario 1: A three-year 15% increase + assumed continuation of SRV

Methods of Monitoring Financial Performance

The following information details the mathematical formula for each of the financial ratios above.

Operating Performance Ratio

This ratio measures Council's achievement of containing operating expenditure within operating revenue. This ratio focuses on operating performance and excludes capital income from grants and contributions.

$$= \frac{\text{Total continuing operating revenue (excluding capital grants and contributions) less operating expenses}}{\text{Total continuing operating revenue (excluding capital grants and contributions)}}$$

Own Source Operating Revenue Ratio

This ratio measures fiscal flexibility and the degree of reliance on external funding sources. A Council's fiscal flexibility improves the higher the level of its own source of revenue.

$$= \frac{\text{Total continuing operating revenue excluding all grants and contributions}}{\text{Total continuing operating revenue inclusive of capital grants and contributions}}$$

Unrestricted Current Ratio

The purpose of this ratio is to demonstrate whether there are sufficient funds available to meet short term obligations.

$$= \frac{\text{Current assets less all external restrictions}}{\text{Current liabilities less specific purpose liabilities}}$$

Cash Expense Cover Ratio

This liquidity ratio indicates the number of months Council can continue paying for its immediate expenses without additional cash inflow.

$$= \frac{\text{Cash and cash equivalents plus term deposits}}{\text{Cash flows from operating and financing activities}}$$

Rates and Annual Charges Outstanding Percentage

The purpose of this measure is to assess the impact of uncollected rates and annual charges on liquidity and the adequacy of recovery efforts.

$$= \frac{\text{Rates and annual charges outstanding}}{\text{Rates and annual charges collectible}}$$

Infrastructure Backlog Ratio

This ratio shows what proportion the backlog is against the total value of Council’s infrastructure.

$$= \frac{\text{Estimated costs to bring assets to a satisfactory condition}}{\text{Net carrying amount of infrastructure assets}}$$

Asset maintenance ratio

This ratio compares actual maintenance against required maintenance to determine whether Council is investing enough funds to stop the infrastructure backlog from growing.

$$= \frac{\text{Actual asset maintenance}}{\text{Required asset maintenance}}$$

Building and Infrastructure Renewals Ratio

The purpose of this ratio is to assess the rate at which these assets are being renewed against the rate at which they are depreciating for building and infrastructure assets.

$$= \frac{\text{Asset renewals excluding WIP for Special Schedule 7 infrastructure assets only}}{\text{Depreciation, amortisation and impairment}}$$

Debt Service Cover Ratio

This ratio measures the availability of operating cash to service debt including interest, principal and lease payments.

$$= \frac{\text{Operating result before capital (excluding interest and depreciation, amortisation, impairment)}}{\text{Principal repayments and borrowing costs}}$$

STATEMENT OF REVENUE

STATEMENT OF REVENUE

Overview

The Statement of Revenue details how rates and annual charges are set, as well as fees and charges for use of Council facilities and services.

Council continues to face a serious financial situation and has implemented a number of measures to manage costs and increase income to achieve long-term financial sustainability including: obtaining \$150M in bank loans, major reduction in operating expenses, reducing staff back to pre-amalgamation numbers from over 2,500 to under 2,000, selling \$40-\$60M in underperforming assets, reviewing fees and charges and finding new revenue sources. Council also applied for a Special Rate Variation (SRV) for the 2021-22 year. The financial details now contained in this section reflect a temporary one-off 15% increase (inclusive of 2% standard rate peg and 13% SRV) that will be applied in 2021-2022 and remain in the rating base for 3 years after which time councils rating income will be reduced by the SRV component. This temporary increase reflects an increase of \$22.9M in rating income in 2021-22.

ORDINARY AND SPECIAL RATES

Ordinary and Special Rates

In accordance with the *Local Government Act 1993* applicable to merged councils, Central Coast Council is required to have a single rating structure from 1 July 2021.

Rates across the Central Coast Local Government Area (LGA) have been reviewed and will change from 1 July 2021. The changes will come from:

1. Rates harmonisation which will address the current rates imbalance from the rate path freeze and align the rating structure across the LGA for all rating categories.
2. Increase in Council's rating income.

Currently ratepayers across the Central Coast pay different rates, even though their land values are the same, as different rate paths are in place depending on whether you live in the former Wyong Shire (Wyong LGA) or former Gosford City Council area (Gosford LGA). This is because the NSW State Government put a rate structure freeze in place at the time the former Councils amalgamated in May 2016. This meant that the rate structure in place before amalgamation had to stay in place until 30 June 2021 and there could be no changes.

Finally, to ensure that Council remains financially sustainable Council applied to the Independent Pricing and Regulatory Tribunal (IPART) for a Special Variation (SV) of 13%. IPART approved a temporary increase of 13% and Council has applied the maximum IPART approved rate peg of 2%, the total increase in general rate income in 2021-22 will be 15%. The special variation applies to the total amount of Ordinary Rates income Council can collect.

The impact of rates harmonisation and the 15% SV on individual land valuations can be seen at <https://www.yourvoiceourcoast.com/all-projects/rates-harmonisation-overview-and-faqs>

Council has a limited number of inflexible rating structures mandated under NSW legislation. All the available structures are primarily based on the unimproved land value of property meaning greater increases in rates where land values have increased.

The total amount of ordinary and special rates Council can charge is capped by legislation, unless additional increase is approved. The Independent Pricing and Regulatory Tribunal (IPART) has approved a 2% rate peg for 2021-2022 as the allowable increase on this capped amount.

This capped amount is effectively shared between ratepayers according to the individual value of each property. Under the *Valuation of Land Act 1976* Council is required to use the most current land values when calculating ordinary and special rates.

These values are provided by the NSW Valuer General (VG), the independent statutory authority responsible for determining land values in NSW. The latest values provided by the VG are being used for levying rates in and have a base date of 1 July 2019. These valuations will be used for rating purposes for the 2020-2021, 2021-2022 & 2022-2023 rating years.

Under a harmonised rating structure and a 15% increase in rating income, properties with large valuations may experience rate increases well above the IPART request SV of 13% and approved rate peg increase of 2% (total increase of 15%). Other ratepayers may experience increases of less than 15% and some will see rate decreases.

Categories

In accordance with s. 514 of the *Local Government Act 1993*, all parcels of rateable land in Council's area have been classified into one of the following categories of Ordinary rates:

Land Categories		
Farmland	s. 515 of the <i>Local Government Act 1993</i>	Land is categorised as farmland if it is a parcel of rateable land valued as one assessment and its dominant use is for farming or agricultural production. Rural residential land is not categorised farmland.
Residential	s. 516 of the <i>Local Government Act 1993</i>	Land is categorised as residential if it is a parcel of rateable land valued as one assessment and its dominant use is for residential accommodation or rural residential land or if it is vacant land it is zoned or otherwise designated for use under an environmental planning instrument for residential purposes.
Mining	s. 517 of the <i>Local Government Act 1993</i>	Land is to be categorised mining if it is a parcel of rateable land valued as one assessment and its dominant use is for a coal mine or metalliferous mine.
Business	s. 518 of the <i>Local Government Act 1993</i>	Land is to be categorised as business if it cannot be categorised as farmland, residential or mining. Caravan parks and manufactured home communities are to be categorised business.
Business – Major Retail	s. 529(2)(d) of the <i>Local Government Act 1993</i> - a sub-category may be determined for the category "business" according to a centre of activity	The Business Subcategory of Major Retail applies to properties within the major retail precincts in the area of: <ul style="list-style-type: none"> • Bay Village Bateau Bay (refer to Map 1) • Lake Haven Shopping Centre and Home Mega Centre (refer to Map 2) • Westfield Tuggerah (refer to Map 3) • Tuggerah SuperCentre (refer to Map 4) • Erina Fair (refer to Map 5)
Business – Local Retail	s. 529(2)(d) of the <i>Local Government Act 1993</i> - a sub-category may be determined for the category "business" according to a centre of activity	The Business Subcategory of Local Retail applies to properties within the local retail precincts in the area at: <ul style="list-style-type: none"> • Chittaway Bay (refer to Map 6) • Lake Munmorah (refer to Map 7) • San Remo (refer to Map 8) • Wadalba (refer to Map 9) • Kincumber (refer to Map 10) • Lisarow (refer to Map 11) • West Gosford (refer to Map 12) • Woy Woy (refer to Map 13) • Wyoming (refer to Map 14)

The categorisation of all rateable land was determined as at 1 January 1994 and took place with the issue of the rate notice in January 1994.

New parcels of land created since that date have been categorised with the issue of subsequent rate notices. Where subsequent changes in categorisation have occurred, written notices to this effect have been issued in accordance with s. 520 of the *Local Government Act 1993*.

Structure including Rates Harmonisation

Council has a limited number of inflexible rating structures mandated by NSW State legislation for the practical application of ordinary rates. These rating structures are determined by Section 497 of the *Local Government Act 1993* as:

- An ad valorem¹ charge per dollar value of land (*ad valorem* rating structure)
- A base amount plus an ad valorem (*base amount* rating structure)

- An ad valorem with a minimum rate (*minimum rate* rating structure)

Council is required to harmonise its rating structure from 1 July 2021. Changes to the rating structure from the 2021-22 year include:

- Applying the maximum minimum amount to all applicable properties;
- Applying the former Wyong Business Local Retail and Major Retail to relevant properties across the LGA;
- Removal of the former Gosford residential sub-category Flood; and
- Removal of base rates for some special rates.

Harmonising the minimum rate to \$565 means that all ratepayers will be levied rates of at least \$565 regardless of the property's land value.

The following table provides a summary of the 2021-2022 rates structure.

Ordinary Rates

Ordinary rates are used to provide essential services such as the road network, street lighting, street cleaning, footpaths, parks, sport and recreation facilities, environmental planning and conservation, city rangers, pest control, libraries, town planning and building control, community services, and much more.

