Application for a Road Occupancy Licence

A road occupancy licence (ROL) is required for the use of a specified 'road space' when undertaking works on or within Council's road and/or road reserve or carrying out activities that affect normal vehicle and/or pedestrian movements. The ROL applies to the occupation of the road space only and does not imply permission or approval for the actual (physical) works being undertaken. Where occupation of the road is required for works approved under a Roads Act Works Approval, this application form does not apply and instead a 'Notice of Intention to Commence' application form is to be submitted to Council. **The completion of this application form and its submission to Council is required fifteen (15) working days prior to works being undertaken.**
