WELCOME TO THE CENTRAL COAST

Location

The Central Coast is located on the coast of New South Wales, 90 kilometres north of the Sydney Central Business District (CBD), and 80 kilometres south of the Newcastle CBD.

The Central Coast Council area is bounded by Lake Macquarie City Council and Cessnock City Council in the north, Hawkesbury City Council in the west, and by Hornsby Shire Council, Ku-ring-gai Council and Northern Beaches Council in the south.

History

The original indigenous inhabitants of the Central Coast of NSW have lived in the area for many thousands of years. Many culturally significant and spectacular rock art sites can be found in the hills around the district, with the local Hawkesbury sandstone providing the perfect canvas for these ancient artworks. The local environment provided fish and shellfish, small mammals and reptiles, and native fruits and edible roots. Middens can be found around Brisbane Water and Tuggerah Lakes, consisting mainly of discarded shell and bone, evidence of past Aboriginal hunting, gathering and food processing.

European settlement in the Gosford area began in 1823 when James Webb received a grant of land at The Rip near Blackwall. Settlement of the Wyong district began with Jonathan Cape taking up land in the area adjoining Jiliby Creek in 1825. Early industries included shell gathering for lime burning, ship building, timber, cattle and crop farming. In the 1880s, lowland planting of citrus fruit, for which the district became famous, began near Saratoga, followed by larger scale plantings in the hinterland and in the Wyong area.

The railway reached Wyong and Gosford in 1887 from Newcastle, and the completion of the Hawkesbury River Railway Bridge in 1889 helped local agriculture and tourism to expand. Major land subdivision began in the 1880s along the rail corridor in the south and spread to other coastal areas in the 1910s-1920s. The building of the Pacific Highway through the Central Coast in the 1920s and 1930s helped to encourage agricultural, residential and tourism growth. Since the 1960s, the Central Coast has seen exponential growth in population and housing development.

Local government in the district dates back to 1843. On January 1, 1947, Gosford Shire and Wyong Shire Councils were formed out of Erina Shire, Woy Woy Shire and Gosford Municipal Council.

Gosford became a city on January 1, 1980. On 12 May 2016, the former Gosford City Council and former Wyong Shire Council were dissolved and Central Coast Council was created.

Work and Study

Around 22,000 businesses are registered within the Central Coast, with our top employment sectors being health care and social assistance, retail trade, construction, accommodation and food services.

Currently about 25% of the working population commute outside the region for work. The unemployment rate for the Central Coast is 5.8% and youth unemployment rate is 14.6%.

Over 5.6% of residents attend university, TAFE or another form of higher education. The Central Coast is home to the University of Newcastle, is Central Coast Campus (at Ourimbah), three TAFE campuses at Gosford, Ourimbah and Wyong, and numerous community colleges across the region.

There are 11 Council libraries located across the Coast providing learning and education opportunities for all ages, through a variety of events, programs and activities such as Library Lovers Day, author talks and book launches, story-time for infants, young adult and adult book clubs, and other games in school holidays.

Lifestyle

The Central Coast offers a wide range of lifestyle activities and places to enjoy from sports and recreation, natural spaces, to arts, culture and community programs.

Our sport and recreation facilities contribute to the physical, mental and social development of the community and to the general health and wellbeing of the region.

Across the Central Coast there are 76 sporting facilities catering to winter and summer sport, 24 skate parks and 4 BMX tracks with varying features for all different skill levels, and 737 kilometres of shared pathways for cycling and pedestrian use.

Central Coast Stadium has picturesque views over Brisbane Water with a wide range of sporting and community events, including the NRL and National A-League football matches.

The Olympic pools at Gosford, Wyong and Woy Woy offer swimming facilities and classes, with the Peninsula Leisure Centre at Woy Woy, Niagara Park Stadium and the Lake Haven Recreation Centre offering people of all ages a wide range of health, lifestyle and leisure facilities.

The Central Coast is a region of outstanding natural beauty ranging from beaches to ridgetops and wetlands to woodlands.

Much of the region is covered by bushland, providing a scenic backdrop to urban development and offering a range of bush walks, camping grounds and facilities and other outdoor activities. Our lakes and beaches are a great way to get out and enjoy a range of water sports and activities, with many community events and festivals (such as the Lakes Festival) held in celebration of these natural wonders.

Belonging to the Central Coast means living in an inclusive community with arts, cultural and community programs providing opportunities to meet new people and express an artistic or cultural flair. Community and cultural facilities forge and strengthen social ties that support community needs and aspirations.

The Gosford Regional Gallery is an important cultural and educational resource that hosts local, national and international exhibitions, showcasing a variety of styles in visual art, photography, sculpture and design, from both established and emerging artists.

The Laycock Street Community Theatre in Gosford and The Art House in Wyong provide professional venues for a diverse range of community performances, international shows, bands and touring productions.

A lively cultural scene exists on the Central Coast with events such as Harmony Day, NAIDOC (National Aboriginal and Islanders Day Observance Committee) celebrations, Australia Day events, and citizenship ceremonies.

About this plan

Integrated Planning and Reporting Framework

The Integrated Planning and Reporting (IP&R) Framework promotes integration with community based objectives, informed by state-level plans and cascading down through to implementation across Council.

IP&R necessitates a 'whole-of-council' approach to long, medium and short term planning and is comprised of the following key elements:

- Community Strategic Plan
- Resourcing Strategy
- Delivery Program
- Operational Plan
- Quarterly Progress Reports
- Annual Report
- End of Term Report.

Operational Plan

The Central Coast Council Operational Plan 2019-20 is the second year of the Delivery Program (2018-19 – 2020-21) and details those actions that Council will take (through projects, plans and actions) to deliver the priorities developed by the Councillors. It is aligned to the Objectives of the Community Strategic Plan, *One – Central Coast*.

The annual Operational Plan includes a schedule of work that will be completed in the 2019-20 financial year and identifies what Council will do with its available resources. It lists all principal activities that Council has planned such as traffic and transport projects, economic and community development, water and sewer, sport and recreation, environmental management, governance and risk, to the finance, people management and IT systems that enable us to run the organisation efficiently and effectively. All planned work is linked to the community objectives outlined in *One – Central Coast*.

The Central Coast Council Delivery Program and Operational Plan is comprised of four parts:

- Overview and Operational Plan 2019-20
- Financial Information for 2019-20 and Long Term Financial Plan
- Statement of Revenue
- Fees and Charges

Progress Reporting

Tracking Council's progress towards meeting the community objectives outlined in *One – Central Coast* will follow through Quarterly Progress Reports, Annual Reports and a detailed End of Council Term Report.

Councillors role

Councillors Role in the Integrated Planning and Reporting Framework

The Central Coast is represented by fifteen Councillors across the five wards of Budgewoi, Gosford East, Gosford West, The Entrance and Wyong.

As the community's representatives the role of a Councillor is to:

- Be an active and contributing member of the governing body
- Make considered and well informed decisions as a member of the governing body
- Participate in the development of the Integrated Planning and Reporting framework
- Represent the collective interests of residents, ratepayers and the local community
- Facilitate communication between the local community and the governing body
- Uphold and represent accurately the policies and decisions of the governing body
- Make all reasonable efforts to acquire and maintain the skills necessary to perform the role of a Councillor.

The development of this Delivery Program and Operational Plan is an example of the Councillors role at work, with their priorities for the next three years identified and presented. These priorities have been developed in consideration of the community's aspirations and objectives outlined in *One – Central Coast*.

ORGANISATIONAL STRUCTURE

OPERATIONAL PLAN

One – Central Coast

The community Vision states:

*We are one Central Coast.
A smart, green and liveable region with a
shared sense of belonging and
responsibility.*

Council is not solely responsible for all of the outcomes and objectives of the CSP. The implementation and delivery of the CSP will involve shared decision making and effective working partnerships with government agencies, non-government organisations, businesses and the local community.

The five themes of the CSP are:

Belonging

Smart

Green

Responsible

Liveable

Together we can build on our strong community spirit, connections to each other and our local identity, fostering a sense of **Belonging** within the community.

One – Central Coast emphasises the importance of growing the coast to become a **Smart** and competitive region with a range of opportunities for people to study and work.

Green underlines the strong desire to protect and preserve the natural beauty, bushland and waterways that surround us on the Central Coast, and to secure our environmental resources for future generations.

One – Central Coast highlights the importance of good governance, great partnerships and the delivery of essential infrastructure and a balanced, sustainable approach to growth and development in an open and **Responsible** manner.

Liveable articulates how the community will live on the Central Coast through reliable public transport, healthy lifestyle options and accessible and well-maintained facilities.

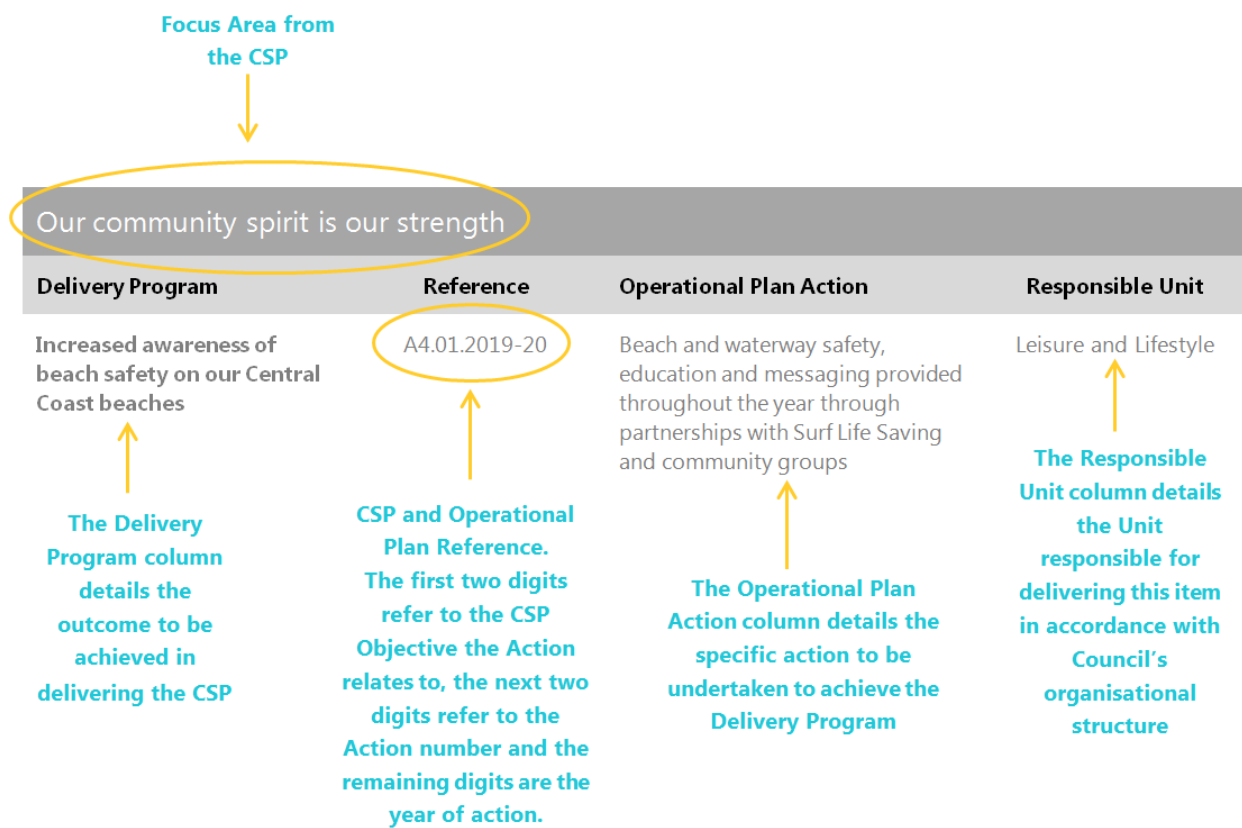

Each Theme includes Focus Areas and Objectives that respond to the ideas and values that the Central Coast community identified with and are linked to the actions and projects detailed in this Delivery Program and Operational.

How to read this Operational Plan

The Operational Plan is aligned to the five themes of the Community Strategic Plan (CSP) and links to the Focus Areas and Objectives.

The Capital Works Program is also included within this section and links to the CSP Framework.

The diagram below demonstrates these linkages.

Community

Belonging

Smart

OUR COMMUNITY SPIRIT IS OUR STRENGTH

A1 Work within our communities to connect people, build capacity and create local solutions and initiatives

A2 Celebrate and continue to create opportunities for inclusion where all people feel welcome and participate in community life

A3 Work together to solve a range of social and health issues that may impact community wellbeing and vulnerable people

A4 Enhance community safety within neighbourhoods, public spaces and places

CREATIVITY, CONNECTION AND LOCAL IDENTITY

B1 Support reconciliation through the celebration of Aboriginal and Torres Strait Islander cultures

B2 Promote and provide more sporting, community and cultural events and festivals, day and night, throughout the year

B3 Foster creative and performing arts through theatres, galleries and creative spaces, by integrating art and performance into public life

B4 Activate spaces and places to complement activity around town centres, foreshores, lakes and green spaces for families, community and visitors

A GROWING AND COMPETITIVE REGION

C1 Target economic development in growth areas and major centres and provide incentives to attract businesses to the Central Coast

C2 Revitalise Gosford City Centre, Gosford Waterfront and town centres as key destinations and attractors for businesses, local residents, visitors and tourists

C3 Facilitate economic development to increase local employment opportunities and provide a range of jobs for all residents

C4 Promote and grow tourism that celebrates the natural and cultural assets of the Central Coast in a way that is accessible, sustainable and eco-friendly

Strategic Plan

Green

A PLACE OF OPPORTUNITY FOR PEOPLE

D1 Foster innovation and partnerships to develop local entrepreneurs and support start-ups

D2 Support local business growth by providing incentives, streamlining processes and encouraging social enterprises

D3 Invest in broadening local education and learning pathways linking industry with Universities, TAFE and other training providers

D4 Support businesses and local leaders to mentor young people in skills development through traineeships, apprenticeships and volunteering

ENVIRONMENTAL RESOURCES FOR THE FUTURE

E1 Educate the community on the value and importance of natural areas and biodiversity, and encourage community involvement in caring for our natural environment

E2 Improve water quality for beaches, lakes, and waterways including minimising pollutants and preventing litter entering our waterways

E3 Reduce littering, minimise waste to landfill and educate to strengthen positive environmental behaviours

E4 Incorporate renewable energy and energy efficiency in future design and planning, and ensure responsible use of water and other resources

CHERISHED AND PROTECTED NATURAL BEAUTY

F1 Protect our rich environmental heritage by conserving beaches, waterways, bushland, wildlife corridors and inland areas, and the diversity of local native species

F2 Promote greening and ensure the wellbeing of communities through the protection of local bushland, urban trees, tree canopies and expansion of the Coastal Open Space System (COSS)

F3 Improve enforcement for all types of environmental non-compliance including littering and illegal dumping, and encourage excellence in industry practices to protect and enhance environmental health

F4 Address climate change and its impacts through collaborative strategic planning and responsible land management and consider targets and actions

Responsible

GOOD GOVERNANCE AND GREAT PARTNERSHIPS

G1 Build strong relationships and ensure our partners and community share the responsibilities and benefits of putting plans into practice

G2 Communicate openly and honestly with the community to build a relationship based on transparency, understanding, trust and respect

G3 Engage with the community in meaningful dialogue and demonstrate how community participation is being used to inform decisions