Category and Sub- category	No. of Properties	Minimum (\$)	Ad Valorem Cents per \$ land value	Forecast Income per category \$
Farmland	431	565	0.183622	905,000
Residential	135,275	565	0.342450	171,504,000
Business	6,580	565	0.663713	22,431,000
Business – Major Retail	22	565	1.078595	1,847,000
Business – Local Retail	26	565	0.716435	286,000
Mining	5	565	46.766206	2,373,000

Estimated Ordinary Residential Rate

\$150,000	\$565	\$280,000	\$959	\$750,000	\$2,568

Typical Residential Ratepayer- former Gosford Local Government Area (excluding water usage charges)

Based on 2019 Land Value of \$361,000	Annual Amount
Ordinary Residential Rates	\$1,236
Domestic Waste Management Charge*	
Three bin waste and recycling collection services with 6 bulk kerbside collections.	\$520
<i>*\$520 Eastern area waste service or \$461 Western area waste service which excludes the garden vegetation bin service</i>	
Water Authority Charges#	
Water, sewerage and stormwater drainage services as detailed in the table below	\$720
<i>#The Water Authority Charges differ subject to the differences in sewerage prices set by IPART for former Gosford & former Wyong residents</i>	
Quarterly instalment amount	\$619
Total annual amount	\$2,476

Typical Residential Ratepayer- former Wyong Local Government Area (excluding water usage charges)

Based on 2019 Land Value of \$361,000	Annual Amount
Ordinary Residential Rates	\$1,236
Domestic Waste Management Charge*	
Three bin waste and recycling collection services with 6 bulk kerbside collections.	\$520
<i>*\$520 Eastern area waste service or \$461 Western area waste service which excludes the garden vegetation bin service</i>	
Water Authority Charges#	
Water, sewerage and stormwater drainage services as detailed in the table below	\$684
<i>#The Water Authority Charges differ subject to the differences in sewerage prices set by IPART for former Gosford & former Wyong residents</i>	
Quarterly instalment amount	\$610
Total annual amount	\$2,440

Water Authority Charges - former Gosford Local Government Area (excluding water usage charges)

Single Residential Dwelling - House	Annual Amount
Water Service Charge	\$87.29
For the supply of water services - (separate user pays charges apply for water usage)	
Sewer Service Charge	\$416.27
For the supply of sewer service	
Stormwater Drainage Service Charge	\$108.00
Provides funds to maintain and improve Council's drainage network	
Sewer Usage Charge	\$108.75
Fixed usage charge	
Quarterly instalment amount	\$180.08
Total annual service and sewer usage charges (excluding water usage @ \$2.10 per kL)	\$720.31

Water Authority Charges – former Wyong Local Government Area (excluding water usage charges)

Single Residential Dwelling - House	Annual Amount
Water Service Charge For the supply of water services - (separate user pays charges apply for water usage)	\$87.29
Sewer Service Charge For the supply of sewer service	\$379.88
Stormwater Drainage Service Charge Provides funds to maintain and improve Council's drainage network	\$108.00
Sewer Usage Charge Fixed usage charge	\$108.75
Quarterly instalment amount	\$170.98
Total annual service and sewer usage charges (excluding water usage @ \$2.10 per kL)	\$683.92

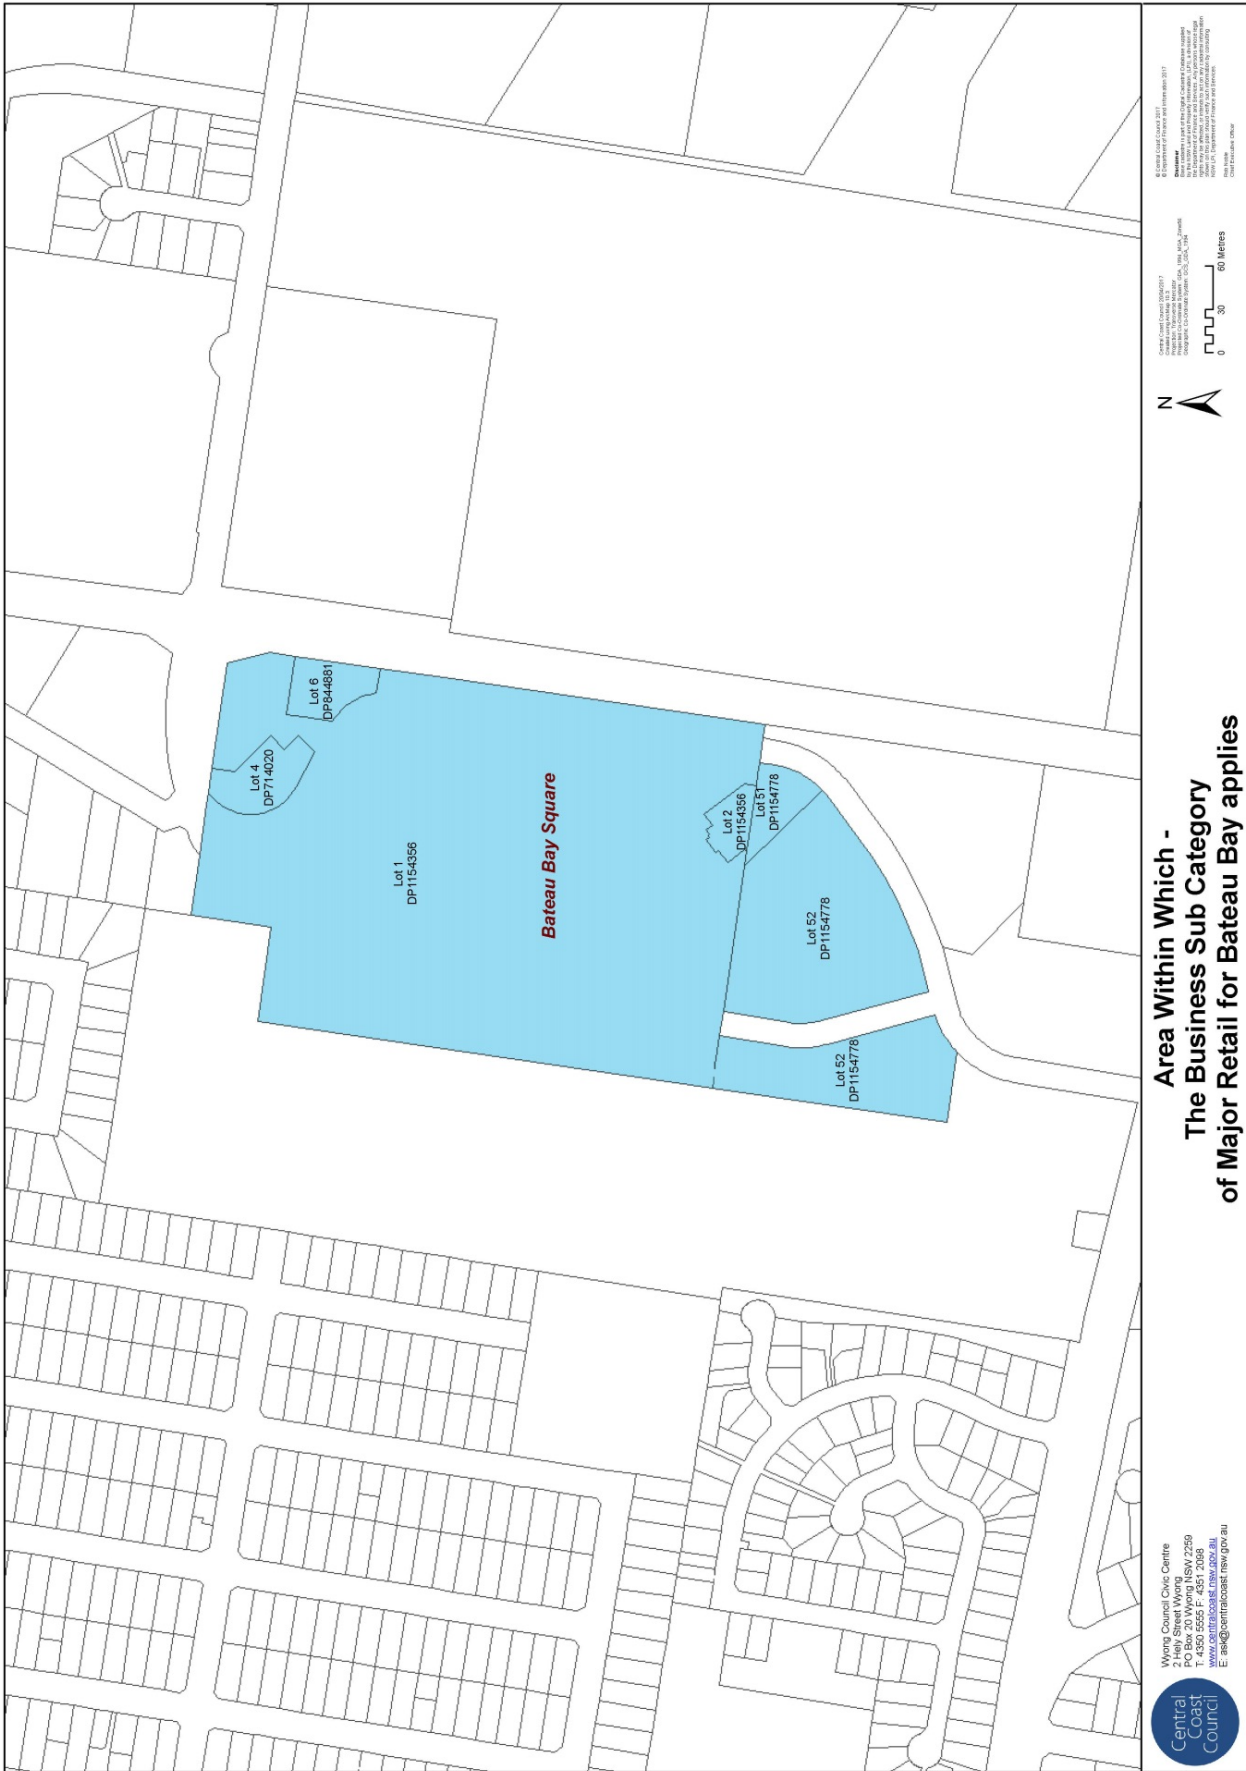

Billing Methodology

Council operates as both the local government authority under the *Local Government Act 1993 (LGA)* and as the local water authority under the *Water Management Act 2000 (WMA)*.

