Environmental Risk Assessment Event Name: Event Organiser: Event Location: Event Time: Number of Expected Attendees: Control Measures For Minor Impact No Minor **Potentially Type of Environmental Impact** (Specify below or attach additional **Impact Impact** Significant Impact* information) Air Dust from disturbing topsoil. E.g. Excessive dust from pedestrian traffic on hot days Emissions from any generators. Emissions from vehicles or equipment. Other: (Please specify) Water Waste water from food stalls located next to water ways Waste water from temporary amenities. Water consumption Runoff/muddy water from site into nearby waterways Other: (Please specify) Soil Erosion caused by excess pedestrian traffic Erosion caused by vehicles driving over site. Erosion caused by vehicles parking in inappropriate areas e.g. Parking located next to bush land with the potential to damage root systems of significant vegetation. Erosion caused by set-up or packup if it involves heavy machinery. Wet weather may make site muddy. Damage to beach vegetation that may de-stabilise sand dunes Other: (Please specify) **Noise and Vibration** Noise during set-up or packup from power tools or machinery. Loud music / fireworks Whistles / Air horns Announcements over PA e.g. PA system used throughout event for announcements Vibrations from machinery or equipment (rides, power generators, refrigeration units) Other: (Please specify) Waste General waste e.g. General food and other waste generated throughout the event.

Food or organic waste				
Waste water				
Recyclables				
Other: (Please specify)				
Weather Conditions				
Will inclement weather have an				
effect on the potential				
environmental impacts of the				
event? E.g. Inclement weather could				
cause excessive muddy run off and				
degradation of the soil.				
Other: (Please specify)				
Chemicals				
Use and storage of any chemicals				
(fuels, cooking oils, cleaning				
products)				
Other: (Please specify)				
Fauna & Flora				
Disturbance to native animals living				
on the event site. E.g. Event located				
in close proximity to bush land.				
Damage to habitats or nests of				
native animals.				
Trampling of vegetation by				
pedestrian traffic.				
Damage to vegetation by vehicular				
traffic.				
Environmental vandalism e.g.				
breaking off tree branches				
Other: (Please specify)				
Resource & Energy Use Water consumption				
Energy consumption				
Use of plastic products				
Food serving items (plates, cups,				
utensils)				
New equipment				
Other: (Please specify)				
Social & Economic Conflict of land use on public access				
Conflict of land use or public access.				
e.g. Event located close to				
residential areas.				
Parking blocking local resident				
access. Road closures.				
Disturbance to neighbouring residents				
Disturbance to regular activities for the site such as sporting				
competitions.				
Other: (Please specify)				
other. (Ficuse specify)	<u>ı</u>		1	<u> </u>