G4 Serve the community by providing great customer experience, value for money and quality services

DELIVERING ESSENTIAL INFRASTRUCTURE

H1 Solve road and drainage problem areas and partner with the State Government to improve road conditions across the region

H2 Improve pedestrian movement safety, speed and vehicle congestion around schools, town centres, neighbourhoods, and community facilities

H3 Create parking options and solutions that address the needs of residents, visitors and businesses

H4 Plan for adequate and sustainable infrastructure to meet future demand for transport, energy, telecommunications and a secure supply of drinking water

BALANCED AND SUSTAINABLE DEVELOPMENT

I1 Preserve local character and protect our drinking water catchments, heritage and rural areas by concentrating development along transport corridors and town centres east of the M1

I2 Ensure all new developments are well planned with good access to public transport, green space and community facilities and support active transport

I3 Ensure land use planning and development is sustainable and environmentally sound and considers the importance of local habitat, green corridors, energy efficiency and stormwater management

I4 Provide a range of housing options to meet the diverse and changing needs of the community and there is adequate affordable housing

Liveable

RELIABLE PUBLIC TRANSPORT AND CONNECTIONS

J1 Create adequate, reliable and accessible train services and facilities to accommodate current and future passengers

J2 Address commuter parking, drop-off zones, access and movement around transport hubs to support and increase use of public transport

J3 Improve bus and ferry frequency and ensure networks link with train services to minimise journey times

J4 Design long-term, innovative and sustainable transport management options for population growth and expansion

OUT AND ABOUT IN THE FRESH AIR

K1 Create a regional network of interconnected shared pathways and cycle ways to maximise access to key destinations and facilities

K2 Design and deliver pathways, walking trails and other pedestrian movement infrastructure to maximise access, inclusion and mobility to meet the needs of all community members

K3 Provide signage, public facilities, amenities and playgrounds to encourage usage and enjoyment of public areas

K4 Repair and maintain wharves, jetties, boat ramps and ocean baths to increase ease of access and enjoyment of natural waterways and foreshores

HEALTHY LIFESTYLES FOR A GROWING COMMUNITY

L1 Promote healthy living and ensure sport, leisure, recreation and aquatic facilities and open spaces are well maintained and activated

L2 Invest in health care solutions including infrastructure, services and preventative programs to keep people well for longer

L3 Cultivate a love of learning and knowledge by providing facilities to support lifelong learning

L4 Provide equitable, affordable, flexible and co-located community facilities based on community needs

BELONGING

Belonging

Buildings make a Town, but people make a community – which is why **belonging** sits at the heart of our strategic plan.

We are committed to strengthening our diverse population by creating new opportunities for connection, creativity, and inclusion, and by opening the door to local sporting, community and cultural initiatives that strengthen our collective sense of self.

We will work together to solve pressing social issues, to support those in need and to enhance community safety – and we will continue to acknowledge the Aboriginal and Torres Strait Islander culture that shapes this corner of the world.

Community Drivers

- Friendly people and community spirit
- Diverse people and cultures
- Aboriginal cultural recognition
- Support for vulnerable people
- Safe neighbourhoods and public places
- Places to visit and meet people
- Community events and things to do
- Performing arts and culture

How you can help

- Get to know your neighbours
- Mark your calendar and head out to community events and festivals
- Play sport or support your favourite local sporting team
- Grab some lunch and head out to the park
- Catch up with a friend at the waterfront
- Check out what's on at the theatre and gallery
- Say hi to someone in your street
- Lend a hand and volunteer
- Think safe, and speak up for safety
- Go out of your way to help an elderly neighbour
- Join a local community group or club
- Start your own group
- Declare your home a violence free zone and make a commitment to never use words or actions that hurt people
- Be open to welcoming new people to the area
- Be willing to accept offers of support and assistance
- Turn off the TV and talk with friends or family
- Hold a street party
- Speak out against discrimination of any type
- Report vandalism or suspicious behaviour around facilities
- Help to identify and talk up the great things happening in our community
- Help to identify the challenges facing the community

An aerial photograph of a waterfront city at dusk. In the foreground, a modern building with a large, white, canopy-like roof structure is situated on a pier over the water. The building has a glass facade and is illuminated from within. To the left, a road with several cars runs along the water's edge. In the middle ground, a large, green, rectangular field, possibly a sports field, is visible. Behind the field, a large stadium with a distinctive roof structure is partially visible. The background shows a cityscape with various buildings, some under construction with cranes, and a forested hillside. The sky is a clear, deep blue, and the overall scene is bathed in the warm light of the setting sun.

SMART

Smart

We are a growing region with an expanding sense of opportunity, and we want to capitalise on those possibilities for the benefit of all.

Strategic economic development, revitalising key urban locations, establishing new industry partnerships and renewing our commitment to education and employment for young people are just the starting point for a **smart** Central Coast.

These initiatives – and others like them – will create new opportunities for local employment, new social enterprises and a culture of innovation that will bring new talent to the region. They will also drive a boom in tourism that we will shape to be accessible, sustainable and kind to the environment.

Community Drivers

- Business growth
- Local employment opportunities
- Attracting more businesses to the Coast
- Tourism opportunities and eco-tourism
- Access to good education facilities
- Development of Gosford City Centre
- Activated cosmopolitan town centres
- Support for youth unemployment

How you can help

- Visit your local farmer's market
- Get involved and advocate for ideas that you are interested in and passionate about
- Tutor a student
- Enrol in a course
- Go to a community workshop
- Visit a library
- Join a book club discussion group
- Volunteer your skills
- Support a volunteer
- Find a mentor
- Mentor someone
- Attend local events and festivals
- Support local businesses by buying locally
- Be a local tourist
- Get to know your child's teachers
- Create or join a business network
- Visit a local market
- Read to your child
- Volunteer for a youth based service or sporting group

A close-up photograph of several large, green leaves with prominent white variegation. The leaves are arranged in a dense, overlapping pattern, creating a rich texture. The lighting is bright, highlighting the intricate vein patterns and the contrast between the green and white areas. The word "GREEN" is overlaid in the center in a bold, white, sans-serif font.

GREEN

Green

The Central Coast is known for its natural beauty; maintaining our natural assets is a critical component of what we value as a community.

Ongoing education is key to our **green** approach, as is inviting the community to take a hands-on role in conservation, protection and remediation of our environment.

Reducing litter, minimising waste, and championing renewable energy in our future design and planning will minimise the impacts of climate change in our region, and will enable the preservation of our beaches, waterways, wildlife corridors and inland areas for the variety of species that inhabit them.

Community Drivers

- Proximity to beaches and waterways
- Natural environment, lots of trees, parks and green spaces
- Conservation of the natural environment
- Expansion of the Coastal Open Space System
- Preservation of trees and tree canopies
- Cleanliness of lakes and waterways
- Reduction of litter and polluting
- Resource use, recycling and energy efficiency

How you can help

- Turn off lights and appliances when not needed
- 'Take 3 for the Sea' and pick up three bits of rubbish
- Pay attention to how you use water
- Drink tap water instead of bottled water
- Leave the car at home
- Wash your clothes in cold water when you can
- Don't litter – put it in the bin or take it home
- Go for a bushwalk
- Discover a waterfall
- Plant a tree
- Pull out some weeds
- Grow some vegetables, fruit or herbs
- Pick up your dog's poo
- Compost your vegetables and fruit scraps
- Join your local Landcare /Bushcare / Beachwatch group
- Don't put oil down the sink
- Be kind to bush turkeys and magpies
- Don't flush wipes (they may be flushable but they are not biodegradable)
- Put cigarette butts in the bin
- Research what can be recycled
- Don't use plastic bags/water bottles or disposable coffee cups
- Visit / participate in / start up a community garden

natural beauty

E1 Educate the community on the value and importance of natural areas and biodiversity, and encourage community involvement in caring for our natural environment

F1 Protect our rich environmental heritage by conserving beaches, waterways, bushland, wildlife corridors and inland areas, and the diversity of local native species

E2 Improve water quality for beaches, lakes, and waterways including minimising pollutants and preventing litter entering our waterways

F2 Promote greening and ensure the wellbeing of communities through the protection of local bushland, urban trees, tree canopies and expansion of the Coastal Open Space System (COSS)

E3 Reduce littering, minimise waste to landfill and educate to strengthen positive environmental behaviours

F3 Improve enforcement for all types of environmental non-compliance including littering and illegal dumping, and encourage excellence in industry practices to protect and enhance environmental health

E4 Incorporate renewable energy and energy efficiency in future design and planning, and ensure responsible use of water and other resources

F4 Address climate change and its impacts through collaborative strategic planning and responsible land management and consider targets and actions

RESPONSIBLE

Responsible

We are a **responsible** council and community, committed to building strong relationships and delivering a great customer experience in all our interactions.

We value transparent and meaningful communication and use community feedback to drive strategic decision making and expenditure, particularly around the delivery of essential infrastructure projects that increase the safety, liveability and sustainability of our region.

We are taking a strategic approach to ensure our planning and development processes are sustainable and accessible and are designed to preserve the unique character of the coast.

Community Drivers

- Improved road maintenance and footpaths
- Improved drainage, kerbs and guttering
- Safe roads and pedestrian access
- Council communicates openly and honestly and involves community in decision making
- Effective prioritisation of expenditure
- Infrastructure provision meets current and future demand
- Preservation of local heritage / character and identity
- Preservation of trees and green corridors

Balanced and sustainable development

- I1** Preserve local character and protect our drinking water catchments, heritage and rural areas by concentrating development along transport corridors and town centres east of the M1
- I2** Ensure all new developments are well planned with good access to public transport, green space and community facilities and support active transport
- I3** Ensure land use planning and development is sustainable and environmentally sound and considers the importance of local habitat, green corridors, energy efficiency and stormwater management
- I4** Provide a range of housing options to meet the diverse and changing needs of the community and there is adequate affordable housing

LIVEABLE

Liveable

Creating a **liveable** community means striking a balance between projects that support infrastructure development and others that enhance our quality of life.

We are activating public spaces, increasing access to beaches and green spaces, and delivering a range of amenities – like walking and cycling routes, playgrounds and sports facilities – that promote healthy living and enjoyment of the natural world.

Reliable public transport is key to keeping our growing population mobile, so we are focused on enhancing train, bus and ferry networks, as well as improving the commuter experience.

Community Drivers

- Improved public transport
- Linked cycleways and shared pathways
- Access to quality shops
- Healthy lifestyle and fresh air
- Ease of access to waterways / beaches
- Close proximity to sportsgrounds and parks
- Accessible and well maintained outdoor facilities / playgrounds
- Increased and high quality health services
- Libraries and community facilities

How you can help

- Get out and about and be active
- Walk and cycle instead of taking the car everywhere
- Join or support a local sporting group
- Visit a library
- Participate in local initiatives such as community gardens, neighbourhood improvement projects
- Enjoy the outdoors
- Participate in the planning of community facilities such as community centres, sporting facilities
- Give up smoking
- Utilise public places and spaces
- Play a sport
- Go to the gym
- Register as an organ donor
- Learn first aid
- Volunteer, e.g. as a referee, on a sporting committee, at the school canteen
- Slow down in school zones
- Obey road rules
- Join a gentle exercise class, take up Tai Chi or aqua aerobics

FINANCIAL INFORMATION

Financial Overview 2019-20

Financial Summary

Council will spend \$567.8 million on essential services and a further \$223.2 million on assets for the 2019-20 financial year. Council's estimated operating income for the 2019-20 financial year is \$560.1 million which results in an operating deficit of \$7.7 million before capital grants and contributions. This reflects Council's focus on continuing to align services including consolidation of information on one technology platform and some major changes to our operating income and expenditure including an increase in electricity costs of \$4.0million due to a significant increase in wholesale electricity prices, an increase in fuel costs of \$1.4million and an adjustment in annual charges and user charges in line with Council's Independent Pricing and Regulatory Tribunal (IPART) submission.

The table below provides a summary of the Central Coast Council budget for 2019-20, with more detailed information provided in this section of the Operational Plan.

Key Financial Information	2019-20 Budget \$M	2018-19 Q2 Budget \$M
Financial Performance		
Operating Income	560.1	562.2
Operating Expenditure	567.8	566.0

Capital Grants and Contributions	52.4	51.9
Operating Result	44.7	48.2
Capital Expenditure	223.2	215.4

The 2018-19 Quarter 2 (Q2) quarterly budget review for the period ended 31 December 2018 has been provided for comparative purposes.

Priority Areas

To ensure Council is spending in accordance with the community priorities identified in the Community Strategic Plan (CSP), 85.0% of operating and capital expenditure will be invested in the following priority areas:

Priority Areas	CSP Theme	Operational Expenditure* \$M	Capital Expenditure \$M	Total Spend \$M	% of Total Spend

* includes corporate overheads allocated for support services

Council's spending is focussed on maintaining and/or improving service levels and asset management. The plan also invests in the continued alignment of Council's processes to improve customer service, automation, measurement and efficiency.

Operating Income

Council is budgeted to receive \$560.1 million in operating income for 2019-20.

Rates, Annual Charges and User Charges and Fees

Sources of Revenue

Council's rates, annual charges, and user charges and fees make up 86.6% of Council's total revenue for 2019-20. These amounts are applied in accordance with the relevant legislation and are explained in detail below.

Rates

The total amount of ordinary and special rates Council can levy is defined by legislation.

Under the *Local Government Act 1993*, there is a rate path freeze for merged councils which includes Central Coast Council. This means that Council is required to maintain the rate path that was last applied by the former Gosford City and Wyong Shire Councils. This will apply until 30 June 2020.

The freeze in the rate paths is not a freeze on the amount Council can levy by way of rates. The Independent Pricing and Regulatory Tribunal (IPART) has approved an annual "rate peg" increase, which means that Council's permissible rates income for 2019-20 is the sum of the rates income for each of the former local government areas within Central Coast Council's local government area, as if the amalgamation had not occurred, plus the allowable rate peg set by IPART. For 2019-20 IPART approved a rate peg of 2.7% as the allowable increase in Council's permissible rates income.

Council must use the most current unimproved land values when calculating ordinary and special rates. These values are provided by the NSW Valuer General (VG), the independent statutory authority responsible for determining land values in NSW. The latest values provided by the VG and being used for levying rates in 2019-20 have a base date of 1 July 2016.

Annual Charges

Water, Sewerage and Drainage Service Charges

Central Coast Council's water, sewerage and drainage services and a number of associated ancillary services are declared monopoly services under s. 4 of the *Independent Pricing and Regulatory Tribunal Act 1992*. Council's prices must therefore be set in accordance with any Independent Pricing and Regulatory (IPART) determined methodologies and/or maximum prices, and are subject to approval by the relevant Minister.

Central Coast Council's pricing submission to IPART was lodged on 7 September 2018 and covers a forecast of future operating costs, capital investment and price proposals. The submission takes into account efficiencies gained from the amalgamation of Gosford City and Wyong Shire Councils, and additional revenue received from government grants for key capital investment.

Council's overall aim is to provide customers with consistent charges for the water, sewerage and stormwater drainage services across the Coast. This submission is the first time IPART will set prices for the Council as a merged entity, and IPART will consider Council's submission to align prices between the former Gosford and Wyong local government areas and will come into effect from 1 July 2019.