Current Billing Methodology				
Rate or Service Charge	Legislation	Notice/Account	Billing Frequency	Payment Dates
Ordinary Rates	LGA	Annual Rates	July annually	In full by 31 August or four instalments due: <ul style="list-style-type: none"> • 31 August • 30 November • 28 February • 31 May
Special Rates				
Domestic Waste				
Other (non-Domestic) Waste				
Water Service	WMA	Water Account	Quarterly*	30 days after issue date
Sewerage Service				
Stormwater Drainage Service				
Water Usage				
Sewer Usage				
Trade Waste Usage		Trade Waste Notice	Annually	

* Various issue dates depending on suburb / area according to water meter reading program

ANNUAL CHARGES

Annual Charges for Services

In addition to ordinary rates and special rates, Council will levy annual charges for the following services in 2021-2022:

- Domestic waste management services
- Waste management services (non-domestic)
- Water supply services
- Sewerage services
- Stormwater drainage services

The annual charges for water supply, sewerage and stormwater drainage services have been updated to reflect IPART's final determinations issued on 24 May 2019.

Domestic Waste Management Service Charges

Council levies a domestic waste management service charge on all parcels of rateable land to which a service is available. This covers the cost of providing waste collection and recycling services and the whole of life cost for managing waste including the remediation of landfills.

Domestic Waste Management Service Charges	Annual Charge	Rate Per Week	No of Assessments	Forecast Income
Domestic Waste Management Availability Charge	\$72.00	\$1.38	2,620	\$189,000

Purpose: Fund waste management facilities to meet potential future demands from vacant land.

Applies to: All vacant parcels of rateable land within Council's waste collection area.

Refer Map 21

Domestic Waste Management Service – Eastern Area	\$520.00	\$10.00	136,563	\$71,013,000
---	----------	---------	---------	--------------

Purpose: Cover cost of Council's three bin waste and recycling collection services plus the whole of life cost for managing waste including the remediation of landfills.

Applies to: all domestic properties within Council's waste collection area located east of the M1 Motorway with an approval for a residential building. Multiple charges will apply where multiple dwellings have been approved.

Provides: Access to Council's three bin collection service consisting of:

- Weekly collection of a 140 litre waste bin
- Fortnightly collection of a 240 litre recycling bin
- Fortnightly collection of a 240 litre garden vegetation bin
- Six kerbside clean up services per year.

Domestic Waste Management Service Charges	Annual Charge	Rate Per Week	No of Assessments	Forecast Income
---	---------------	---------------	-------------------	-----------------

Upgrades and additional services: Available upon request of the owner at the additional cost(s) indicated below under *Domestic waste management service – upgrades and additional services*.

Options for large residential complexes: Where more than 6 strata titled or community title residential units exist on one allotment, bulk bin options for waste and or recyclables may be provided up to the equivalent volume of one 140 litre waste bin per tenement.

Refer Map 21

Domestic Waste Management Service – Western Area	\$461.00	\$8.87	3,619	\$1,668,000
---	----------	--------	-------	-------------

Purpose: Cover cost of Council’s two bin waste and recycling collection services plus the whole of life cost for managing waste including the remediation of landfills.

Applies to: all domestic properties within Council’s waste collection area located west of the M1 Motorway with an approval for a residential building. Multiple charges will apply where multiple dwellings have been approved

Provides: Access to Council’s two bin collection service consisting of

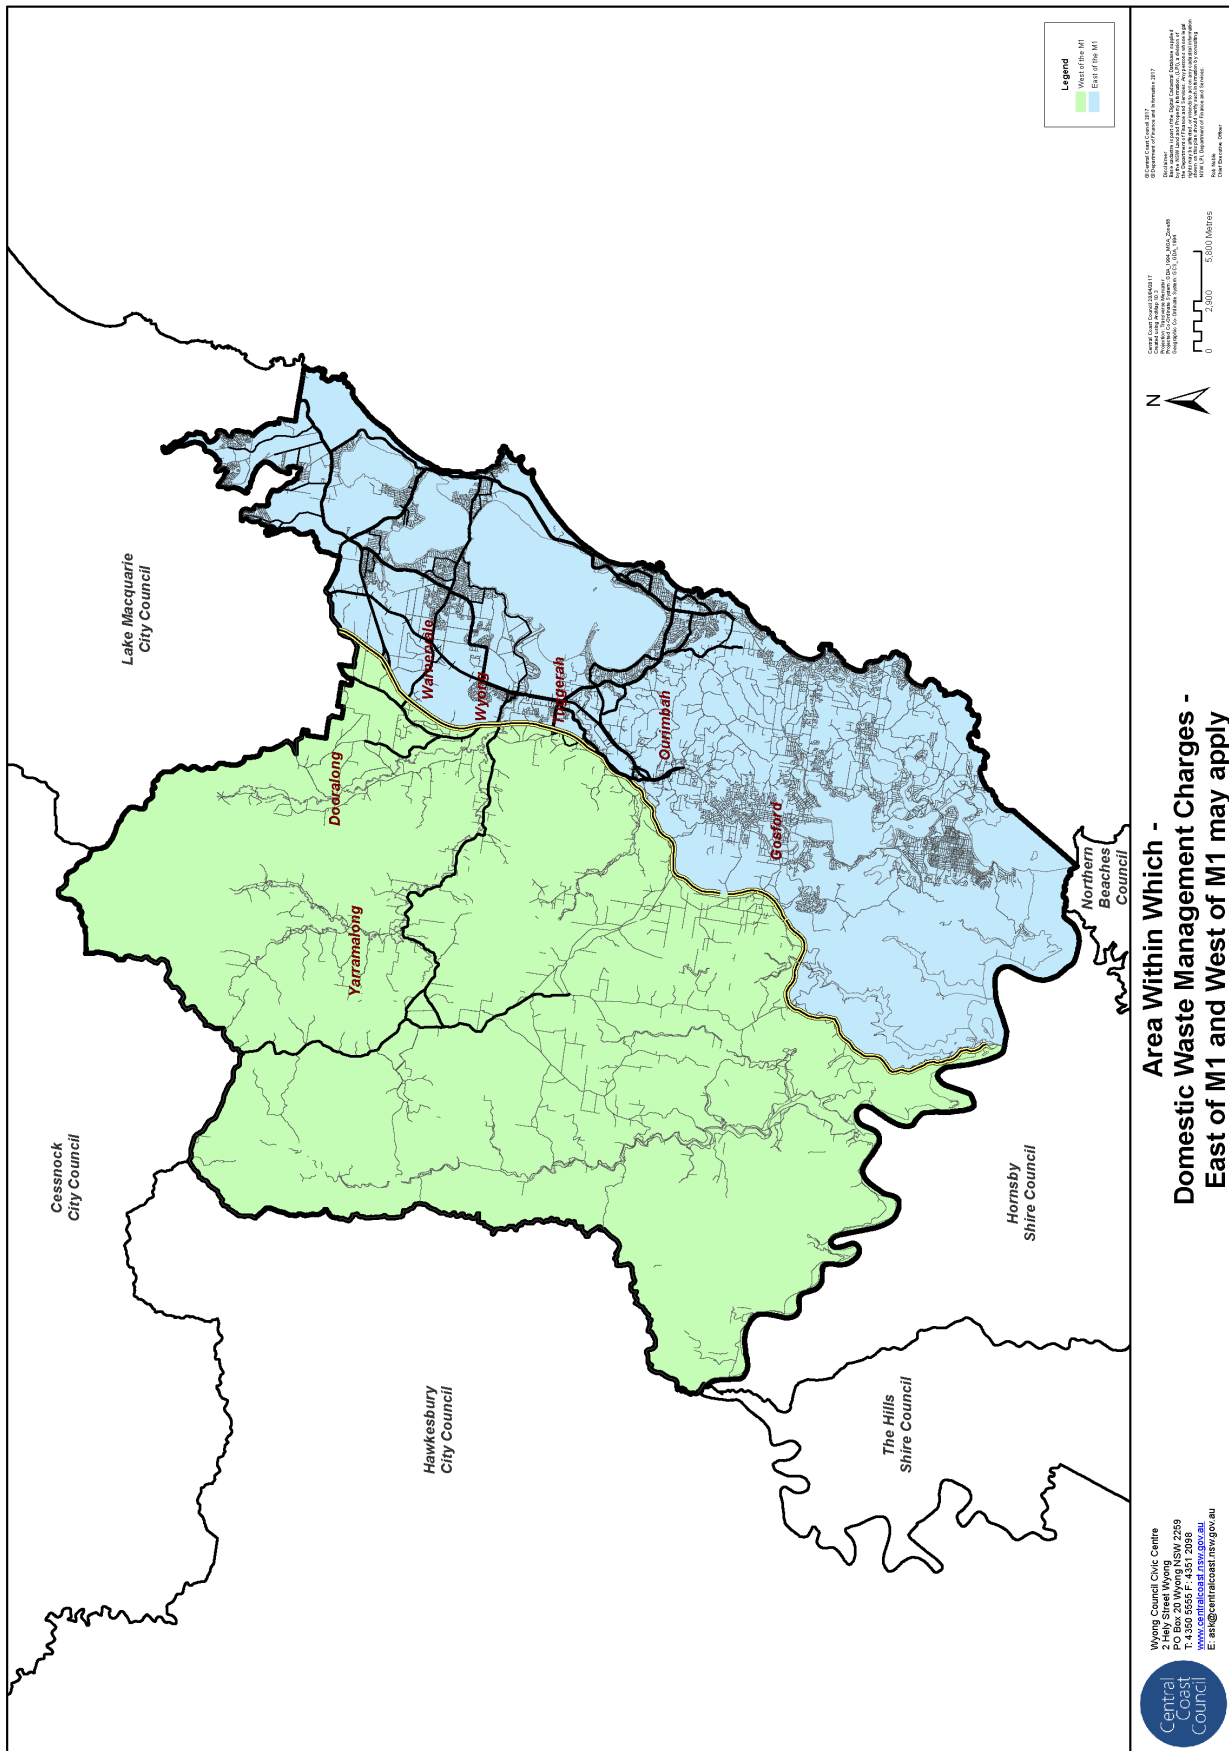

- Weekly collection of a 140 litre waste bin
- Fortnightly collection of a 240 litre recycling bin
- Six kerbside clean up services per year.

