

**PERMIT TO ALLOW MINOR USE OF AN AGVET CHEMICAL PRODUCT
FOR THE CONTROL OF SALVINIA, WATER LETTUCE AND WATER
HYACINTH IN ENCLOSED WATER BODIES**

PERMIT NUMBER – PER84767

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 21 JUNE 2017 TO 31 MAY 2020.

Permit Holder:

PORT MACQUARIE HASTINGS COUNCIL
Cnr Lord and Burrawan St
PORT MACQUARIE NSW 2444

Persons who can use the product under this permit:

Persons who are trained and experienced in application of chemicals in aquatic and terrestrial environments and directed by the Local Control Authority Weeds Officer or a Regional Weeds Committee.

CONDITIONS OF USE

Product to be used:

DUPONT BRUSH-OFF BRUSH CONTROLLER
PLUS OTHER REGISTERED PRODUCTS

Containing: 600 g/kg METSULFURON-METHYL as their only active constituent.

Directions for Use:

Situation	Pest	Rate
Enclosed water bodies (e.g. dams, naturally occurring water holes, wetland pools and stationary bodies of water) (Areas within 400 m of potable water supply uptakes are excluded)	Salvinia (<i>Salvinia molesta</i>), Water lettuce (<i>Pistia stratiotes</i>) and Water hyacinth (<i>Eichornia crassipes</i>)	10gms/100Litres (add wetter at 200mL/100L)

WARNING: VERY TOXIC TO AQUATIC PLANTS AND ALGAE.

Critical Use Comments:

- Apply a maximum of 3 applications per year at a minimum re-treatment interval of 90 days between applications.
- ONLY apply as a foliar spot spray during non-frost periods using a high volume sprayer/knapsack.
- Stop spraying before the herbicide droplets on the leaves begin to coalesce and run off.
- Agitate spray mix constantly during spraying.
- DO NOT spray or flush equipment near non-target trees or on areas where their roots may extend or in locations where the chemical may be washed or moved into contact with their roots.
- DO NOT store a spray mix of metsulfuron methyl for more than 2 days.
- DO NOT use treated water for irrigation.
- DO NOT spray if rainfall or elevated waterflow are expected within 4 hours of application.
- DO NOT broadcast spray over the water or allow spray to drift onto non-target areas.
- Spray from a point easily accessible to the target weed occurrence and minimise overspray into the water surrounding the target weed mat.
- ONLY use surfactants/penetrants that are not toxic to aquatic life and approved for aquatic situations.

Jurisdiction:

NSW only.

Additional Conditions:

This Permit provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.