All prices for water, sewerage, drainage and ancillary services for 2019-20 are in accordance with Council's submission to IPART adjusted for the estimated CPI adjustment at 2.4% as the submission made was in 2018-19 dollars (\$2018-19). Council's submission includes the following proposals:

- Reduction in water usage price per thousand litres (kL)
- Reduction in residential water service charge
- Reduction in residential stormwater drainage charge per year
- Alignment of residential sewerage service charge
- Reduction in non-residential sewerage usage charge per thousand litres (kL)

- Reduction in non-residential sewerage discharge volume
- Non-residential water services charges will be determined according to the size of the water meter
- Non-residential sewerage service charges to reduce in the former Gosford local government area and increase in the former Wyong local government area to align the charges
- Stormwater drainage charges will be based on land size for non-residential customers
- All rateable properties will pay for stormwater drainage, as everyone benefits from the stormwater drainage network

Council is also recommending:

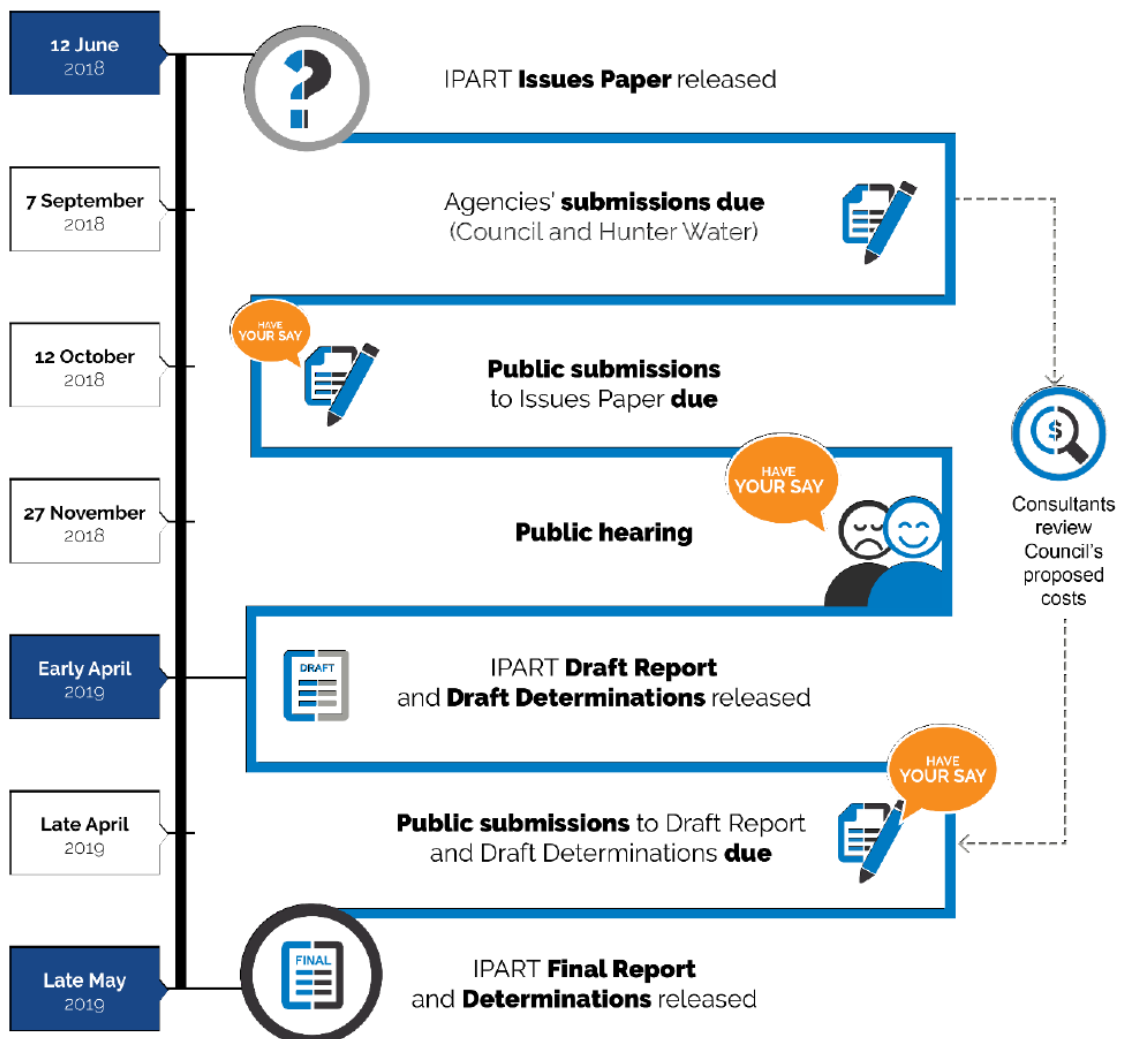

- IPART determines charges for a four year period from 1 July 2019 - 30 June 2023
- IPART limit increases in bills for the determination period to the rate of inflation only
- Retirement villages remain classified as non-residential
- Trade waste customers in the former Gosford category 4 be aligned with the former Wyong category S.

Council has proposed to change the pricing structure by basing the non-residential water and sewerage service charges on a 20mm meter scale equivalent rather than the current 25mm meter.

Currently there are two designated Drainage Areas in place under the *Water Management Act 2000*. The former Gosford drainage area covered the entire former Gosford LGA, while the drainage area for the former Wyong LGA included all properties within 1.5km and/or east of the M1.

To enable the proposed change, Council will need to apply to the NSW Minister for Water to have the entire Central Coast LGA declared a Drainage Area under the *Water Management Act 2000*. Until this time, the drainage areas for both former LGAs will remain in place.

Below is an indicative timeline for IPART's review of Council's prices for water, sewerage and drainage services and a number of associated ancillary services which has been taken from the IPART Issues Paper, page 4, published on the 12 June 2018.

Once Council receives IPART’s final report and determinations appropriate adjustments will be made to the Operational Plan 2019-20 including budgets.

Domestic Waste Management Charge

Central Coast Council provides domestic waste management services including weekly domestic waste (red) bin collection, alternate fortnightly recycling (yellow) and vegetation (green) bin collection and six free kerbside collections per year.

Any amounts charged to residents for the domestic waste management service is “restricted for purpose”, which means Council can only recover the cost of providing the service from residents without any profit. Any unspent funds must be restricted and used only to pay for the costs of providing domestic waste management services.

User Charges and Fees

User charges and fees are made of the following:

Water and Sewer Usage Charges

Water and Sewer Usage Charges for 2019-20 are based on Council’s IPART pricing submission. IPART will issue the Final Report and Determination in May 2019. The prices set out in the determination will apply from 1 July 2019. For further information on Council’s IPART pricing submission please refer to the Statement of Revenue.

Council will make appropriate adjustments to the Operational Plan 2019-20 including budgets when the final report and determination is issued.

Other Fees and Charges

Other fees and charges are subject to either competitive forces or legislated maximum charges.

Council sets other fees and charges based on partial (subsidised) cost recovery, full cost recovery or subject to market forces. Pricing categories are disclosed against each fee in the Fees and Charges schedule appearing at *Fees and Charges* of the Operational Plan.

Operating and Capital Grants

Grant Funding

Operating grants are provided to Council to fund the delivery of services. Some of the grants are for the delivery of specific services and others are general grants or “untied” grants which means Council can use the funding based on local priorities.

Capital grants are provided to Council to fund renewal or upgrade works on Council assets or for the purchase or construction of new assets.

Financial Assistance Grants

The Australian Government provides the Financial Assistance Grant program to local government under the *Local Government (Financial Assistance) Act 1995* (Commonwealth).

The Financial Assistance Grant (FAG) program consists of two components:

- A general purpose component which is distributed between the states and territories according to population (i.e. on a per capita basis), and
- An identified local road component which is distributed between the states and territories according to fixed historical shares.

Both components of the grant are untied in the hands of local government, allowing councils to spend the grants according to local priorities.

The NSW Local Government Grants Commission recommends the distribution of the funding under the FAG program to NSW local governing bodies in accordance with the *Local Government (Financial Assistance) Act 1995* (Commonwealth) and the National Principles for allocating grants. The grant is paid in equal quarterly instalments by the Australian Government to the NSW Local Government Grants Commission for immediate distribution to local governing bodies in August, November, February and May.

For merged Councils, such as Central Coast Council, it has been confirmed that for four years following amalgamation the FAG allocations will be the total of the amounts that would have been provided to the former Councils as if they had remained as separate entities.

The federal budget for 2019-20 will be announced on the 2 April 2019. As the 2019-20 federal budget has not been released at the time of the development of Council’s budget we have budgeted for the full 2019-20 estimated FAG. Historically when the Australian Government announces the federal budget there has been a prepayment of the FAG. For example, at the announcement of the 2018-19 federal budget the Australian Government brought forward 50% of the 2018-19 FAG program for payment in the 2017-18 financial year. Once the Australian Government releases the 2019-20 federal budget Council will be able to determine whether a budget adjustment is required for the FAG. Any changes to the timing of the FAG will be reflected in the quarterly budget review process.

Capital Grants

Capital grants are reflected in Council’s budget when the grant funding has been confirmed as approved by an external grant funding body. During the financial year as part of our quarterly budget reviews any new capital grants confirmed will be reflected in the latest financial forecast.

Operating Expenditure

Service Delivery

The proposed 2019-20 budget aims to maintain or improve the services and service levels delivered by Council. Council's projected operational spend on service delivery for 2019-20 is \$567.8 million, which will be spent on:

Employee Benefits and On-Costs

Employee benefits and on-costs includes salary and wages paid to staff and other direct staff costs such as training, professional development, personal protective equipment (PPE) and workers compensation.

The proposed 2019-20 budget includes temporary staff members to enable Council to continue to align services including consolidation of information on one technology platform whilst delivering services to the Community.

Materials and Contracts

The Materials and Contracts budget includes materials, consumables, contractor and consultancy costs, operating leases and contracts including Council's waste collection contract.

Other Expenses

The other expenses budget reflects costs not included in other operating statement expenditure groupings and covers:

- Council's contributions to emergency services,
- Payments to the Environment Protection Authority for the waste levy which is calculated based on each tonne of waste received at Council's waste management facilities;
- Insurance
- Electricity, street lighting and gas
- Software expenses, and
- Mayoral / Councillor fees and expenses

Capital Works Program

Capital Works Program Summary

Council has budgeted to invest \$223.2 million on assets in 2019-20 to improve and add to Council's asset portfolio, which has a gross replacement cost of over \$10.2 billion. Information on the individual capital projects is contained in *Part 1 – Overview* under each CSP Theme.

Council has \$20.6 million in additional capital works projects which are a combination of projects pending external grant funding confirmation or the projects are gated projects where funding will be released once the project meets set criteria to continue.

As Council receives confirmation that external grant funding has been approved the appropriate grant funding revenue will be recognised, in accordance with the grant funding agreement, via the Quarterly Budget Review process and work can commence on the project. Depending when Council received confirmation of grant funding an assessment of how much of the project will be able to be delivered in the 2019-20 financial year will be determined.

Should Council receive confirmation of external grant funding for all projects and all gated projects meet the project criteria to release the gated project funding, the proposed capital works program would total \$243.7 million.

Capital Works Program by Ward

The 2019-20 capital works program is generally distributed evenly between wards when regionally significant assets are considered. A region wide project is one that provides benefit to the whole Central Coast local government area and is not suburb specific. Region wide also includes water and sewer projects (whilst they are undertaken in individual suburbs, the works contribute to the overall running of the water and sewer network across the region) and roads, transport and drainage (the road network which the community and visitors use to navigate the Central Coast).

Capital Works Program Summary by Ward/Region	2019-20 Budget \$	% of Capital Works Program	% of Local Ward Based Projects

Total	\$ 223,177,513	100.0%	

Capital Works by Expenditure Type

The 2019-20 capital works program is targeted at renewal and upgrade works to existing assets, with 82.4% or \$183.9 million focussed on renewals and upgrades of existing assets. This allocation allows Council to maintain and renew existing assets and to address the asset backlog.

Council has also budgeted \$39.3 million, or 17.6% of the capital works program, for new and regionally significant assets.

In June 2013 the former Wyong Shire Council was successful in gaining approval from the Independent Pricing and Regulatory Tribunal (IPART) for a Special Rate Variation (SRV) to address infrastructure asset backlog.

The final year of the IPART approved rate increase was 2016-17, however Council has an obligation to allocate an average of \$10.0 million per year to SRV projects for 10 years from the commencement of the SRV. The works undertaken will improve the condition of roads, bridges, footpaths, buildings, sports facilities and information management systems in the north of the region to ensure they are 'satisfactory' in terms of being safe and fit for community use.

Council will continue to determine a list of works to be undertaken on an annual basis with the SRV funds in accordance with its Asset Management Strategy. Projects directly supported by SRV funds are identified in the individual capital projects in *Overview*.

Capital Projects subject to pending External Grant Funding or Gated Capital Projects

The following table includes projects that are currently awaiting confirmation of external grant funding approval or projects where the funding is gated. These projects are not included as part of the proposed \$223.2 million capital works program for 2019-20.

If the grant funding is subsequently approved the grant funding will be recognised for the project/s via the Quarterly Budget Review process and the project will commence. Depending when Council received confirmation of grant funding an assessment of how much of the project will be able to be delivered in the 2019-20 financial year will be determined.

A gated project is broken down into smaller stages or phases, each delimited by a gate. At each of these gates, the project decision-makers meet to review the project and decide based on specific criteria and the information available at the time, whether to continue, stop, hold or modify the project.

LONG TERM FINANCIAL PLAN

Long Term Financial Plan Summary

The Long Term Financial Plan (LTFP) is a key component of Council's Long Term Resourcing Strategy. The plan enables the community's aspirations for service to be tested against the financial reality.

The LTFP 2019-20 to 2028-29 reflects our desire and capacity to deliver the strategies, initiatives, works and programs identified in the Community Strategic Plan (CSP), through the four year delivery program and annual operational plan.

As required by the NSW Government's Integrated Planning and Reporting (IP&R) Framework, in order to achieve the community's long term aspirations as identified in the CSP, Council needs to assess its current and forecasted capacity and resources (money, people and assets) to execute this plan.

Purpose of the Long Term Financial Plan

The purpose of the LTFP is to provide the financial resources needed to achieve the objectives of the CSP.

The LTFP ensures Council's financial sustainability and informs decision making, in collaboration with other resourcing strategies. It translates financial strategy into financial statements to support the delivery of the CSP.

The LTFP seeks to answer the following key questions:

- Can Council survive the financial pressures of the future?
- What are the opportunities for future income and economic growth?
- Can Council afford what the community wants?
- How can Council go about achieving these outcomes?

Structure and Regulatory Environment

Council is unique as it is both a Local Government Authority regulated by the *Local Government Act 1993* and a Water Supply Authority regulated by the *Water Management Act 2000*. This means that Council not only delivers the diverse range of services associated with local government such as roads, open space, community facilities and waste management, but also provides water, sewerage and stormwater drainage services as a Water Supply Authority.

Council has funds to ensure appropriate reporting of services based on restrictions. The Consolidated Fund refers to the total of all services provided by Council and includes all of the funds. The Water Supply Authority reporting includes the water, sewer and drainage funds.

Fund	Consolidated	Water Supply Authority
General	✓	
Water	✓	✓
Sewer	✓	✓
Drainage	✓	✓
Domestic Waste	✓	

Strategic Financial Objectives

Council's Strategic Financial Objectives and the resulting Long Term Financial Plan are all driven by the overriding principle of financial sustainability. Balancing and meeting these Strategic Financial Objectives will ensure we achieve financial sustainability now and into the future.