Upgrades and additional services: Available upon request of the owner at the additional cost(s) indicated below under *Domestic waste management service – upgrades and additional services*.

Refer to Map 21

Map 21 – Domestic Waste Management Charges Eastern Area and Western Area

Domestic Waste Upgrades and Additional Services

Domestic properties may upgrade their 140 litre domestic waste bin to a 240 litre or 360 litre domestic waste bin and/or upgrade their 240 litre recycling bin to a 360 litre recycling bin and/or request additional 140, 240 or 360 domestic waste bins, 240 or 360 litre recycling bins or 240 litre garden vegetation bins.

The costs to upgrade and for additional bins are shown in the table below:

Service Upgrades and Additions	Annual Charge	Rate Per Week
140 litre domestic waste bin to 240 litre domestic waste bin upgrade	\$138.00	\$2.65
140 litre domestic waste bin to 360 litre domestic waste bin upgrade	\$276.00	\$5.31
140 litre domestic waste bin additional service	\$273.00	\$5.25
240 litre domestic waste bin additional service	\$413.00	\$7.94
360 litre domestic waste bin additional service	\$552.00	\$10.62
240 litre recycling bin to 360 litre recycling bin upgrade	\$36.00	\$0.69
240 litre recycling bin additional service	\$104.00	\$2.00
360 litre recycling bin additional service	\$138.00	\$2.65
240 litre vegetation bin additional service	\$112.00	\$2.15

The anticipated yield for 2021-2022 from the upgraded domestic waste services is \$3,910,000.

Additional Short Term Extra Service

Residents may receive an additional service to any bin type on any working day by providing one full business day notice.

Additional Service	Rate Per Additional Service
140 litre Domestic Waste Bin	\$18.93
240 litre Domestic Waste Bin	\$20.15
360 litre Domestic Waste Bin	\$21.37
660 litre Domestic Waste Bin	\$39.18
1.1 m ³ Domestic Waste Bin	\$65.26
1.5 m ³ Domestic Waste Bin	\$89.02
240 litre Recycling Bin	\$20.15
360 litre Recycling Bin	\$21.37
660 litre Recycling Bin	\$39.18
1.1 m ³ Recycling Bin	\$65.26
1.5 m ³ Recycling Bin	\$89.02
240 litre Vegetation Bin	\$20.15

Additional Kerbside Collection Service

Residents may receive an additional Kerbside collection service on any working day by providing two full business days notice.

Additional Service	Rate Per Additional Service
Extra kerbside collection (Per 1m ³)	\$84.00

Other Waste Management Service Charge – Non Domestic

Council levies the waste management charge on all parcels of applicable land for which a Council waste, recycling or vegetation bin service is provided.

Commercial customers and non-rateable properties may be provided with waste bins of various capacities and/or with recycling bins of various capacities and/or a 240 litre garden vegetation bin.

The standard service frequency for the waste bins is once per week and the recycling bins and 240 litre garden vegetation bin is once per fortnight.

Multiple services per week of any bin can be arranged in accordance with the waste collection contract. The cost will be the multiple of the standard annual charge.

Service	Annual Charge	Rate Per Week
140 litre Waste Bin	\$389.00	\$7.48
240 litre Waste Bin	\$519.00	\$9.98
360 litre Waste Bin	\$640.00	\$12.31
660 litre Waste Bin	\$2,216.00	\$42.62
1.1 m ³ Waste Bin	\$3,094.00	\$59.50
1.5 m ³ Waste Bin	\$4,167.00	\$80.13
240 litre Recycling Bin	\$104.00	\$2.00
360 litre Recycling Bin	\$139.00	\$2.67
660 litre Recycling Bin	\$287.00	\$5.52
1.1 m ³ Recycling Bin	\$476.00	\$9.15
1.5 m ³ Recycling Bin	\$651.00	\$12.52
240 litre Vegetation Bin	\$112.00	\$2.15

The yield to Council from these charges in 2021-2022 is estimated to be \$3,905,000.

Pension Rebates - Ordinary Rates and Domestic Waste Management Charges

Council provides a rate reduction on the combined ordinary rate levy amount and the domestic waste management charge of 50%, with a maximum combined reduction of \$250 to eligible pensioners.

Of this reduction 55% is reimbursed to Council by the NSW Government.

The estimated total amount of pension rebates for ordinary rates and domestic waste management charges in 2021-2022 is \$6,373,000 of which 55% is funded by the NSW Government with the balance funded by Council.

Water, Sewerage and Stormwater Drainage Charges

Central Coast Council's water, sewerage and stormwater drainage services and a number of its associated ancillary services are levied under the *Water Management Act 2000*. Those services are declared monopoly services under s. 4 of the *Independent Pricing and Regulatory Tribunal Act 1992*.

Council's prices must therefore be set in accordance with any IPART determined methodologies and/or maximum prices and are subject to approval by the relevant Minister.

IPART issued two determinations on the maximum prices that Council can charge for water, sewerage and stormwater services on 24 May 2019. The determinations apply for three years from 1 July 2019 to 30 June 2022 (the 2019 determination period):

1. Central Coast Council - Maximum prices for water, sewerage, stormwater drainage and other services from 1 July 2019
2. Bulk water transfers between Hunter Water Corporation and Central Coast Council – Maximum prices from 1 July 2019

In April 2021 IPART Clarification Notice No. 1 of 2021 was published in the NSW Government Gazette due to the fact a clerical error was identified in the original IPART modelling by Council. Amendments have been made by IPART in the Notice to the 2020-21 sewer service charges to correct the impact of this error. The error set sewer service charges marginally lower than they should have been. This reduced the sewer service charge revenue that Council was able to collect over the three-year determination period by \$1.8 million or 1% and resulted in customers paying around \$5 to \$10 less in each of the last two years. So that Council can recover this revenue, sewer service charges will increase from July 2021. While customers will pay slightly higher prices in 2021-2022, they will pay no more in total than was intended

over the three-year determination period. This is because lower prices were applied for the first two years of the determination period

All prices for water, sewerage, stormwater drainage and ancillary services for 2021-2022 are in accordance with IPART's final determinations issued on 24 May 2019 and IPART Clarification Notice No. 1 of 2021 which was published in the NSW Government Gazette on 30 April 2021 adjusted by the 2021-2022 CPI multiplier of 3.3% as the final determinations were made in 2019-2020 dollars.

The CPI multiplier as per the IPART determinations is the consumer price index All Groups index number for the weighted average of eight capital cities, published by the Australian Bureau of Statistics. The maximum prices in the determinations are to be adjusted for inflation by multiplying the specified price in 2019-2020 dollars by the specified CPI multiplier.

For 2021-2022 that is calculated as the percentage change from the March Quarter 2019 to March Quarter 2021, which equals 3.3%,

$$\text{CPI} = \frac{\text{CPI March 2021}}{\text{CPI March 2019}}$$

The multiplier for 2021-2022 is a two-year multiplier and is the sum of the March 2019 to March 2020 Consumer Price Index movement of 2.2% and the March 2020 to March 2021 Consumer Price Index movement of 1.1%.

Retirement villages are classified as non-residential properties. IPART's decision reduces the difference between bills for retirement villages that are exempt from water, sewerage and stormwater service charges and those that are not. Classification as non-residential properties will also result in lower bills for retirement villages than charging each unit within a village as a residential customer, even if the individual unit was eligible for a pensioner discount (Final Report Water May 2019, page 9).

Water Supply Service Charges

Council levies the water supply service charge on the owners of all properties for which there is a connected water supply service. This covers the costs of making water available. Council does not levy water supply service charges to unconnected properties.

For those properties that become chargeable or non-chargeable during the year the charge will be applied in their next billing period (e.g. next quarter).

The water supply service charges for 2021-2022 are as follows:

Basis of Charge Meter Size or Property Type	Annual Charge
Unconnected Property	NIL
Unmetered Property (Connected to the water supply system but not serviced by a meter)	\$87.29
20mm meter	\$87.29
25mm meter	\$136.39
32mm meter	\$223.46
40mm meter	\$349.15
50mm meter	\$545.55
80mm meter	\$1,396.61
100mm meter	\$2,182.19
Other Meter sizes	$(\text{Meter size in mm})^2 \times \text{Water supply access charge for a 20mm Meter for the applicable period}$

400

The expected total yield in 2021-2022 from water service charges is \$12,967,000.

Water Usage Charges

In addition to the water supply service charge, all potable water consumed will be charged at \$2.10 per kilolitre.

Where water usage relates to multiple financial year periods the usage will be apportioned to each period on a daily average basis and the applicable period's water usage charge will be applied.

Where a property is unmetered the water usage for that property will be a deemed volume based on the previous metered period (approx. 365 days). If there is not a previous metered period zero kilolitres will be charged.

Where a property is unconnected zero kilolitres will be charged.

The expected total yield in 2021-2022 from this charge is \$61,631,000.

Sewerage Supply Service Charges

Council levies this charge to cover the cost of supplying sewerage services on all properties for which there is a sewerage service either connected or available. Council does not levy sewerage supply service charges to unconnected properties. For those properties that become chargeable or non-chargeable during the year the charge will be applied in the next billing period.

Non Residential properties will be levied a sewerage service charge based on meter size and sewerage usage charges. However, Non-Residential properties within a Mixed Multi-Premises that is serviced by a common meter will be levied a sewerage service charge based on a 20mm meter. A discharge factor in accordance with Council's Trade Waste Policy is applied to the charges

Residential properties will be levied a sewerage service charge based on a 20mm meter with a fixed sewerage discharge factor of 75% and a deemed sewerage usage charge based on the property type.

