

**LEGEND**

- Existing Hazard Line (2097 Hazard Line)
- - - Immediate Hazard Line (zSA)
- - - 2050 Hazard Line (zSA)
- - - 2100 Hazard Line (zSA)
- Lots potentially affected by coastal inundation

**NOTES**

1. It is recommended that hazard line positions be specified from the GIS version of this map (i.e. do not scale hazard line positions off this Figure).
2. No lots on Forresters Beach are subject to coastal inundation from wave runup
3. The Zone of Reduced Foundation Capacity cannot be determined for Forresters Beach without knowing the geotechnical soil properties of the dune matrix, which can be determined only from subsurface drilling, undisturbed sampling and laboratory testing.