Council's Strategic Financial Objectives, the sub-objectives and Key Performance Indicators (KPIs) are as follows:

Financial Sustainability

Tracking of the Key Performance Indicators (KPIs) aligned to each of the Strategic Objectives is how Council will monitor its financial performance and sustainability. A detailed explanation on the purpose, and the mathematical formula for each of these ratios appears as Appendix 1 to the LTFP. Under the Financial Ratios prescribed by the NSW Government to assess Financial Sustainability, Central Coast Council is working towards achieving each of the benchmarks. The following table shows Council's current and planned performance resulting from the Long Term Financial Plan, compared to the prescribed NSW Government benchmarks:

Operating Performance Ratio is just under the Office of Local Government (OLG) benchmark of > 0.0% for 2018-19 to 2020-21 financial years. Council's focus on continuing to align services including consolidation of information on one technology platform to improve service delivery and customer service requires additional temporary resourcing to ensure that service delivery is not impacted. The additional resources will cease in the 2020-21 financial year. Council will continue to apply for additional operational grant funding to assist with the cost of delivering services. Council will continue to review its operations to look for innovative ways to deliver services and take advantage of efficiencies to achieve the OLG benchmark.

Unrestricted Current Ratio is below the OLG benchmark of > 1.5. This is largely due to the significant restricted developer contributions balances. Council has received over \$39 million in developer contributions for the last 2 financial years (reporting periods ended 30 June 2017 and 30 June 2018) and during that time period has not delivered capital works funded by

developer contributions to the same level which leads to the increase in the restricted developer contributions balances. Council is developing a strategy and plans to deliver the capital works projects that developer contributions are being collected for. Council will continue to monitor cash and investment balances and restrictions to ensure that Council has sufficient funds available to meet short term obligations.

Rates and Annual Charges Outstanding Ratio is above the OLG benchmark of 5% in the 2018-19 to 2021-22 financial years, however Council is working on reducing this ratio responsibly by working with ratepayers to reduce their outstanding debts. The Policy for Debt Recovery and Hardship is in place and is a socially responsible framework for debt collection balancing between hardship and collecting the outstanding debts. Recently there have been structural changes to Council's operations with positive results and if this continues Council is likely to achieve the OLG benchmark earlier than 2021-22 financial year.

Infrastructure Backlog Ratio – strategies are in place to reduce the backlog which includes increased renewal funding and alternative intervention methods. The capital works program for water, sewer and drainage assets is in line with Council's pricing submission lodged with the Independent Pricing and Regulatory Tribunal (IPART) in September 2018. Costs of renewal and maintenance for water, sewer and drainage cannot be confirmed until this exercise is completed. Council will make adjustments to the operational budget and capital works program once IPART has made a determination. IPART will issue the final report and determination in May 2019. The capital expenditure planning for future years is maintained at the current levels of expenditure. For further details in relation to the Infrastructure and Service Management Ratios please refer to the Asset Management Strategy.

Strengths, Weaknesses, Opportunities and Threats

Strengths

Financial Sustainability

As noted under the Financial Sustainability section, Council is working towards the State Government Benchmarks for Financial Sustainability during the ten year time horizon of this Long Term Financial Plan (LTFP).

In alignment with these ratios, Council has forecasted operating surpluses (before capital grants and contributions) from the 2021-22 financial year and subsequent years of this LTFP. The forecasted operating deficit before capital grants and contributions is due to Council's focus on continuing to align services including consolidation of information on one technology platform to improve service delivery and customer service which requires additional temporary resourcing to ensure that service delivery is not impacted. The additional resources will cease in the 2020-21 financial year. Also as part of the 2019-20 operational budget Council has forecasted increases in some expenditure items such as \$4.0 million in electricity costs due to a significant increase in wholesale electricity prices.

Council is in a strong financial position to manage and correct existing weaknesses and to manage and absorb future threats. In addition, Council is in a unique position to seize and maximise opportunities and leverage off existing strengths.

Financial Management

Careful planning, management and focus on Council's Strategic Financial Objectives will ensure the current strong position continues and improves into the future.

Management will continue to focus on best value service delivery within financial realities. This will involve business improvement initiatives, benchmarking, automation, improved processes and examining alternative operating models.

Strength of Balance Sheet

Council has a very strong balance sheet with significant Total Assets and Net Assets (assets less liabilities), conservative and serviceable debt levels, fully recognised and funded liabilities, fully funded restricted cash, and minimal risk of loss existing in the asset portfolio.

At 30 June 2018, we held \$10.2 billion of Total Assets and \$7.1 billion in Net Assets.

Debt levels are low compared to Total Assets. Borrowings as at 30 June 2018 totalled \$264.9 million and \$7.6 billion in Total Assets. Council's Consolidated Debt Ratio (Total Debt/Total Assets) is very conservative at 3.5% considering the infrastructure Council manages on behalf of the community. The majority of debt resides in the Water Supply Authority funds and was originally undertaken to support the principle of "intergenerational equity"¹.

These debts are serviceable, as indicated by the estimated 2019-20 Debt Service Cover Ratio of 2.32 (this ratio measures the availability of operating cash to service debt including interest and principle and exceeds the Office of Local Government benchmark of great than 2.00).

Council's Investment Portfolio, totalling \$495.7 million (as at 28 February 2019), is in compliance with the Ministerial Investment Order endorsed in February 2011 and Office of Local Government Investment Policy Guidelines published in May 2010.

Diversity of Income Streams

Council has a very strong own source operating ratio of 84%. This indicates a very high level of fiscal flexibility and very low reliance on external funding sources such as operating grants and contributions.

¹ Spreading the cost of major infrastructure works over the many generations that will benefit from the works

\$349.1 million (62%) of the 2019-20 planned Total Operating Revenue of \$560.1 million is derived from Rates and Annual Charges (ordinary and special rates, domestic waste management charge, water, sewerage and drainage service charges).

In addition, a further \$135.9 million (24%) of operating revenue is derived from User Charges and Fees from delivery of a broad number of services including childcare, holiday parks, leisure centres and pools, waste tipping fees and building and development fees.

2019-20 User Charges and Fees

- Water and Sewer User Charges - \$69.8M
- Tipping Fees - \$20.7M
- Environment and Planning - \$10.8M
- Holiday Parks and Camping Grounds - \$10.7M
- Leisure and Pools - \$7.1M
- Childcare - \$7.1M
- Roads Transport and Drainage - \$4.1M
- Conveyancing Certificates - \$2.0M
- Other - \$4.2M

While some of these fees are regulated, others are contestable businesses in their own right and are subject to supply and demand pressures.

Acumen in benchmarking against external competitors and an increased understanding of unit costs has been an area of focus, with Council focussing on cost recovery, self-funding and positive return models.

Weaknesses

IPART Water and Sewerage and Stormwater Drainage Pricing

Water, sewerage and drainage prices are regulated by IPART. As the pricing regulator, IPART undertakes periodic reviews and determines maximum price levels for the services provided for a predetermined number of years, also known as the price path.

The 2019-20 operational budget and capital works program is based on Council's pricing submission lodged with IPART in September 2018. All prices for water, sewerage, stormwater drainage and ancillary services for 2019-20 have been calculated based on Council's pricing submission with an estimated CPI adjustment at 2.4% as the submission made was in 2018-19 dollars (\$2018-19).

IPART will issue the final report and determination for Council's water, sewerage, stormwater drainage and ancillary services in May 2019 and the pricing determination will apply from 1 July 2019.

At the time the 2019-20 budgets were being developed Council is unable to quantify the potential difference between Council's pricing submission and the final determination. Once the final determination is received appropriate adjustments will be made to align Council's budgets to the determination.

Investment Interest Rates

Council's current policy for Investment Management provides the framework for balancing the most favourable rate of interest with due consideration of risk (including Ministerial Directives) and liquidity. The policy limits investment to secure interest bearing instruments with Authorised Deposit-Taking Institutions (ADIs).

In addition, the need to maintain liquidity means that most investment term deposits have maturities of less than 12 months, negating the opportunity to "fix" higher rates when they were historically available.

As such, nearly all investments are fixed rate term deposits and the interest rates received reflect current market conditions in Australia.

Fixed interest rates on investment term deposits (and resulting income from invested cash) have been declining since 2010-11. Trends since 2008 demonstrate recovery from the Global Financial Crisis however changes to monetary policy and market influences in recent years has seen interest rates declining.

This trend has continued throughout the 2018-19 financial year and is forecast to continue to decline, with

the low return environment expected to continue throughout the Delivery Program.

Fixed Rate Debt

A significant majority of Council’s debt (concentrated in the Water Supply Authority funds) originated when interest rates were substantially higher and were fixed at those rates for periods between 10 and 20 years (on the principle of intergenerational equity).

This means that Council’s weighted average cost of funding at 6.6% is significantly higher than current market borrowing rates.

Refinancing opportunities are under continual review, but break costs have been judged to be prohibitively high so debt is being paid down steadily at current rates. Consequentially Council is negatively impacted by a negative interest margin between the cost of its debt against prevailing market borrowing rates.

Significant “balloon payments” are due in the next few years between 2020 and 2022. Council will investigate the need to refinance, which gives Council an opportunity to secure lower rates through both market forces and the structure of borrowing.

State and Federal Government Impacts

Cost Shifting

Cost shifting is where the responsibility and/or costs of providing a certain service, asset or regulatory function, are shifted from a higher level of government to a lower level of government. The cost is shifted without providing corresponding funding or adequate revenue raising capacity.

Cost shifting continues to place a significant burden on Council’s financial situation, approximately \$44.7 million in the 2017-18 financial year. Despite the recognition of cost shifting and its adverse impacts on NSW Local Government, cost shifting is estimated to be around 8% of Council’s total income before capital grants and contributions.

Examples of cost shifting include contributions to the NSW Fire and Rescue, NSW Rural Fire Services and NSW State Emergency Service, lack of adequate funding for public libraries and the failure to fully reimburse councils for mandatory pensioner rebates.

Section 88 Waste Levy

Included in the cost shifting analysis, but worthy of specific mention, is the NSW Government’s Waste Levy in s. 88 of the *Protection of the Environment Operations Act 1997*. This levy requires Council to pay a contribution to the NSW Government for each tonne of waste received for disposal at Council’s waste management facilities. It presents a particularly material impost on Councils. In 2019-20 the budgeted expenditure on the Waste Levy is \$31.1 million.

Traditionally this State Government tax has been passed on to consumers and businesses through the Domestic Waste Management Charge (for kerbside collections), and tipping fees (for waste received over the weighbridge at Council’s Waste Management Facilities).

Tipping revenues will be impacted by the increasing Waste Levy, as both domestic and commercial tipplers find less expensive disposal methods and/or resort to illegal dumping.

We will continue to analyse the feasibility of alternate waste management techniques in an attempt to reduce the volume of waste going to landfill and increase the amount of waste diverted. This will reduce the total Waste Levy charged as the levy only applies to waste going to landfill.

Financial Assistance Grants

Council receives grant funding under the Federal Government’s Financial Assistance Grant (FAG) program to assist with general operations in accordance with local priorities. The Financial Assistance Grant (FAG) program consists of two components:

- A general purpose component which is distributed between the states and territories according to population (i.e. on a per capita basis), and
- An identified local road component which is distributed between the states and territories according to fixed historical shares.

Council has no control over the formula used to determine the amount of the FAG allocation and has no control over the timing of the receipt, but all of these factors have a material impact on Council’s financial performance.

For merged Councils, such as Central Coast Council, it has been confirmed that for four years following amalgamation the FAG allocations will be the total of the amounts that would have been provided to the former Councils as if they had remained as separate entities.

The federal budget for 2019-20 will be announced on the 2 April 2019. As the 2019-20 federal budget has not been released at the time of the development of Council’s budget we have budgeted for the full 2019-20

estimated FAG. Historically when the Federal Government announces the federal budget there has been a prepayment of the FAG. For example, at the announcement of the 2018-19 federal budget the Federal Government brought forward 50% of the 2018-19 FAG program for payment in the 2017-18 financial year. Once the Federal Government releases the 2019-20 federal budget Council will be able to determine whether a budget adjustment is required for the FAG. Any changes to the timing of the FAG will be reflected in the quarterly budget review process.

The nature of FAG funding requires Council to recognise the grant funding as income when received in accordance with AASB 1004. It should be noted that where the Federal Government decides to prepay the FAG Council will still receive its full FAG entitlement to assist in the provision of services, however the timing of the payment will determine which financial year the grant funding is recognised as income.

The FAG is essential as it allows Councils to provide a reasonable level of service and infrastructure to local residents. Pausing indexation or reducing the overall amount of FAGs is not within the control of Council, however decisions made by other levels of government impact on the budget and service delivery can be profoundly negative.

Opportunities

Optimising Property Portfolio Performance

Observation of the Local Government sector indicates that the majority of those Councils, who are performing well financially and have built a sustainable future, have commonly done so by maximising the potential of their property portfolio.

Projected Population Growth

The population of the Central Coast is more than 330,000, with projections for 415,000 people by 2036. To meet the projected population growth it is estimated that an additional 41,500 dwellings and 24,600 new jobs will be needed to support the increase in the population. This creates significant challenges but we view this growth, coupled with coherent strategy and available resources for growth, as an opportunity to deliver for our community.

Our region has both the location and resources to leverage from this growth. Located one hour north of Sydney and one hour south of Newcastle, along major transport links, the Central Coast is ideal for encouraging increased commercial and industrial development.

Development Applications

Development activity is closely aligned to the broader economic climate with high levels of development

activity which is evidenced through the number of development applications received and construction commencement around the Central Coast. While the current trend is positive it remains difficult to project future trends.

With a number of development applications in the pipeline it is expected that there will be a levelling out of developer contribution income over the next few years.

Debt Restructure

Council's debt portfolio totalled \$264.9 million of external borrowings at 30 June 2018. The majority of these loans were established when interest rates were far higher than they are now, pre-dating the Global Financial Crisis, and the average rate on these loans is higher than present market rates.

The majority of current debt was established to finance long term water and sewerage network assets and is held as a liability within the Water Supply Authority functions. The average duration of the loan portfolio is reducing at a faster rate than the depreciation of the corresponding infrastructure assets and will require refinancing in the short to medium term.

We undertake regular debt reviews to determine the costs and benefits associated with extinguishing existing debt and investigating favourable refinancing options. To date break costs have been judged to be prohibitively high so debt is being paid down steadily at current rates.

New borrowing requirements in recent years have been satisfied by borrowing internally from the other funds (General and Sewer funds) that have sufficient unrestricted cash. Further there are significant "balloon payments" required in the years between 2020 and 2022. Council will review the need to refinance, which gives us an opportunity to secure lower rates.

Threats

State or Federal Legislation

All aspects of Council operations are heavily regulated and are therefore highly sensitive to State or Federal Government legislative changes. As already evidenced in respect of the Waste Levy, and Cost Shifting in general, legislative decisions have a material impact on Council's financial position.

More specifically, every service Council offers can potentially be materially impacted by legislative change. For example changes to child care staff ratios impact the costs associated with delivering the service.

Ageing Population

There has been noticeable legislative change in response to the ageing population such as phased increases to the age pension retirement age and the level of the superannuation guarantee charge.