Sewerage service charge in the Former Gosford Local Government Area

Basis of Charge	Annual Charge
Meter Size or Property Type	
Unconnected Property	NIL
Unmetered Property	\$555.03
20mm meter	\$555.03
25mm meter	\$867.24
32mm meter	\$1,420.88
40mm meter	\$2,220.13
50mm meter	\$3,468.96
80mm meter	\$8,880.54
100mm meter	\$13,875.83
Other Meter sizes	$(\text{Meter size in mm})^2 \times \text{sewerage access charge for a 20mm Meter for the applicable period}$ 400

Applying the fixed sewerage discharge factor of 75% for Residential Properties, the sewerage service charge for a Residential Property in the former Gosford local government area is \$416.27.

Sewerage service charge in the Former Wyong Local Government Area

Basis of Charge	Annual Charge
Meter Size or Property Type	
Unconnected properties	NIL
Unmetered Property	\$506.50
20mm meter	\$506.50
25mm meter	\$673.51
32mm meter	\$1,103.48

Basis of Charge	Annual Charge
40mm meter	\$1,724.18
50mm meter	\$2,694.03
80mm meter	\$6,896.73
100mm meter	\$10,776.15
Other Meter sizes	$(\text{Meter size in mm})^2 \times \text{sewerage access charge for a 25mm Meter for the applicable period}$ 625

Applying the fixed sewerage discharge factor of 75% for Residential Properties, the adjusted sewerage service charge for a Residential Property in the former Wyong local government area is \$379.88.

The expected total yield in 2021-2022 from sewerage supply service charge is \$57,744,000.

Sewerage Usage Charges

For the purpose of the sewerage usage charge, the volume deemed to have been discharged from a Property into the sewerage system is

- (1) in the case of a Residential Property:
 - (A) within a Mixed Multi or Multi-Premises: 80/365 kilolitres per day of that period;
 - (B) not within a Mixed Multi or Multi-Premises: 125/365 kilolitres per day of that period;
- (2) in the case of a Non-Residential Property:
 - (A) within a Mixed Multi-Premises: 125/365 kilolitres per day of that period;
 - (B) not within a Mixed Multi-Premises: – the volume of water supplied to that Property multiplied by the Sewerage Discharge Factor; and
- (3) In the case of an Unconnected Property – zero kilolitres.

Exempt Land will be charged for sewerage usage charges.

Sewage discharged into the sewerage network will be charged at \$0.87 per kilolitre.

The expected total yield in 2021-2022 from this charge is \$16,218,000.

Recycled Water

Supply of reticulated tertiary treated sewerage effluent, except when covered by an individual agreement, will be charged at 50% of the potable water supply charge. This charge is \$1.05 per kilolitre for the 2021-2022 financial year.

Bulk Water Transfers

Bulk water transfers between Hunter Water and Central Coast Council will be charged at \$0.33 per kilolitre for the 2021-2022 financial year.

Stormwater Drainage Service Charges

This charge is levied by Council for the provision of stormwater drainage services and covers the cost of maintaining the drainage network.

Currently there are two designated Drainage Areas in place under the *Water Management Act 2000*. The former Gosford drainage area covered the entire former Gosford LGA (refer to Map 22), while the drainage area for the former Wyong LGA included all properties within 1.5km and/or east of the M1 (refer to Map 23).

For the stormwater drainage service charge to apply throughout the Central Coast LGA, Council needs to apply to the NSW Minister for Water to have the entire Central Coast LGA declared a Drainage Area under the *Water Management Act 2000* (refer to Map 24). Until this time, the stormwater drainage service charge will apply to the designated drainage areas for both former LGAs.

For information on assessing properties as low impact for stormwater drainage service charges and the appropriate application form please refer to Council's website www.centralcoast.nsw.gov.au.

Fixed stormwater drainage service charges

Basis of Charge	Annual Charge
Low Impact Property	\$108.00
Residential Property that is not part of a Multi-Premises	\$108.00
Each Property within a Residential Multi-Premises or Mixed Multi-Premises	\$81.00
Vacant Land	\$81.00

Area-based stormwater drainage service charges

The area-based stormwater drainage service charge is applicable to Non-Residential Properties that do not fall within one of the categories of Property that may be charged a fixed stormwater drainage service charge.

Property Area	Annual Charge
Small ($\leq 1,000\text{m}^2$)	\$108.00
Medium ($> 1,000\text{m}^2$ and $\leq 10,000\text{m}^2$)	\$189.01
Large ($> 10,000\text{m}^2$ and $\leq 45,000\text{m}^2$)	\$891.02
Very Large ($> 45,000\text{m}^2$)	\$2,700.09

The expected total yield in 2021-2022 from the stormwater drainage charge is \$15,496,000.

Pension Rebates - Water and Sewerage Service Charges

Council provides a reduction of 50% of the water supply service and water usage charges levied up to a maximum of \$87.50 and a further reduction of 50% of sewerage service and sewerage usage charges levied up to a maximum of \$87.50.