As detailed in the Workforce Management Strategy, the current compulsory superannuation levy of 9.5% is expected to increase to 12% by 2025-26 financial year. The financial implications of these changes include compounding increases in employee costs. Key considerations need to be given to how we will manage this generational diversity and provide financially sustainable solutions in the area of workforce management.

An overall increase in the ageing population will increase revenue pressures generated by additional pensioner rebates which are partially subsidised by the State Government. Councils which have a higher percentage of pensioners than the State average will need to fund more in pensioner rebates.

Our region has a higher proportion of aged pensioners compared to other local government authorities. The lack of indexation on pensioner rate rebates represents another example of cost shifting as Council must fund a larger amount of pensioner rebate.

Asset Management

Council's infrastructure, property, plant and equipment portfolio has a gross replacement cost of \$10.2 billion as at 30 June 2018.

The infrastructure backlog ratio which is part of the infrastructure and service management ratios exceeds the OLG benchmark of < 2%.

Strategies are in place to reduce the backlog which includes increased renewal funding and alternative intervention methods.

Council's proposed capital works program for the 2019-20 financial year is \$223.2 million (excluding pending grant funding and gated projects). 82.4% or \$183.9 million is allocated to renewal and upgrades to existing assets to address the asset backlog.

Council is also investing 17.6% or \$39.3 million in new and regionally significant assets for the Community.

The capital works program for water, sewer and drainage assets is in line with Council's pricing submission lodged with the Independent Pricing and Regulatory Tribunal (IPART) in September 2018. Costs of renewal and maintenance for water, sewer and drainage cannot be confirmed until this exercise is completed. Council will make adjustments to the operational budget and capital works program once IPART has made a determination. IPART will issue the final report and determination in May 2019.

The capital expenditure planning for future years is maintained at the current levels of expenditure.

For further details in relation to the Infrastructure and Service Management Ratios please refer to the Asset Management Strategy.

Council's unrestricted current ratio is below the OLG benchmark of > 1.5.

This is largely due to the significant restricted developer contributions balances. Council has received over \$39 million in developer contributions for the last 2 financial years (reporting periods ended 30 June 2017 and 30 June 2018) and during that time period has not delivered capital works funded by developer contributions to the same level which leads to the increase in the restricted developer contributions balances.

In Council's proposed 2019-20 capital works program \$16.6 million will be funded by developer contributions. Council is developing a strategy and plans to deliver the capital works projects that developer contributions are being collected for. It should be noted that developer contributions generally fund up to 20% of the project cost and additional sources of funds need to be found to fund the balance of the project costs.

Council will continue to monitor cash and investment balances and restrictions to ensure that Council has sufficient funds available to meet short term obligations.

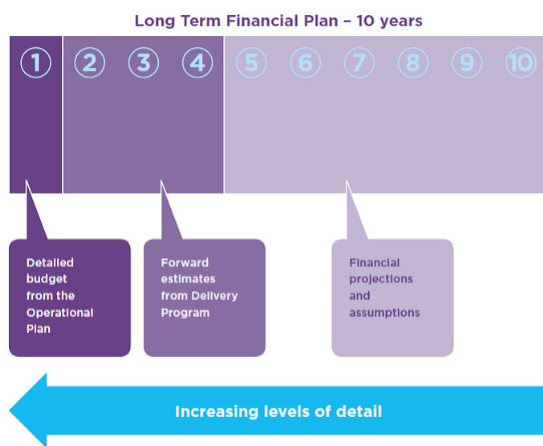

Council will continue to apply for external grant funding to assist with the cost of asset renewals and upgrades to address the asset backlog and the fund projects which are partially funded by developer contributions.

Assumptions

Assumptions – General

The LTFP is a ten year plan that includes the one year Operational Plan and the three year Delivery Program (based on a shortened term for the current Council due to the amalgamation). It is revised annually to reflect changing financial aspects impacting Council and is aligned to optimal delivery of services contained within the CSP.

The projected components contained within the key financial statements relating to income, expenses, assets, and liabilities are based on assumptions that are modelled within the LTFP.

General Assumption

Population Growth	<p>Although projected population growth within the region is set to rise over the next 20 years (415,000 by 2036); population growth does not always lead to growth in Council's rateable base.</p> <p>In recent years, our rateable property base has grown by approximately 0.5% per year and this escalation has been factored into the assumptions within the LTFP for income and expenditure projections</p>
Inflation	<p>A number of indices used in the LTFP have been based on the Reserve Bank of Australia's Consumer Price Index (CPI) inflation forecast of 2% - 3% from the February 2019 Statement on Monetary Policy.</p> <p>We have considered this forecast and used a 2.5% escalation in most LTFP income and expense categories, with the exception of regulated income and expense items that are set by IPART</p>

Assumptions – Income

2019-20 Operating Income

Rates and Annual Charges

Rates and annual charges include the following revenue types:

- Ordinary rates (including pensioner rebates)
- Special rates
- Domestic waste management charge
- Water service charge
- Sewerage service charge
- Drainage service charge

Income Assumption

Ordinary and Special Rates	<p>Council's Special Rates fund activities that directly support business activities in certain areas. This will continue to be levied on the same basis as Ordinary Rates for those applicable properties as follows:</p> <ul style="list-style-type: none"> • The Entrance Area • Toukley Area • Wyong Area • Gosford Parking • Gosford Central Business District Improvement Special Rate • Business/Tourism Development Special Rate
-----------------------------------	--

Income Assumption	
	Ordinary and special rates account for 48% of the rates and annual charges income (after pensioner rebates have been applied).
Domestic Waste Management Charge	<p>All residential properties attract an annual domestic waste management charge recouped for the provision of waste collection, recycling services and remediation of closed landfill sites.</p> <p>Domestic waste management charges account for approximately 20% of the overall rates and annual charges income.</p>
Water, Sewerage and Stormwater Drainage Charges	<p>The 2019-20 budget is based on Council's pricing submission lodged with IPART in September 2018. All prices for water, sewerage, stormwater drainage and ancillary services for 2019-20 have been calculated based on Council's pricing submission with an estimated CPI adjustment at 2.4% as the submission made was in 2018-19 dollars (\$2018-19).</p> <p>IPART will issue the final report and determination for Council's water, sewerage, stormwater drainage and ancillary services in May 2019 and the pricing determination will apply from 1 July 2019.</p> <p>The water, sewerage and stormwater drainage annual charges account for 26% of the rates and annual charges income.</p>

User Fees and Charges

This category of income represents a user pay system and relies wholly on demand. It includes both statutory charges, where the price is set by regulation, and Council determined charges, where the fee is set to reflect market rates and/or contribute towards the cost recovery of providing the service.

Examples of both types of fees and charges include the following:

- Water usage charges
- Sewer user charges
- Tipping fees
- Holiday park user charges
- Child care fees
- Roads and Maritime Services (RMS) user charges
- Development application fees
- Community facility hire fees
- Building and shop inspections
- Construction certificates

- Companion animal registrations

Income forecasts have been based on projected volumes multiplied by the unit rate as contained in the Statement of Revenue.

Income Assumption	
Water Supply User Charges	<p>The largest component of revenue within user fees and charges relates specifically to residential water usage (46%).</p> <p>As for the water, sewerage and stormwater drainage annual charges the 2019-20 water usage charge budget is in line with Council's pricing submission.</p> <p>Water usage is a highly responsive charge that can be significantly impacted by weather conditions and consumer tendencies.</p> <p>Following the drought between 2001 and 2007, there has been a conservative water usage trend that is aligned with entrenched water wise practice among users. Even though water restrictions have been easing since 2008, the usage trend remains conservative and has not returned to pre-drought consumption volumes.</p>
Tipping Fees	<p>Tipping fees account for 15% of projected income in this category and include impacts of changes to costs of operating the landfill site. The fees include a levy which is collected by Council on behalf of the NSW Government, Environment and Protection Authority (EPA), and subsequently remitted back to them on a monthly basis.</p> <p>Any increase in fees will directly influence the amount of waste being disposed of at the facility, thereby impacting income projections (as well as operating costs) in the LTFP. Income projections contained within the LTFP have been based on current user trends.</p>
Holiday Park and Camping Ground User Charges	<p>Council has four holiday parks in the region located in Budgewoi, Canton Beach, Toowoona Bay and Norah Head and a camping ground in Patonga. Income from the holiday parks and camping ground is estimated to account for 8% of our user fees and charges income for 2019-20. Fees for the holiday parks are set on a benchmarked market price.</p>

Income Assumption

Child Care Fees	<p>Council operates eight child care centres in Kanwal, Kariong, Niagara Park, Terrigal, Toukley, San Remo, Umina and Wyong, ensuring the provision of quality child care and education in the region. The LTFP contains operating income and expenditures associated with Council's child care centres.</p> <p>Income from child care accounts for approximately 5% of Council's user fees and charges income for 2019-20.</p>
------------------------	---

Interest and Investment Revenue

Council's investments are made in accordance with the *Local Government Act 1993*, the *Local Government (General) Regulation 2005*, Council's Investment Policy, the Ministerial Investment Order issued in 2011 and the Office of Local Government Investment Policy Guidelines published in 2010.

Council invests cash in fixed rate term deposits with Approved Deposit Institutions, keeping risk low while at the same time securing ongoing returns.

Interest rates have been low in historical terms since 2010-11 and therefore the LTFP has adopted a conservative stance and assumes a stable interest rate over the next few years consistent with recent yields. The amount of interest revenue calculated in the LTFP is directly linked to the available cash balances from the cash flow statement

Other income in this category relates to interest imposed on overdue rates and charges, calculated at the rate set by the Minister for Local Government calculated on the Reserve Bank of Australia (RBA) cash rate plus 6%.

Other Revenue

Other sources of revenue include:

- Commercial and residential rent
- Fines and infringements
- Cemetery plots and memorials
- Water and sewerage service connections
- Royalty payments for landfill gas
- Miscellaneous

The majority of income projections related to other revenues contained within the LTFP are based on historical trend, escalated with CPI.

Grants and Contributions

Grants and contributions provide Council with an income stream consisting of both cash payments as well as non-cash receipts, such as in-kind contributed assets.

For example, roads and drainage assets in new subdivisions built by a developer and then transferred to Council.

The amount of both operating and capital grants and contributions available to Council is subject to external influences and will vary each year. Council has been focusing on applying for grant funding to offset service delivery costs and to fund the capital works program.

Operating grants or contributions are funds received that relate to day-to-day service delivery, whereas capital grants or contributions are funds received that relate directly to creation or enhancement of an asset.

Income Assumption

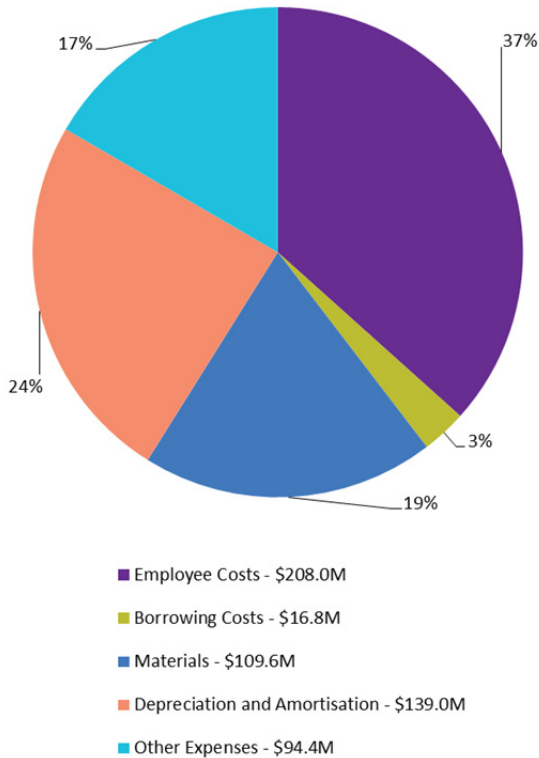

General Purpose	<p>Grants and contributions received for a general purpose allows Council to determine the allocation of funds to any of the services which Council delivers. For example the Financial Assistance Grant (FAG) received from the Federal Government and Pensioner Rebate subsidies received from the NSW Government have been factored into the LTFP.</p> <p>The LTFP assumes that these general purpose grants are recurrent in nature with escalations of CPI.</p>
Specific Purpose	<p>Income received for specific purpose means that it is restricted in use and cannot be used for any purpose other than that identified in the funding agreement. This income is kept as a separate cash reserve until such time as the expenditure occurs.</p> <p>Common examples of specific purpose grants received by Council relate to the following:</p> <ul style="list-style-type: none"> • Roads • Street lighting • Bushfire prevention • Waste and recycling • Child care • Library services • Recreational facilities <p>Each specific purpose grant has been considered individually for the LTFP and only those that have been ongoing in recent years have been included as recurrent future income e.g. street lighting. Many of the specific purpose grants received by Council are capital in nature and have been included as a consideration in the capital works program and therefore non-recurrent in nature.</p>

Net Gains

The LTFP assume that Council will dispose of non-strategic assets each year and generate \$1.5 million in net proceeds. No escalations have been applied to this target.

Assumptions – Expenses

2019-20 Operating Expenditure

Employee Benefits and On-Costs

Employee costs account for over one third of total operating expenditure and include:

- Salaries and wages
- Superannuation
- Payroll tax
- Training
- Workers compensation
- Personal and protective equipment

The LTFP has also factored in predicted Award increases and stepped increases to superannuation based on legislative change (from 9.5% current rate to 12% effective 1 July 2025).

Borrowing Costs

We traditionally have used long term loans to finance large capital expenditures, particularly related to major water and sewerage network projects. More than 93% of debt is held in our Water Supply Authority functions. The practice of borrowing funds to generate cash flow to deliver large infrastructure allows the cost of the project to be spread across the useful life of the asset in

order to facilitate intergenerational equity for these assets.

A key objective in improving our financial sustainability is to reduce overall debt in the medium to long term and the LTFP assumes inter-fund borrowings will occur where sufficient unrestricted cash is available. These arm's length transactions allow Council to retain interest income internally for reinvestment into delivery of valuable services.

We will also apply for subsidised borrowing schemes from the State or Federal Government to promote accelerated infrastructure investment and reduce borrowing costs as they become available.

External loan balances forecasted as at 30 June 2019 are \$231.9 million and all existing loans are due to mature by May 2037, with major milestone maturities due in the financial years 2020 - 2022 already factored into cash flows. Interest expense has been projected based on the rates applicable for each loan.

Our cash flows are managed to ensure sufficient funds are always held to cover restricted balances i.e. funds received for a specific purpose which are restricted by regulation or other imposed requirements

Materials and Contracts

Almost half of the costs within this category relate to essential delivery of services such as waste management, water and sewerage services and roads maintenance. Specific contracts include:

- Garbage collection
- Equipment hire and fuel
- Information management hardware
- Chemicals (for water and sewage treatment)

This expense class includes costs associated with consultants and labour hire contracts where we do not have the expertise or capacity to resource activities internally.

Projections have been based on existing contracted rates escalated for CPI where applicable.

Depreciation and Amortisation

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life. Depreciation expense contributes to 24% of our operational expenditure. Even though this expense item has no cash consequence, we must invest in equivalent renewal or upgrade works to ensure that the assets are held to their optimal levels of serviceability.

Depreciation expense assumptions are based on the effective lives of existing assets and the expected useful lives of new assets. This information is reviewed annually.

Other Expenses

This expense group includes the following costs:

- Waste levy
- Electricity and street lighting
- Tourist park management
- Software
- Insurance
- Contributions to the following town centres and services:
 - The Entrance, Toukley, Gosford and Wyong Town Centres
 - Fire and Rescue Services
 - State Emergency Services
- Telecommunications
- Bank charges

Expense Assumption

costs will increase by more than the CPI in 2019-20 and return to CPI increases in future years.

Electricity costs (including street lighting) make up 18% of other expenses and the LTFP includes the following further underlying assumptions:

- The level of consumption remains constant
- Usage times between peak, shoulder and off-peak remain consistent with existing patterns
- No new environmental charges are introduced

Expense Assumption

Waste Levy

The *Protection of the Environment Operations Act 1997* requires licensed waste facilities in NSW to pay a contribution for each tonne of waste received for disposal at the facility. This cost accounts for approximately one third of other expenses. As the operator of Waste Management Facilities, we incorporate this levy into the fees charged to customers and then remit this to the EPA. This levy has historically increased well above the CPI rate as shown on the table below. More recently the levy has increased in line with the CPI rate. Within the LTFP we have escalated the waste levy at 2.5%

Notes: The SMA and ERA are now collectively known as the Metropolitan Levy Area. The RRA is now known as the Regional Levy Area.

Electricity

Council's electricity contracts are about to expire. Wholesale electricity prices have risen significantly since Council entered into the current electricity contracts. Based on the increase in wholesale prices it is estimated that Council's electricity

Sensitivity Analysis

Long term financial plans are inherently uncertain. They contain a wide range of assumptions that can impact future outcomes, and future patterns of income and expenditure will rarely behave as they have in the past. However, understanding the events of the past and factors that may create impacts in the future assist with testing LTFP parameters to determine whether it is flexible enough to endure such pressures.

The sensitivity analysis models impacts to variability of key assumptions that will most likely affect the LTFP.

The table below shows financial impacts to our operating result by individual key drivers. These are based on high level assumptions and 2019-20 budgeted estimates, and may have other consequential outcomes if they are realised.

Item	Variation (+ or -)	Approximate Operational Impact 2019-20
Rate Peg	1.0% rates	\$1.7 million change in revenue
Interest Rate	1.0% rate	\$5.1 million change in revenue
Water Usage	1.0% consumption	\$610k change in revenue
Tip Volumes	1.0% tonnages	\$224k change in revenue
Inflation Other Expenses	0.5% cost base	\$472k change in expenses
Inflation Materials	0.5% cost base	\$548k change in expenses
Staff Establishment	1.0% increased turnover rate	\$2.0 million change in expenses

Scenarios

The LTFP includes the following three scenarios designed to model the impact of changes in assumptions:

- A. Base case
- B. Conservative
- C. Optimistic

All scenarios maintain a consistent capital works program, assume existing levels of service are maintained and ensure that a positive cash position is achieved. The net operating results (before capital income) for all scenarios are shown on the below graph.

A. Base case

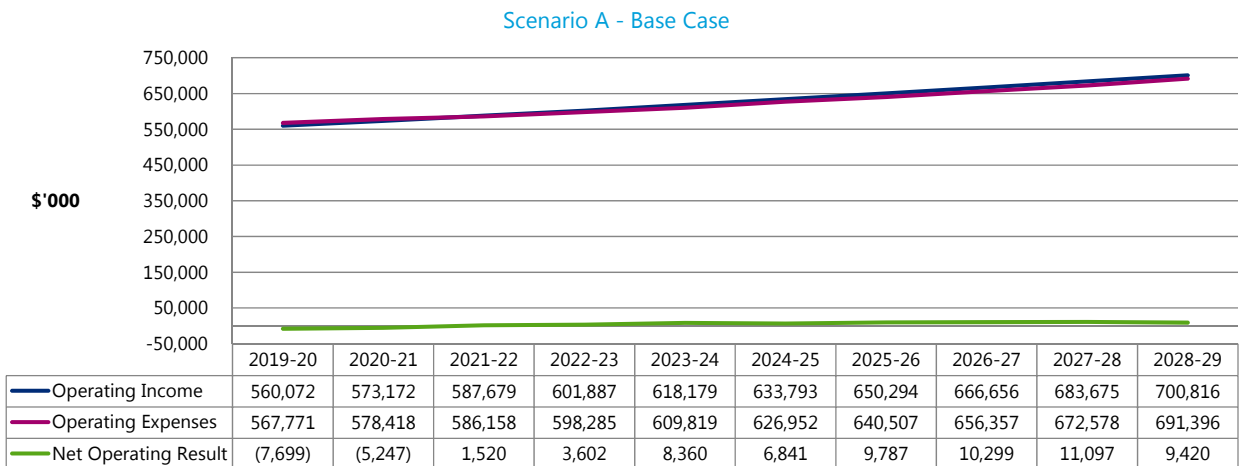

This scenario includes the following assumptions:

Ordinary Rates escalated by the estimated rate peg thereafter (2.5%)

Water and Sewer income in line with Council's submission to IPART for 2019-20 to 2022-23 thereafter 2.5%

Operating expenditures that support delivery of the Community Strategic Plan

Financially sustainable capital expenditure program consistent with the Asset Management Strategy

The below financial tables represent the base case planned outcomes over the ten year horizon

B. Conservative

This scenario includes the following assumptions that vary when compared to the base case LTFP:

Waste levy costs are 10% higher as a result of State Government escalations

Water usage income is 5% lower as a result of entrenched water wise practice

Inflation rates are 1% higher than expected

Staff turnover rate is 3% lower than planned

C. Optimistic

This scenario includes the following assumptions that vary when compared to the base case LTFP:

Waste levy costs are reduced as a result of implementation of alternative waste technology (estimated 20% diversion of landfill waste)

Water usage income is 5% higher as a result of additional consumption

Inflation rates are 1% lower than expected

Staff turnover rate is 3% higher than planned

Appendix 1: Financial Performance Ratios

Methods of Monitoring Financial Performance

A primary goal of the LTFP is to enable transparent measurement and accountability. We use the following indicators to achieve this goal:

Operating Performance Ratio

$$= \frac{\text{Total continuing operating revenue (excluding capital grants and contributions) less operating expenses}}{\text{Total continuing operating revenue (excluding capital grants and contributions)}}$$

This ratio measures Council's achievement of containing operating expenditure within operating revenue. This ratio focuses on operating performance and excludes capital income from grants and contributions.

Own Source Operating Revenue Ratio

$$= \frac{\text{Total continuing operating revenue excluding all grants and contributions}}{\text{Total continuing operating revenue inclusive of capital grants and contributions}}$$

This ratio measures fiscal flexibility and the degree of reliance on external funding sources. A Council's fiscal flexibility improves the higher the level of its own source of revenue.

Unrestricted Current Ratio

$$= \frac{\text{Current assets less all external restrictions}}{\text{Current liabilities less specific purpose liabilities}}$$

The purpose of this ratio is to demonstrate whether there are sufficient funds available to meet short term obligations.

Cash Expense Cover Ratio.

$$= \frac{\text{Cash and cash equivalents plus term deposits}}{\text{Cash flows from operating and financing activities}}$$

This liquidity ratio indicates the number of months Council can continue paying for its immediate expenses without additional cash inflow.

Rates and Annual Charges Outstanding Percentage

$$= \frac{\text{Rates and annual charges outstanding}}{\text{Rates and annual charges collectible}}$$

The purpose of this measure is to assess the impact of uncollected rates and annual charges on liquidity and the adequacy of recovery efforts.

Infrastructure Backlog Ratio

$$= \frac{\text{Estimated costs to bring assets to a satisfactory condition}}{\text{Net carrying amount of infrastructure assets}}$$

This ratio shows what proportion the backlog is against the total value of Council's infrastructure.

Asset maintenance ratio

$$= \frac{\text{Actual asset maintenance}}{\text{Required asset maintenance}}$$

This ratio compares actual maintenance against required maintenance to determine whether Council is investing enough funds to stop the infrastructure backlog from growing.

Building and Infrastructure Renewals Ratio

$$= \frac{\text{Asset renewals excluding WIP for Special Schedule 7 infrastructure assets only}}{\text{Depreciation, amortisation and impairment}}$$

The purpose of this ratio is to assess the rate at which these assets are being renewed against the rate at which they are depreciating for building and infrastructure assets.

Debt Service Cover Ratio

$$= \frac{\text{Operating result before capital (excluding interest and depreciation, amortisation, impairment)}}{\text{Principal repayments and borrowing costs}}$$

This ratio measures the availability of operating cash to service debt including interest, principal and lease payments.

STATEMENT OF REVENUE

Statement of Revenue

Overview

The Statement of Revenue details how rates and annual charges are set, as well as fees and charges for use of Council facilities and services.

Ordinary Rates and Special Rates

How Rates are Determined

The total amount of ordinary and special rates Council can charge is capped by legislation. The Independent Pricing and Regulatory Tribunal (IPART) has approved a 2.7% rate peg as the allowable increase on this capped amount.

This capped amount is effectively shared between ratepayers according to the individual value of each property within each of the former Gosford and Wyong Local Government Areas.

Under the *Valuation of Land Act 1916* Council is required to use the most current land values when calculating ordinary and special rates.

These values are provided by the NSW Valuer General (VG), the independent statutory authority responsible for determining land values in NSW. The latest values provided by the VG are being used for levying rates in and have a base date of 1 July 2016.

Council usually has a limited number of inflexible rating structures mandated under the *Local Government Act 1993*. All of which are primarily based on the unimproved land value of property.

However, in accordance with the NSW Government's rate path freeze policy provisions as determined under s. 218CB of the *Local Government Act 1993*, these limited options are not available to Central Coast Council.

The NSW Government's rate path freeze policy, means that Council is required to maintain the rate path that was last applied by the former Gosford City Council and the former Wyong Shire council. This policy has been formalised in legislation and will apply until 30 June 2020.

Rating Categories and Structure

Categories

In accordance with s. 514 of the *Local Government Act 1993*, all parcels of rateable land in Council's area have been classified into one of the following categories of Ordinary rates:

Land Categories		
Farmland	s. 515 of the <i>Local Government Act 1993</i>	Land is categorised as farmland if it is a parcel of rateable land valued as one assessment and its dominant use is for farming or agricultural production. Rural residential land is not categorised farmland.
Residential	s. 516 of the <i>Local Government Act 1993</i>	Land is categorised as residential if it is a parcel of rateable land valued as one assessment and its dominant use is for residential accommodation or rural residential land or if it is vacant land it is zoned or otherwise designated for use under an environmental planning instrument for residential purposes.
Residential – Flood Prone	s. 516 of the <i>Local Government Act 1993</i>	Land is categorised as residential – flood prone if it is a parcel of rateable land valued as one assessment and it is vacant flood liable land which is unsuitable for building upon.
Mining	s. 517 of the <i>Local Government Act 1993</i>	Land is to be categorised mining if it is a parcel of rateable land valued as one assessment and its dominant use is for a coal mine or metalliferous mine.
Business	s. 518 of the <i>Local Government Act 1993</i>	Land is to be categorised as business if it cannot be categorised as farmland, residential or mining. Caravan parks and manufactured home communities are to be categorised business.
Business – Major Retail	s. 529(2)(d) of the <i>Local Government Act 1993</i> - a sub-category may be determined for the category "business" according to a centre of activity	The Business Sub Category of Major Retail applies to properties within the major retail precincts in the former Wyong Shire local government area of: <ul style="list-style-type: none"> • Bay Village Bateau Bay (refer to Map 1) • Lake Haven Shopping Centre and Home Mega Centre (refer to Map 2) • Westfield Tuggerah (refer to Map 3) • Tuggerah SuperCentre (refer to Map 4)
Business – Local Retail	s. 529(2)(d) of the <i>Local Government Act 1993</i> - a sub-category may be determined for the category "business" according to a centre of activity	The Business Sub Category of Local Retail applies to properties within the local retails precincts in the former Wyong Shire local government area at: <ul style="list-style-type: none"> • Chittaway Bay (refer to Map 5) • Lake Munmorah (refer to Map 6) • San Remo (refer to Map 7) • Wadalba (refer to Map 8)

The categorisation of all rateable land was determined as at 1 January 1994 and took place with the issue of the rate notice in January 1994.

New parcels of land created since that date have been categorised with the issue of subsequent rate notices. Where subsequent changes in categorisation have occurred, written notices to this effect have been issued in accordance with s. 520 of the *Local Government Act 1993*.

Structure

In accordance with recent/proposed amendments to the *Local Government Act 1993* applicable to merged councils, Central Coast Council is required to maintain the rate path that was last applied by the former Gosford City Council and the former Wyong Shire Council.

The rating structures that apply within each of the former Gosford and Wyong Local Government Areas therefore reflects the structure and path of rate increases in place within each of those areas prior to the formation of Central Coast Council on 12 May 2016.

Ordinary Rates

Ordinary rates are used to provide essential services such as the road network, street lighting, street cleaning, footpaths, parks, sport and recreation facilities, environmental planning and conservation, city rangers, pest control, libraries, town planning and building control, community services, and much more.

Other Waste Management Service Charge – Non Domestic

Council levies the waste management charge on all parcels of applicable land for which a Council waste, recycling or vegetation bin service is provided.

Commercial customers and non-rateable properties may be provided with waste bins of various capacities and/or with recycling bins of various capacities and/or a 240 litre garden vegetation bin.

The standard service frequency for the waste bins is once per week and the recycling bins and 240 litre garden vegetation bin is once per fortnight.

Multiple services per week of any bin can be arranged in accordance with the waste collection contract. The cost will be the multiple of the standard annual charge.

Service	Annual Charge	Rate Per Week
140 litre Waste Bin	\$374.00	\$7.19
240 litre Waste Bin	\$499.00	\$9.60
360 litre Waste Bin	\$615.00	\$11.83
660 litre Waste Bin	\$2,130.00	\$40.96
1.1 m ³ Waste Bin	\$2,974.00	\$57.19
1.5 m ³ Waste Bin	\$4,005.00	\$77.02
240 litre Recycling Bin	\$100.00	\$1.92
360 litre Recycling Bin	\$133.00	\$2.56
660 litre Recycling Bin	\$275.00	\$5.29
1.1 m ³ Recycling Bin	\$458.00	\$8.81
1.5 m ³ Recycling Bin	\$625.00	\$12.02
240 litre Vegetation Bin	\$105.00	\$2.02

The yield to Council from these charges in 2019-20 is estimated to be \$3,809,000.

Pension Rebates - Ordinary Rates and Domestic Waste Management Charges

Council provides a rate reduction on the combined ordinary rate levy amount and the domestic waste management charge of 50%, with a maximum combined reduction of \$250 to eligible pensioners.

Of this reduction 55% is reimbursed to Council by the NSW Government.

The estimated total amount of pension rebates for ordinary rates and domestic waste management charges in 2019-20 is \$6,299,000, of which 55% is funded by the NSW Government with the balance funded by Council.

Water, Sewerage and Drainage Charges

Central Coast Council's water, sewerage and drainage services and a number of its associated ancillary services are levied under the *Water Management Act 2000*. Those services are declared monopoly services under s. 4 of the *Independent Pricing and Regulatory Tribunal Act 1992*.

Council's prices must therefore be set in accordance with any IPART determined methodologies and/or maximum prices, and are subject to approval by the relevant Minister.