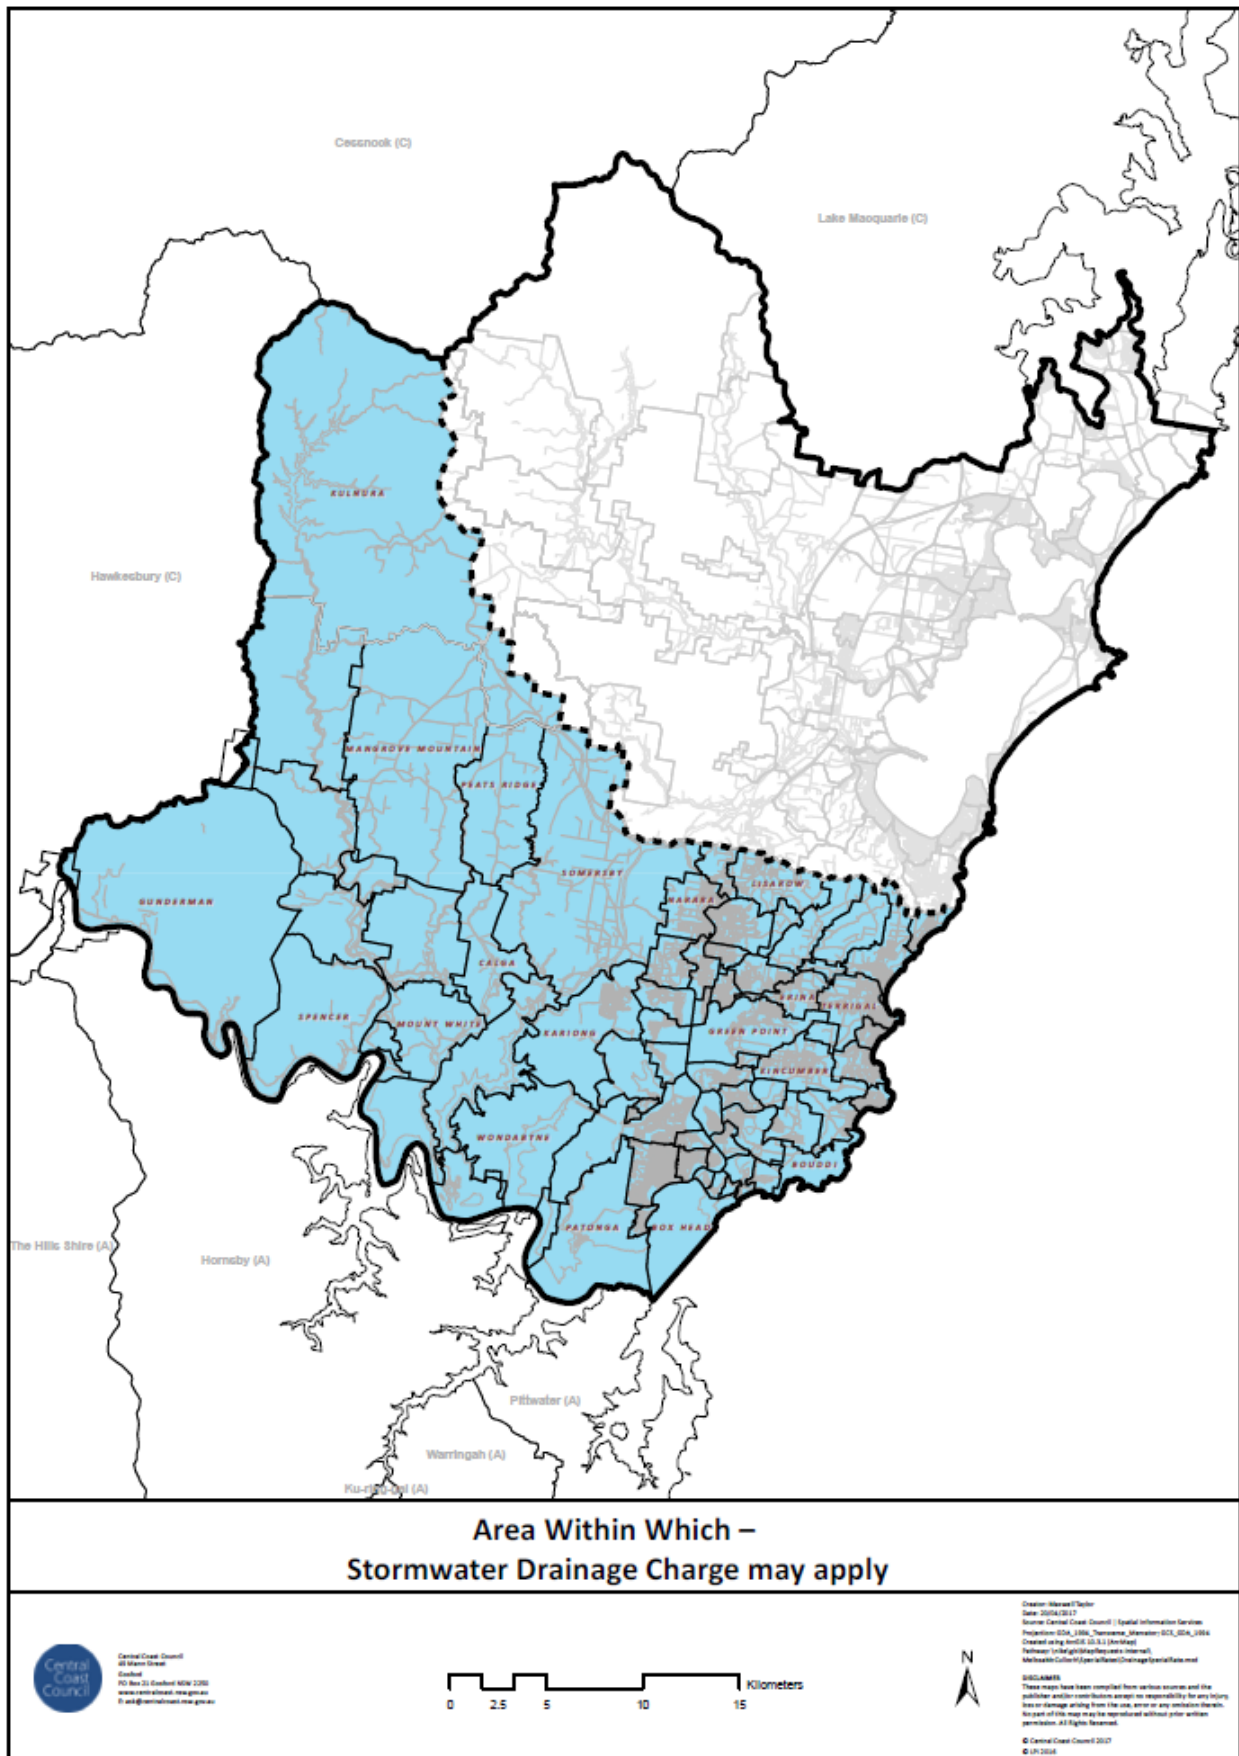

Of these reductions 55% is reimbursed by the NSW Government. The estimated total amount of the pension rebate in 2021-2022 is \$4,274,000.

Goods and Services Tax

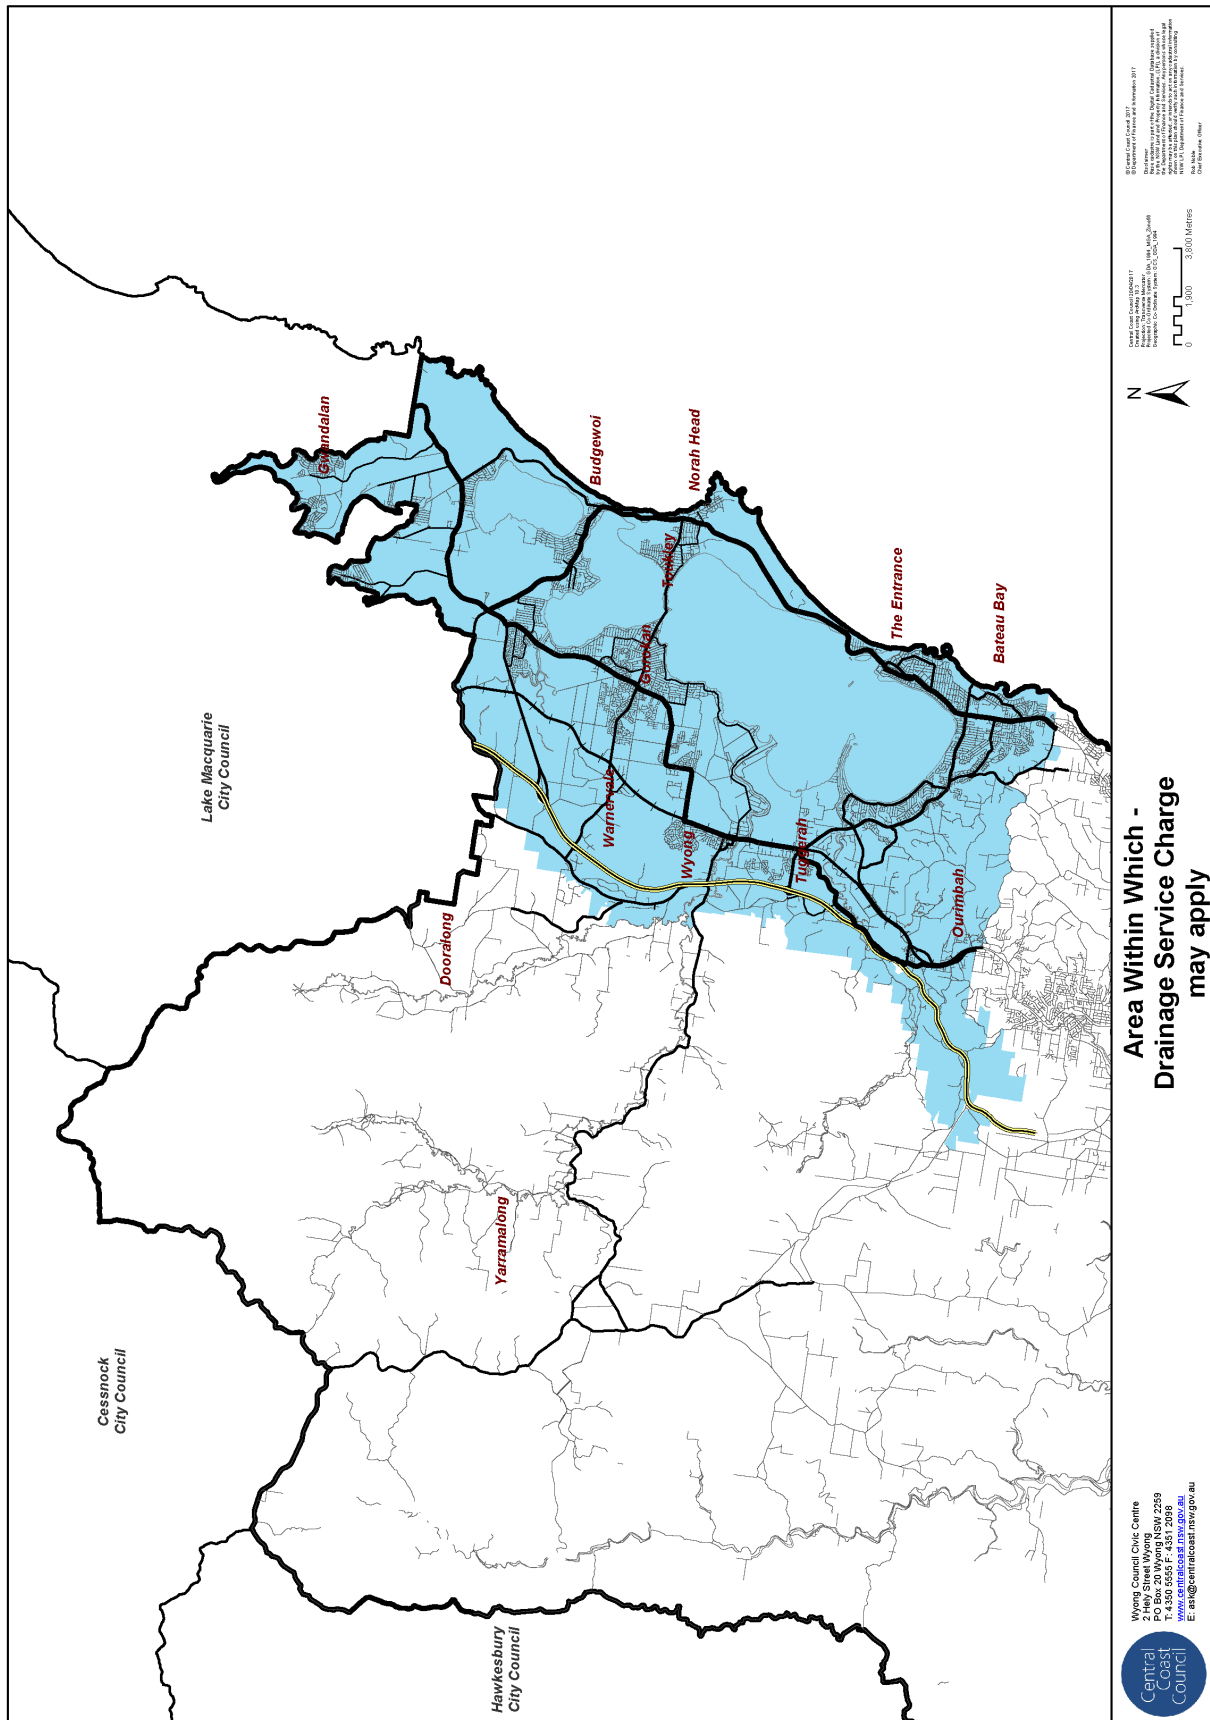

Goods and Service Tax (GST) does not apply to Council's annual rates and charges. GST does however apply to certain fees as indicated in the schedule of fees and charges pursuant to a new *A New Tax System (Goods and Services Tax) Act 1999*.