All prices for water, sewerage, drainage and ancillary services for 2019-20 are presented in accordance with Council's IPART pricing submission, using forecast CPI movement of 2.4%. IPART's final pricing determination will be released on 28 May and the charges presented for water, sewerage, drainage and ancillary services for 2019-20 will be updated as per the final determination.

Water Supply Service Charges

Council levies the water supply service charge on the owners of all properties for which there is an available water supply service. This covers the costs of making water available.

For those properties that become chargeable or non-chargeable during the year the charge will be applied in the next billing period.

The water supply service charges for 2019-20 are as follows:

Basis of Charge	Annual Charge
Residential (Dwelling base)	
Houses	\$115.92
Strata individual/common meters	\$115.92
Flats	\$115.92
Mixed development	\$115.92

Basis of Charge	Annual Charge
Unconnected properties (but reasonably available for connection)	\$115.92
Non Residential (Meter size base)	
20mm meter	\$115.92
25mm meter	\$181.11
32mm meter	\$296.74
40mm meter	\$463.66
50mm meter	\$724.47
65mm meter	\$1,224.35
80mm meter	\$1,854.64
100mm meter	\$2,897.87
150mm meter	\$6,520.20
200mm meter	\$11,591.45
300mm meter	\$18,111.65
Non specified pipe/meter size	$(\text{meter size})^2 / 400 \times (20\text{mm water service charge})$

Note: retirement villages are proposed to be charged based on the meter size. All properties identified as retirement villages are required to be registered with Department of Fair Trading via their website: <http://parkspr.fairtrading.nsw.gov.au/RetirementVillage.aspx>.

The expected total yield in 2019-20 from water service charges is \$17,244,000.

Water Usage Charges

In addition to the water supply service charge, all potable water consumed will be charged at \$2.25 per kilolitre.

Where water usage relates to multiple financial year periods the usage will be apportioned to each period on a daily average basis and the applicable period's water usage charge will be applied.

The expected total yield in 2019-20 from this charge is \$61,931,000.

Sewerage Supply Service Charges

Council levies this charge to cover the cost of supplying sewerage services on all properties for which there is a sewerage service either connected or available.

For those properties that become chargeable or non-chargeable during the year the charge will be applied in the next billing period.

Non Residential properties will be levied a sewerage service charge based on meter size and sewerage usage charges. Where the sum of these charges is less than the non-residential minimum sewerage charge, the residential charge will be charged instead.

A discharge factor in accordance with Council's Trade Waste Policy is applied to the charge based on the volume of water discharged into Council's sewerage system.

Basis of Charge	Annual Charge
Residential (Dwelling base)	
Houses	\$551.63
Strata individual/common meters	\$551.63
Flats	\$551.63
Mixed development	\$551.63
Unconnected properties (but reasonably available for connection)	\$551.63
Non Residential (Meter size base)

25mm meter	\$836.00
32mm meter	\$1,340.28
40mm meter	\$2,068.28
50mm meter	\$3,205.77
65mm meter	\$5,835.94
80mm meter	\$8,134.87
100mm meter	\$12,684.82
150mm meter	\$28,483.24
200mm meter	\$50,601.03
250mm meter	\$79,038.20
Non specified pipe/meter size	$(\text{meter size})^2 / 400 \times (\text{20mm sewer service charge})$

Note: retirement villages are proposed to be charged based on the meter size. All properties identified as retirement villages are required to be registered with Department of Fair Trading via their website: <http://parkspr.fairtrading.nsw.gov.au/RetirementVillage.aspx>.

The expected total yield in 2019-20 from sewerage supply service charge is \$79,143,000.

Sewerage Usage Charges

There is no sewer usage charge payable by residential properties.

For non-residential properties, a discharge factor based on the type of premises is applied to the assessed volume of water purchased from Council to determine the volume discharged to the sewerage system.

Sewage discharged into the sewerage network will be charged at \$0.41 per kilolitre.

The expected total yield in 2019-20 from this charge is \$1,433,000.

Recycled Water

Supply of reticulated tertiary treated sewerage effluent, except when covered by an individual agreement, will be charged at 50% of the potable water supply charge. This charge is \$1.13 per kilolitre for the 2019/20 financial year. The charges will be updated as per IPART's final pricing determination.

Drainage Service Charges

This charge is levied by Council for the provision of drainage services, and covers the cost of maintaining the drainage network.

Currently there are two designated Drainage Areas in place under the *Water Management Act 2000*. The former Gosford drainage area covered the entire former Gosford LGA (refer to Map 16), while the drainage area for the former Wyong LGA included all properties within 1.5km and/or east of the M1 (refer to Map 17).

To enable the proposed change, Council will need to apply to the NSW Minister for Water to have the entire Central Coast LGA declared a Drainage Area under the *Water Management Act 2000* (refer to Map 18). Until this time, the drainage areas for both former LGAs will remain in place.

Basis of Charge	Annual Charge
Residential	
Houses	\$113.43
Strata/flat/multi premise	\$85.07
Non Residential	
Low impact	\$113.43
Small (<1,000m ²)	\$113.43
Medium (1,001 - 10,000m ²)	\$283.58
Large (10,001 - 45,000m ²)	\$1,758.17
Very Large (>45,000m ²)	\$5,558.08

The residential drainage service charge above applies to retirement villages

The expected total yield in 2019-20 from this charge is \$17,813,000.

Pension Rebates - Water and Sewerage Service Charges

Council provides a reduction of 50% of the water supply service and water usage charges levied up to a maximum of \$87.50 and a further reduction of 50% of sewerage service charges levied up to a maximum of \$87.50.

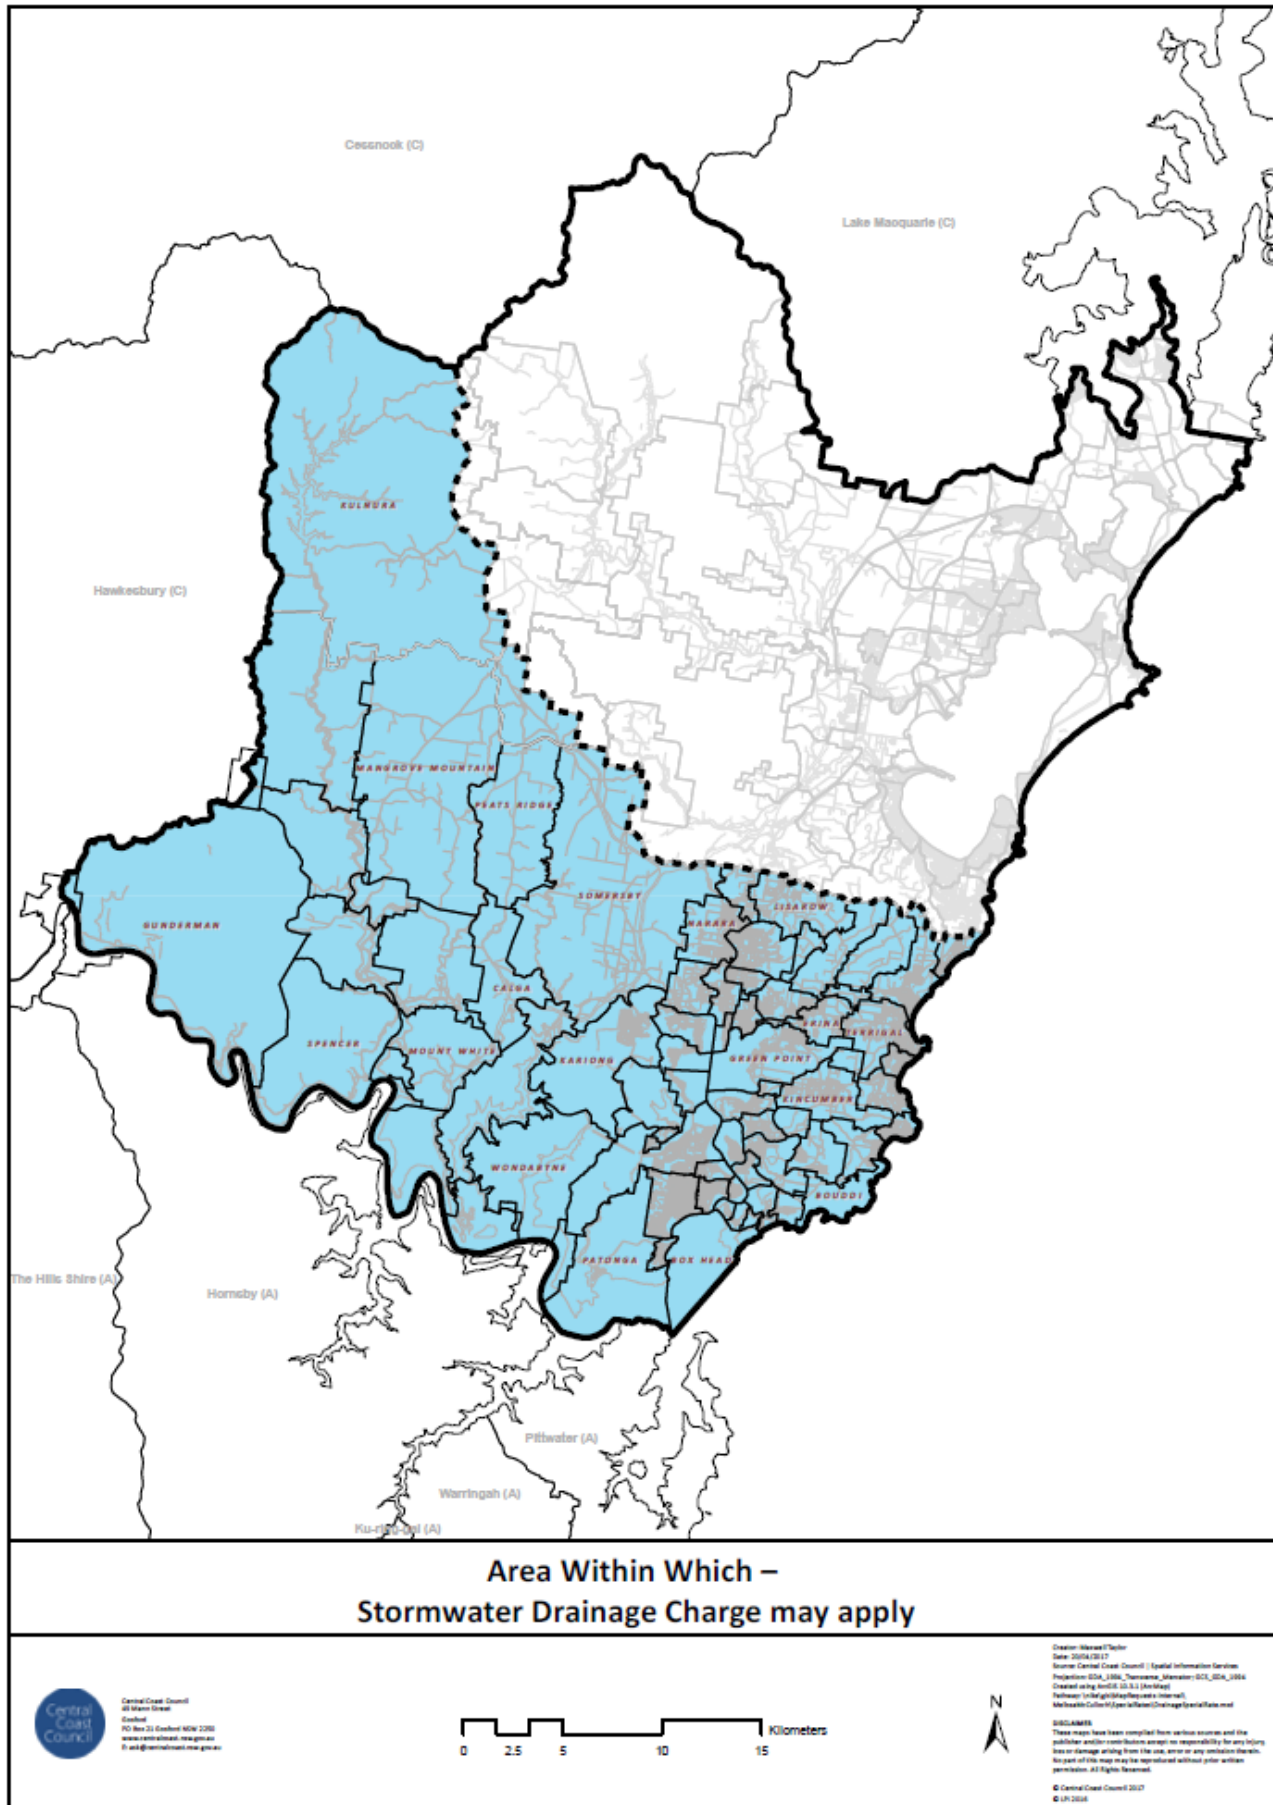

Of these reductions 55% is reimbursed by the NSW Government.

The estimated total amount of the pension rebate in 2019-20 is \$4,659,000.

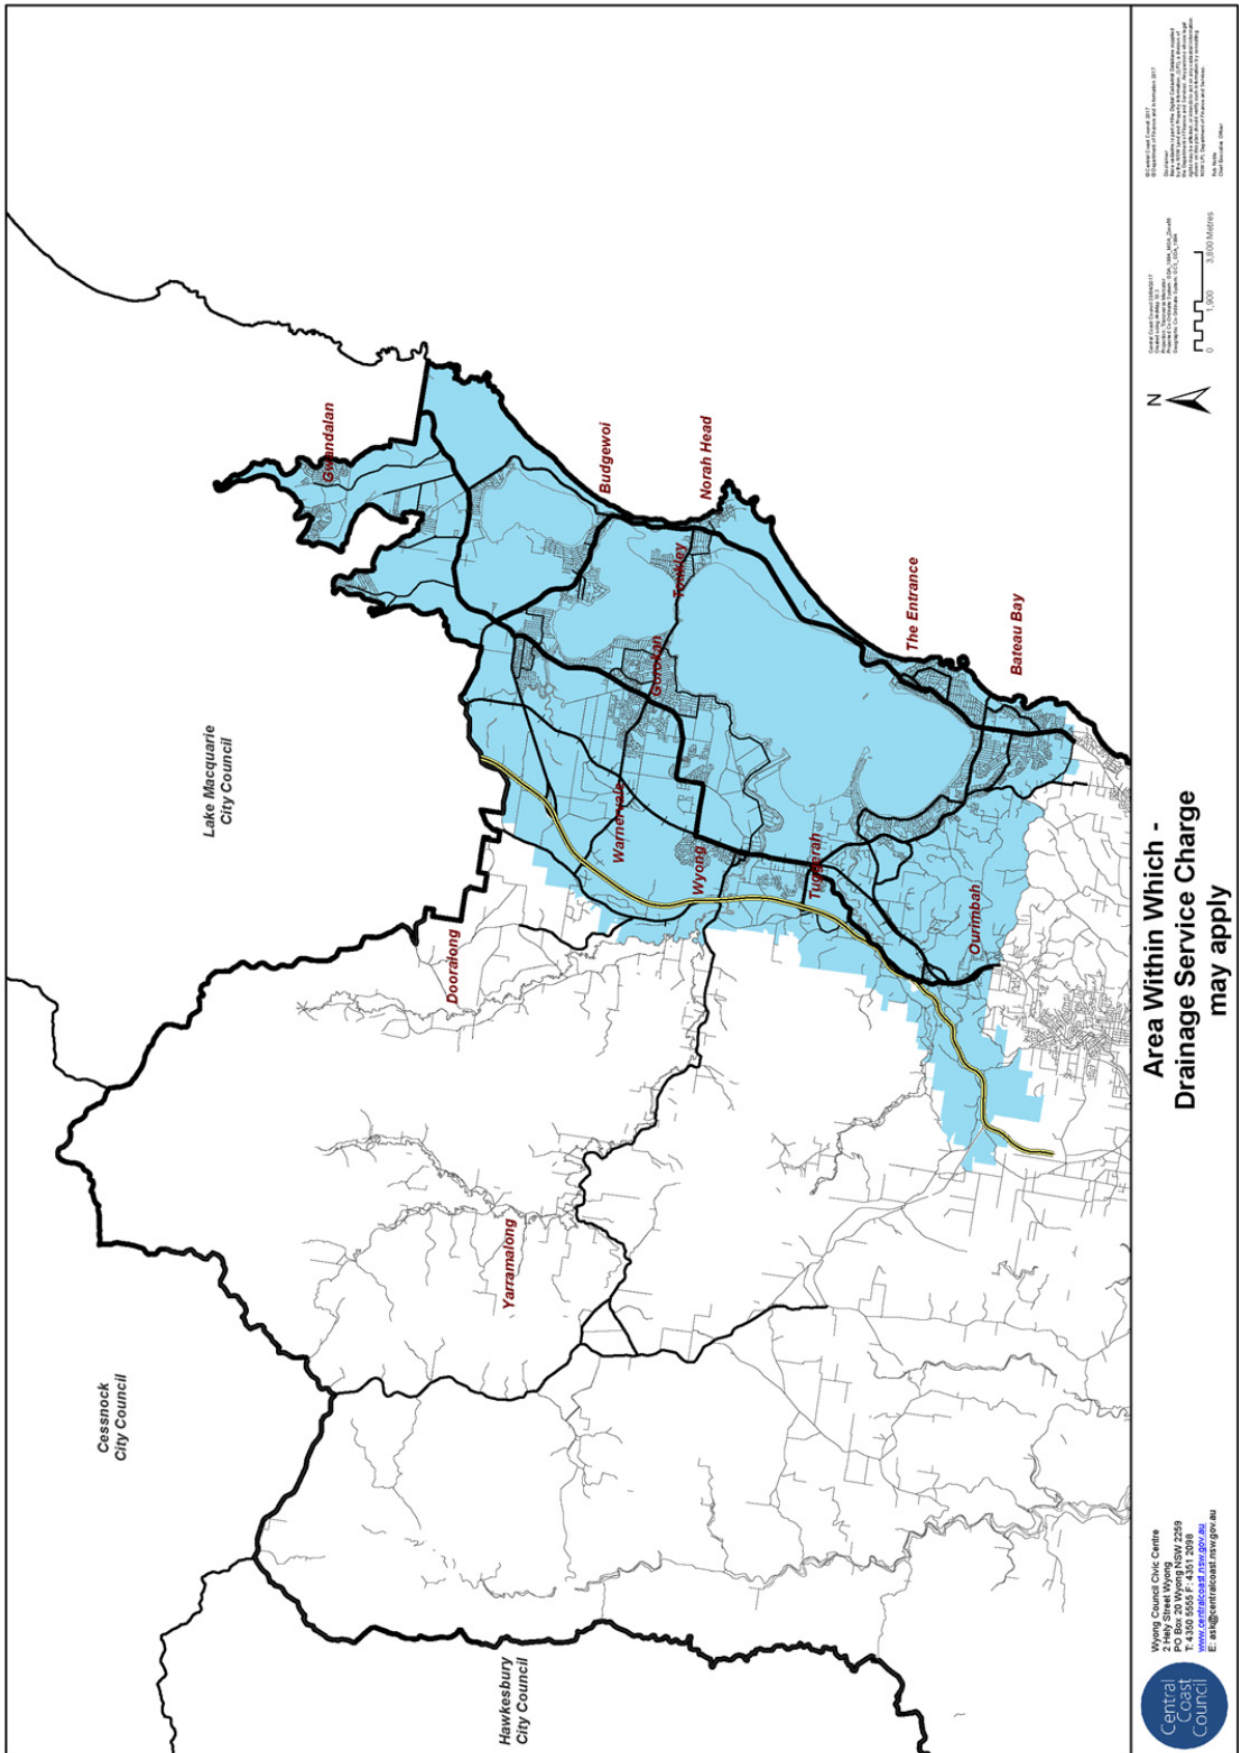

Goods and Services Tax

Good and Service Tax (GST) does not apply to Council's annual rates and charges. GST does however apply to certain fees as indicated in the schedule of fees and charges pursuant to a new *A New Tax System (Goods and Services Tax) Act 1999*.

Liquid Trade Waste Charges

Liquid trade waste means all liquid waste other than sewage of domestic nature. Liquid trade waste charges categories and charging components are as follows:

Liquid Trade Waste Discharge Category	Application Fee	Annual Trade Waste Fee	Reinspection Fee	Liquid Trade Waste Usage charge / kl	Excess Mass charges / kg	Non-compliant Excess Mass charges / kg
Category 1						
Dischargers conducting an activity deemed by Council as requiring nil or minimal pre-treatment equipment, whose effluent is well defined and low risk to the sewerage system. Volume of discharge is low. Also included are activities with prescribed pre-treatment but low risk.						
	\$97.62	\$102.56	\$113.07	No charge	No charge	No charge
Category 2						
Dischargers conducting an activity deemed by Council to require a prescribed type of pre-treatment equipment and whose effluent is well characterised. Volume of discharge is up to 20 KL per day.						
	\$123.58	\$354.34	\$113.07	Compliant \$1.79 / KL Non-compliant \$15.30 / KL	No charge	No charge
Category 3						
Dischargers conducting an activity which is of an industrial nature and/or which results in discharge of large volumes (over 20 KL/day) of liquid trade waste to the sewerage system.						
	\$2,225.77	\$1,369.70	\$113.07	No charge	Refer attached Schedule of Fees	Refer attached Schedule of Fees
Category S						
Dischargers conducting an activity of transporting and/or discharging septic tank waste, pan waste and ship to shore pump-outs into the sewerage system. This is charged to non-residential private pumping stations only – in accordance with attached Schedule of Fees						
	Non-residential \$169.91 Includes one inspection	Non-residential \$169.91	\$113.07	Category S \$17.96 / KL Category S (Septic effluent unable to discharge onsite) \$1.79 / KL	No charge	Charged to private pumping stations only – in accordance with attached Schedule of Fees

In addition to the substances listed above, excess mass charges will apply per kilogram of waste discharged in excess of the Liquid Trade Waste Policy Acceptance Limits. Non-compliant excess mass charges will apply for trade waste discharged in excess of the Liquid Trade Waste Approval Limit. The nominated charges are applied in accordance with the formulas contained in Council's Liquid Trade Waste Policy.

The estimated total yield in 2019-20 from trade waste charges is \$2,682,000.

It should be noted that Trade Waste Charges apply in addition to sewer service charges.

Interest on Overdue Rates and Charges

In accordance with s. 566 of the *Local Government Act 1993* and s. 356 of the *Water Management Act 2000* Council charges interest on all rates and charges which remain unpaid after they become due and payable. Interest will be calculated on a daily basis using the simple interest method.

Council will apply the lower of the maximum interest rates applicable to either overdue rates and charges levied under the *Local Government Act 1993* or overdue charges levied under the *Water Management Act 2000*.

The due dates for payment of rates and charges levied under the *Local Government Act 1993* are as follows:

- If payment is made in a single instalment, the instalment is payable by 31 August 2019
- If payment is made by quarterly instalments, the instalments are payable by 31 August 2019, 30 November 2019, 29 February 2020 and 31 May 2020
- The due date for payment of water, sewerage and drainage services charges and usage charges, is a minimum of 30 days after issue date.

In accordance with s. 566(3) of the *Local Government Act 1993*, the Minister for Local Government has determined that the maximum rate of interest payable on overdue rates and charges levied under the *Local Government Act 1993* for the 2019-20 rating year will be 7.5%.

The methodology used to calculate the interest rate is the Supreme Court methodology (the Reserve Bank cash rate plus 6%), rounded to the nearest half per cent. The current Reserve Bank cash rate of 1.5% has been effective since 3 August 2016.

In accordance with s. 356 of the *Water Management Act 2000*, the maximum rate of interest payable on overdue rates and charges levied under the *Water Management Act 2000* is the rate payable for the time being on an unpaid judgment of the Supreme Court.

- In respect of the period from 1 January to 30 June in any year – the rate that is 6% above the cash rate last published by the Reserve Bank of Australia before that period commenced
- In respect of the period from 1 July to 31 December in any year – the rate that is 6% above the cash rate last published by the Reserve Bank of Australia before that period commenced.

The current Reserve Bank cash rate of 1.5% has been effective since 3 August 2016 means that the maximum rate of interest payable on overdue rates and charges levied under the *Water Management Act 2000*, from 1 July 2019 will be 7.5%.

Developer Contributions

How Developer Contributions are levied

Developer contributions for water and sewerage services are levied under the *Water Management Act 2000* and in accordance with the methodology developed by the Independent Pricing and Regulatory Tribunal (IPART).

The various contributions are contained in Council's Development Servicing Plans which are available for inspection at Council's offices or via Council's website.

Other Developer Contributions are levied in accordance with s. 7.11 of the *Environmental Planning and Assessment Act 1979*. The various contribution rates are listed in the s. 7.11 plans available for inspection at Council's offices or via Council's website.

Works on Private Land

Charges for Works on Private Land

In accordance with s. 67(1) of the *Local Government Act 1993* Council may lawfully, by agreement with the owner or occupier of any private land, carry out any kind of work on that land.

The rates to be adopted by Council are set to recover the estimated cost to Council in providing the works on private land. The amounts to be charged for private works are set out in the attached Schedule of Fees in accordance with the type of works conducted by Council as indicated below:

- Septic and sewer connection inspections and applications
- Water service connections and applications
- Footpath reinstatement
- Construction – kerb, guttering and foot paving
- Vehicle crossings
- Concrete work – supervision, design, etc.
- Kerb and gutter – supervision, design, etc.
- Road reinstatement
- Road testing

For all other works a minimum charge for the use of Council labour, plant or materials on private land is charged equal to the actual cost (including overheads) plus 10%.

The Chief Executive Officer has the authority to set the fee for works to be undertaken by Council on private land, using Council labour, plant or materials, having regard to market forces in each instance, on condition that no such charge shall be less than the actual cost to Council (including overheads) plus 10%.

Statement of Proposed Borrowing

Proposed Borrowing for 2019-20

It is Council policy to borrow to fund capital projects that have a life expectancy beyond the term for repayment of the loan in order to establish intergenerational equity if there is not sufficient working capital available. All loans are secured over the income of the Council. In 2019-20 Council does not expect to require borrowings from external financial institutions to fund capital projects. Council will continue to evaluate how it can reutilise funds on hand, by way of internal loans and subject to restriction constraints, rather than seek external finance. The exception will be situations where it is advantageous for Council to borrow e.g. where the borrowing cost is subsidised by the State or Federal Governments.

FEEES AND CHARGES

Fees and Charges

Fees and Charges for 2019-20

In accordance with s. 608 of the *Local Government Act 1993* Council may charge and recover an approved fee for any service it provides other than a service provided, or proposed to be provided, on an annual basis for which it may make an annual charge under s. 501 of the *Local Government Act 1993*.

A list of the fees to be charged by Council for the 2019-20 - financial year is set out in the attached Schedule of Fees.

Each fee within the Schedule of Fees has been determined using one of five pricing policies (as per the table below). The pricing policy used as the basis for determining each fee within the Schedule is disclosed in the Schedule of Fees.

Categories of Pricing Policies in Respect of the Advertised Schedule of Fees

Code	Category Description
1	Price charged for this good/service is a statutory charge set by regulation.
2	Price charged for this good/service reflects benchmarked market price. Full cost of providing the goods/services including direct and corporate overheads and margin.
3	Price charged for this good/service reflects full costs to provide the goods/services. Full cost of providing the goods/services including direct and corporate overheads.
4	Price charged for this good/service reflects direct costs to provide the goods/services. Full cost of providing the goods/services including direct overheads.
5	The price of this good/service is set at a level to make a contribution towards the cost of providing the service. With the remainder of the costs being subsidised by Council in the provision of this service.

The fees shown in the Schedule of Fees are determined after allowing for the normal inflationary growth in the cost of providing these services. However, where the fee is based on the costs of providing the service, and those costs increased extraordinarily during the year, Council reserves the right to amend the fees to recover the cost increase.

Fees levied under Category 1 are not at the discretion of Council and are subject to amendment in accordance with changes to the applicable legislation. This includes any changes to the application of GST.

Some of Council's Fees and Charges have been calculated to pass through any applicable levies or taxes from NSW State Government (for example the EPA levy on certain waste types). Fees and Charges for 2019-20 - have been set based on the estimated levy applicable.. Should these levies or taxes be amended after the adoption of the 2019-20 Fees and Charges Council may need to update those impacted fees and charges.

The fees and charges for building certification services have been prepared on the basis that the total cost of providing the service have been identified, including on-costs and overheads, and that there is no subsidy from Councils general purpose revenue. Costing systems are in place to ensure the on-going accuracy of actual income and expenditure compared to budget.

The Chief Executive Officer has the authority to waive or amend fees and charges for reasonable grounds provided in writing.

26-10011	Category S - Non-Residential	Per year	1	\$169.91	-	\$0.00	\$169.91	
26-10012	Re-inspection fee - Where non-compliance has been detected Council will undertake additional inspections (over and above scheduled inspections allowed for in the Annual Trade Waste Fee) to confirm that remedial action has been implemented. A charge will be made for each additional inspection.	Per re-inspection	1	\$113.07	-	\$0.00	\$113.07	
26-10013	Trade Waste Usage Charge - Category 2 The Trade Waste Usage Charge recovers the cost incurred by Council to provide additional treatment for effluent from Category 2 dischargers. The per kilolitre unit charge will vary according to whether or not a level of compliant pre treatment is provided by the discharger.							
26-10014	Where compliant pre-treatment equipment is provided	Per kilolitre	1	\$1.79	-	\$0.00	\$1.79	
26-10015	Where non-compliant pre-treatment equipment is provided	Per kilolitre	1	\$15.30	-	\$0.00	\$15.30	
26-10016	Trade Waste Usage Charge - Category S (Septage and Septic Effluent) This fee recovers the cost incurred by Council in accepting (at Council treatment plants) and treating septic and chemical toilet waste and other effluent wastewater from licenced contractors. The fee is applied on a 'per kilolitre' basis.							
26-10017	Accept and treat septage and septic effluent	Per kilolitre	1	\$17.96	-	\$0.00	\$17.96	
26-10018	Septic effluent unable to discharge onsite	Per kilolitre	1	\$1.79	-	\$0.00	\$1.79	
26-10019	Trade Waste Excess Mass and Non-Compliant Excess Mass Charges (Category 3) Excess Mass charges are applied where the substances as specified below are discharged in concentrations in excess of that deemed for domestic sewage. Non-Compliant Excess Mass Charges are applied where the substances as specified below are discharged in concentrations in excess of the limit specified in the Council's Liquid Trade Waste Policy. Mass charges will be calculated using a 'per kilogram' rate and determined in accordance with the methodology in Council's Liquid Trade Waste Policy.