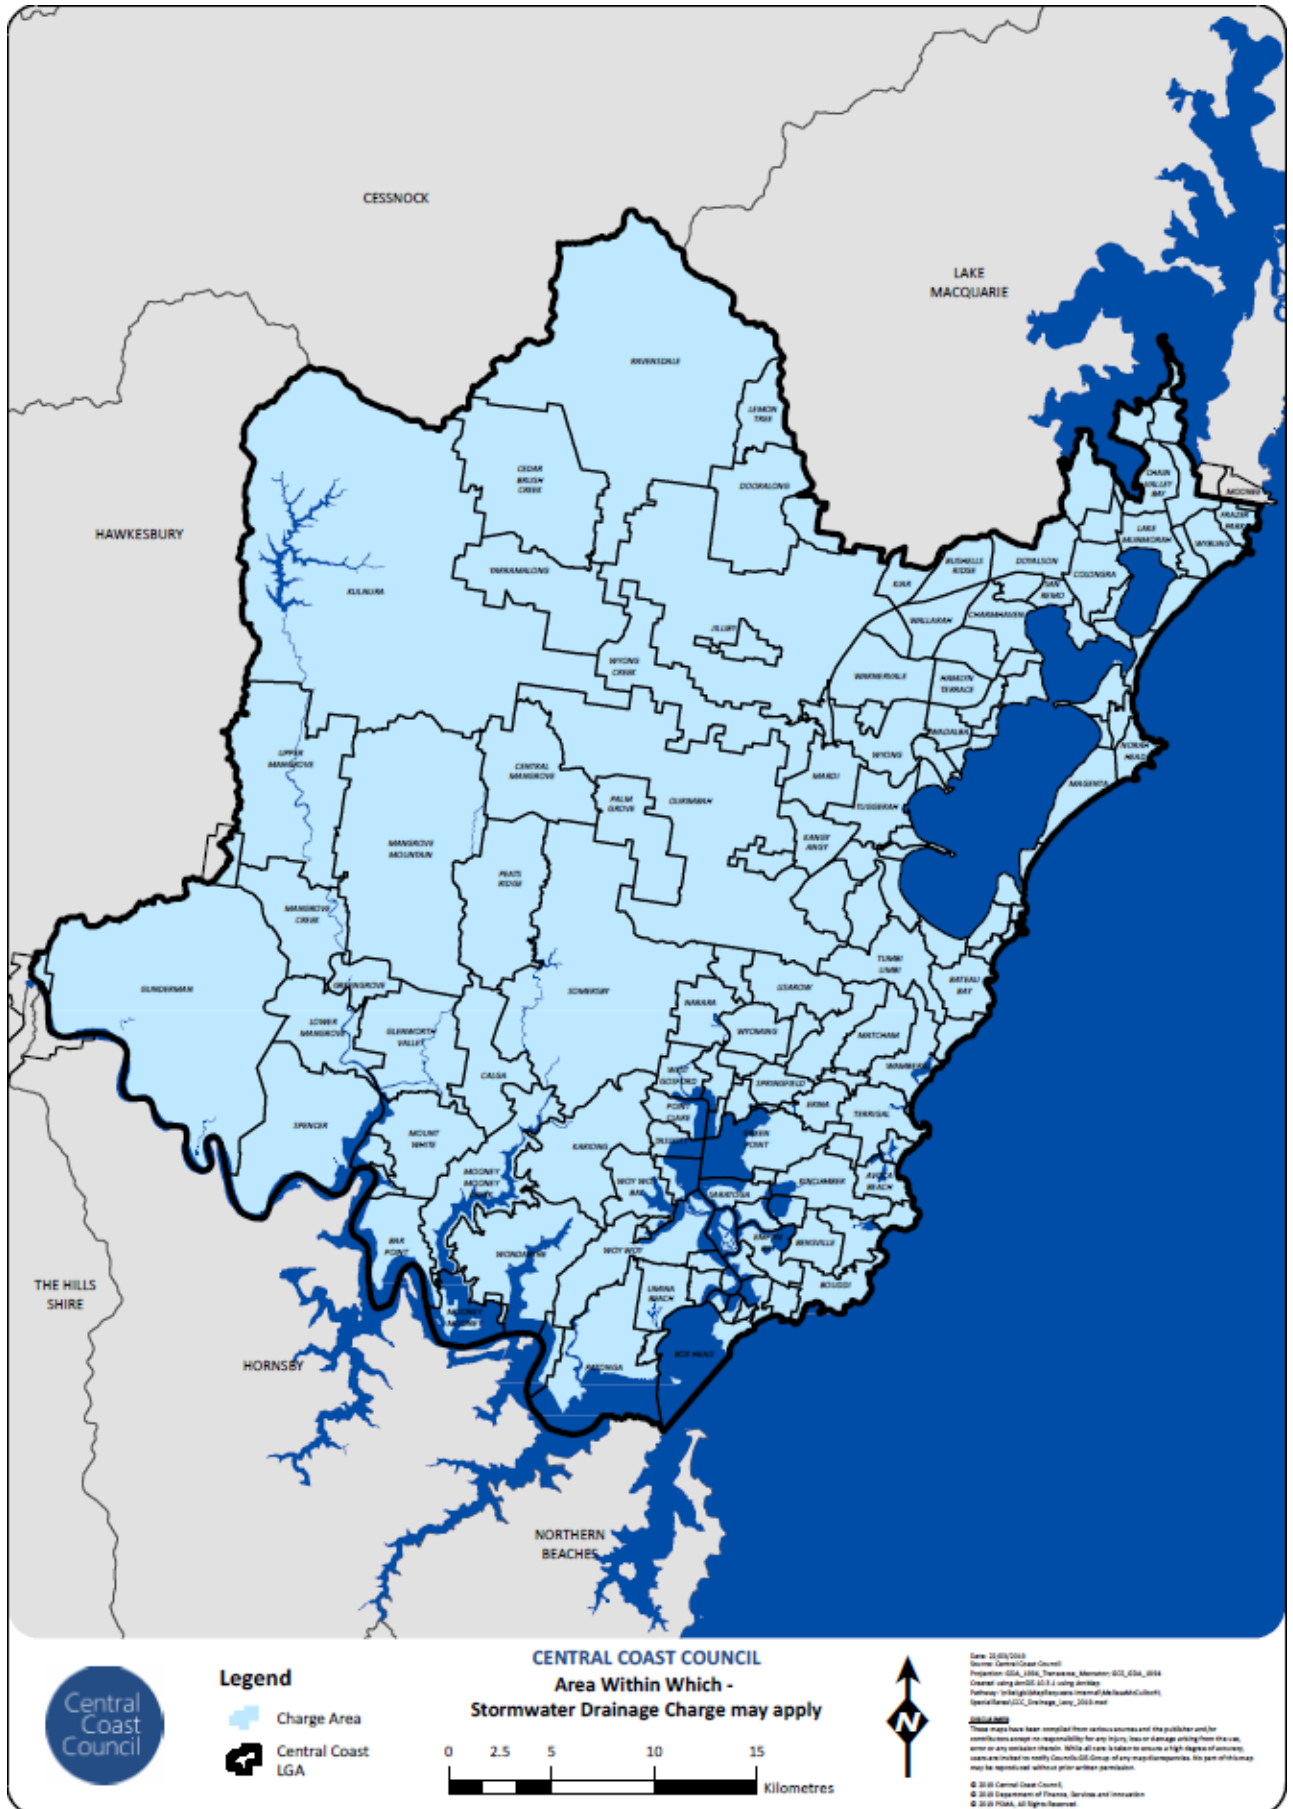

Map 22 – Stormwater Drainage Service Charge Area (former Gosford Local Government Area)

Map 23 – Stormwater Drainage Service Charge Area (former Wyong Local Government Area)

Map 24 – Proposed Stormwater Drainage Service Charge Area

Water, Sewerage and Stormwater Drainage Service and Usage Charges*

The pricing for water, sewerage and stormwater drainage service and usage charges for each property type is as follows:

Property Type	Water Service Charges	Water Usage Charges	Sewer Service Charges	Sewer Usage Charges	Stormwater Drainage Service Charges
Metered residential properties with individual meter(s)	Each property is levied the 20mm meter water service charge.	Each property will be levied for water passing through its meter.	Each property is levied the 20mm meter sewerage service charge (based on former Council local government area) multiplied by the deemed fixed sewerage discharge factor of 75%.	Each property will be levied a deemed usage charge.	Each property is levied the stormwater drainage service charge based on their property category.
Metered residential properties with a common meter(s)	Each property will be levied the 20mm meter water service charge.	Usage through a common meter will be apportioned by unit entitlement or apportioned equally across all premises.	Each property is levied the sewerage service charge (based on former Council local government area) for a 20mm meter multiplied by the deemed fixed sewerage discharge factor of 75%.	Each property will be levied a deemed usage charge	Each property will be levied the stormwater drainage service charge based on their property category.
Metered Residential properties within a mixed multi-premises that is serviced by a common meter	Each property is levied the 20mm meter water service charge	Usage through a common meter will be apportioned by unit entitlement or apportioned equally across all premises.	Each property is levied the sewerage service charge (based on former Council local government area) for a 20mm meter, multiplied by the deemed fixed sewerage discharge factor of 75%.	Each property will be levied a deemed usage charge – note no discharge factor is applied.	Each property is levied the stormwater drainage service charge based on their property category.
Metered Non-residential properties with individual meter(s).	Each property is levied the water service charge based on the meter size(s) of the property.	Each property will be levied for water passing through its meter.	Each property is levied the sewerage service charge (based on former Council local government area) based on the meter size of the property, multiplied by the applicable discharge factor.	Sewer usage is based on the water usage multiplied by the applicable discharge factor.	The storm water drainage service charge will apply based on either low impact or on the rateable properties land size.

Property Type	Water Service Charges	Water Usage Charges	Sewer Service Charges	Sewer Usage Charges	Stormwater Drainage Service Charges
Metered non-residential properties with a common meter(s)	Each property is levied the water service charge based on the size of the meter(s), divided by the number of properties within the premises that is served by the meter(s).	Usage through a common meter will be apportioned by unit entitlement or apportioned equally across all premises.	Each property is levied the sewerage service charge (based on former Council local government area) based on the size of the meter(s), divided by the number of properties within the premises that is served by the meter(s) multiplied by the applicable discharge factor.	Usage through a common meter will be apportioned by unit entitlement or apportioned equally across all premises.	Each property is levied the stormwater drainage service charge based on either low impact or rateable properties land size.
Metered Non-Residential properties within a mixed multi-premises that is serviced by a common meter	Each property is levied the 20mm meter water service charge	Usage through a common meter will be apportioned by unit entitlement or apportioned equally across all premises.	Each property is levied the sewerage service charge (based on former Council local government area) for a 20mm meter, multiplied by the applicable sewerage discharge factor.	Each property will be levied a deemed usage charge.	Each property is levied the stormwater drainage service charge based on the property category.
Water fire service.	There is no charge for a separate fire service. Where a property has a combined fire and commercial service the property will be charged in accordance with meter size.	Usage is not charged for a dedicated fire service Where there is a combined service the property will be levied for water greater than 10 kilolitres passing through its meter.	No charge.	No charge.	No charge.
Unmetered Residential properties connected to the water and sewerage supply system but not serviced by a meter.	Each property is levied the water service charge for unmetered properties.	Water usage will be a deemed volume based on the previous metered period (approx. 365 days). If there is not a previous metered period zero kilolitres will be charged.	Each property is levied the sewerage service charge for unmetered properties.	Each property will be levied a deemed usage charge.	Each property is levied the stormwater drainage service charge based on the property category
Unmetered Non-Residential properties connected to the water and sewerage supply system but not	Each property is levied the water service charge for unmetered properties.	Water usage will be a deemed volume based on the previous metered period (approx. 365 days). If there is	Each property is levied the sewerage service charge for unmetered properties.	Sewer usage will be a deemed volume based on the water usage from the previous metered period (approx. 365	Each property is levied the stormwater drainage service charge based on the property category

Property Type	Water Service Charges	Water Usage Charges	Sewer Service Charges	Sewer Usage Charges	Stormwater Drainage Service Charges
serviced by a meter.		not a previous metered period zero kilolitres will be charged.		days). If there is not a previous metered period zero kilolitres will be charged.	
Metered Non-Ratable Residential property	No Charge	Each property will be levied for water passing through its meter.	No Charge	Each property will be levied a deemed usage charge.	No Charge
Metered Non-Ratable Non-Residential property	No Charge	Each property will be levied for water passing through its meter.	No Charge	Sewer usage is based on the water usage multiplied by the applicable discharge factor.	No Charge

* Harmonisation of Council's billing practices continues and may result in removing the current varying approaches. This will not impact the pricing outlined in this document.

Liquid Trade Waste Charges

Liquid trade waste is defined as all liquid waste other than sewage of a domestic nature. Liquid trade waste can be produced by business, commercial, and industrial activities, by community/public facilities, and by institutions such as hospitals, schools and correctional facilities.

Council provides liquid trade waste services on a commercial basis, with full cost recovery through fees and charges. Four categories of liquid trade waste have been established for liquid trade waste charging purposes (Category 1, Category 2, Category 3 and Category S). These charging categories and the charging components are as follows:

Liquid Trade Waste Discharge Category	Application Fee	Annual Trade Waste Fee	Reinspection Fee	Liquid Trade Waste Usage charge per kiloliter (kL)	Excess Mass charges per kilogram (kg)	Non-compliant Excess Mass charges per kilogram (kg)
Category 1						
Category 1 liquid trade waste dischargers are those conducting an activity deemed by Council as requiring nil or minimal pre-treatment equipment and whose effluent is well defined and of a relatively low risk to the sewerage system. In addition, Category 1 includes dischargers requiring prescribed pre-treatment but with low impact on the sewerage system.	\$99.76	\$99.77	\$115.55	No charge	No charge	No charge
Category 2						
Category 2 liquid trade waste dischargers are those conducting an activity deemed by Council as requiring a prescribed type of liquid trade waste pre-treatment equipment and whose effluent is well characterised.	\$126.28	\$362.11	\$115.55	Compliant \$1.83 per kL Non-compliant \$15.63 per kL	No charge	No charge
Category 3						
Category 3 liquid trade waste dischargers are those conducting an activity which is of an industrial nature and/or which results in the discharge of large volumes (over 20 kL/d) of liquid trade waste to the sewerage system. Any Category 1 or Category 2 discharger whose volume exceeds 20 kL/d may be categorised as a Category 3 discharger.	\$2,274.52	Former Gosford LGA- \$1,399.70 Former Wyong LGA - \$1,399.70	\$115.55	No charge	Refer attached Schedule of Fees	Refer attached Schedule of Fees

Liquid Trade Waste Discharge Category	Application Fee	Annual Trade Waste Fee	Reinspection Fee	Liquid Trade Waste Usage charge per kiloliter (kL)	Excess Mass charges per kilogram (kg)	Non-compliant Excess Mass charges per kilogram (kg)
Category S						
Category S dischargers are those conducting an activity of transporting and/or discharging septic tank, chemical toilet waste, ship-to-shore pump out or pan content waste into the sewerage system. Council does not deal directly with residential customers under Category S.						
	Non-residential \$173.64 Includes one inspection	Non-residential \$157.86	\$115.55	Category S \$18.36 per kL Category S (Septic effluent unable to discharge onsite) \$1.83 per kL	No charge	Charged to private pumping stations only – in accordance with attached Schedule of Fees

The charges nominated by IPART determination are applied in accordance with the New South Wales Liquid Trade Waste Regulation Guidelines and Central Coast Council Liquid Trade Waste Policy. The trade waste charges apply in addition to sewer services charges.

The application fee recovers the cost of administration and technical services provided by Council in processing applications for approval to discharge liquid trade waste to the sewerage system. The purpose of the annual trade waste fee is to recover the cost incurred by Council for administration and the scheduled inspections each year to ensure a liquid trade waste discharger's ongoing compliance with the conditions of their approval. Where non-compliance with the conditions of an approval has been detected and the discharger is required to address these issues, Council will undertake re-inspections for a fee to confirm that remedial action has been satisfactorily implemented.

Volume-based trade waste usage charge is imposed to recover the cost of transporting and treating liquid trade waste in Council's sewage treatment plant and disposing the solid and liquid components appropriately. Excess mass charges will apply per kilogram of substances discharged in excess of the deemed concentration (listed in the Liquid Trade Waste Policy) in domestic sewage. Where a discharge quality fails to comply with the approved concentration limits of substances specified in Council's approval conditions or the acceptance criterion listed in the Liquid Trade Waste Policy, non-compliant excess mass charges may also apply in accordance with the formulas contained in Central Coast Council Liquid Trade Waste Policy.

The estimated total yield in 2021-2022 from trade waste charges is \$2,833,000.

Interest on Overdue Rates and Charges

In accordance with s. 566 of the *Local Government Act 1993* and s. 356 of the *Water Management Act 2000* Council charges interest on all rates and charges which remain unpaid after they become due and payable. Interest will be calculated on a daily basis using the simple interest method.

Council will apply the lower of the maximum interest rates applicable to either overdue rates and charges levied under the *Local Government Act 1993* or overdue charges levied under the *Water Management Act 2000*.

The due dates for payment of rates and charges levied under the *Local Government Act 1993* are as follows:

- If payment is made in a single instalment, the instalment is payable by 31 August 2021
- If payment is made by quarterly instalments, the instalments are payable by 31 August 2021, 30 November 2021, 28 February 2022 and 31 May 2022

The due date for payment of water, sewerage and drainage services charges and usage charges, is a minimum of 30 days after issue date.

In accordance with s. 566(3) of the *Local Government Act 1993*, the Minister for Local Government has determined that the maximum rate of interest payable on overdue rates and charges levied under the *Local Government Act 1993* for the 2021-2022 rating year will be 6%.

The methodology used to calculate the interest rate is the Supreme Court methodology (the Reserve Bank cash rate plus 6%), rounded to the nearest half per cent. The current Reserve Bank cash rate of 0.10% has been effective since 4 Nov 2020.

In accordance with s. 356 of the *Water Management Act 2000*, the maximum rate of interest payable on overdue rates and charges levied under the *Water Management Act 2000* is the rate payable for the time being on an unpaid judgment of the Supreme Court.

- In respect of the period from 1 January to 30 June in any year – the rate that is 6% above the cash rate last published by the Reserve Bank of Australia before that period commenced
- In respect of the period from 1 July to 31 December in any year – the rate that is 6% above the cash rate last published by the Reserve Bank of Australia before that period commenced.

The current Reserve Bank cash rate of 0.10% has been effective since 4 Nov 2020 means that the maximum rate of interest payable on overdue rates and charges levied under the *Water Management Act 2000*, from 1 July 2021 will be 6.1%.

DEVELOPER CONTRIBUTIONS

How Developer Contributions are Levied

Development contributions (also known as local infrastructure contributions) are charged by Council when new development occurs. These contributions fund local infrastructure needed to support an increased number of residents in the area. This type of local infrastructure typically includes local roads, stormwater and drainage, shared pathways, parks, playspaces or other recreational areas, environmental land and community facilities.

Contributions may be in the form of cash payments, transfer or dedication of land (such as land for a new park), works in kind or the provision of public amenities or services not included in a contributions plan.

Developer contributions for water and sewerage services are levied under the *Water Management Act 2000* and in accordance with the methodology developed by the Independent Pricing and Regulatory Tribunal (IPART).

The various contributions are contained in Council's Development Servicing Plans which are available for inspection at Council's offices or via Council's website.

Other Developer Contributions are levied in accordance with s. 7.11 of the *Environmental Planning and Assessment Act 1979*. The various contribution rates are listed in the s. 7.11 plans available for inspection at Council's offices or via Council's website - <https://www.centralcoast.nsw.gov.au/plan-and-build/planning-controls-and-guidelines/development-contributions>.

WORKS ON PRIVATE LAND

Charges for Works on Private Land

In accordance with s. 67(1) of the *Local Government Act 1993* Council may lawfully, by agreement with the owner or occupier of any private land, carry out any kind of work on that land.

The rates to be adopted by Council are set to recover the estimated cost to Council in providing the works on private land. The amounts to be charged for private works are set out in the attached Schedule of Fees in accordance with the type of works conducted by Council as indicated below:

- Septic and sewer connection inspections and applications
- Water service connections and applications
- Footpath reinstatement
- Construction – kerb, guttering and foot paving
- Vehicle crossings
- Concrete work – supervision, design, etc.
- Kerb and gutter – supervision, design, etc.
- Road reinstatement
- Road testing

For all other works a minimum charge for the use of Council labour, plant or materials on private land is charged equal to the actual cost (including overheads) plus 10%.

The Chief Executive Officer has the authority to set the fee for works to be undertaken by Council on private land, using Council labour, plant or materials, having regard to market forces in each instance, on condition that no such charge shall be less than the actual cost to Council (including overheads) plus 10%.

STATEMENT OF BORROWINGS

Proposed Borrowings for 2021-2022

It is Council policy to borrow to fund capital projects that have a life expectancy beyond the term for repayment of the loan in order to establish intergenerational equity if there is not sufficient working capital available. All loans are secured over the income of the Council.

In 2021-2022 Council does expect to require borrowings from external financial institutions for capital projects.

Council will continue to evaluate how it can utilise funds on hand, by way of internal loans, subject to restriction constraints as part of its annual review of funding requirements.
