SECTION 1 - GENERAL

INTRODUCTION - WHY DOES THE PLAN EXIST?

The plan has been prepared by Wyong Shire Council under the provisions of the Local Government Act, 1993 which requires Councils to prepare plans of management for all land under Council ownership or control classified as community land.

The use and management of the community land to which this plan applies is regulated by this plan of management. The Local Government Act, 1993 provides that community land is required to be used and managed in accordance with the plan of management.

The plan of management has been written to outline the ways that the land will be used and the objectives for management. It may be used to determine the allocation of priorities for use of resources and funds.

The procedure for the preparation of plans of management involves public exhibition and consultation processes. The final plan has been adopted by the Council. The plan may be amended by a subsequent plan of management.

This generic plan is one of a number of plans of management for community land in Wyong Shire. Other plans apply to specific areas, and generic plans also apply to natural areas and areas of cultural significance. Generic plans are to provide for normal maintenance and to allow minor developments and activities which are unlikely to result in any significant changes or impacts.

Plans of management are available for public inspection and purchase from the Council.

LAND TO WHICH THE PLAN APPLIES

This plan applies to all community land within the Wyong Local Government Area other than that categorised as natural area or land included in a specific Plan of Management. The land covered by this plan is identified in Schedule 1.

CATEGORY OF LAND AND DOMINANT USE

For the purposes of the Local Government Act, 1993 the land is categorised as indicated in Schedule 1. The categories indicate the dominant use.

STRATEGIC PLANNING OBJECTIVES

Wyong Shire Council owns many parcels of community land and seeks to ensure that land is managed in a cost effective way to maximise the community benefits of its use.

The Council's strategic planning objectives for the land to which the plan applies are as follows:

- 1 To provide a distribution of open space and facilities that matches demand and supply as far as possible, consistent with the open space principles outlined in the Council's community plan.
- 2 To provide high quality open space and facilities requiring a minimum of maintenance.
- 3 To prevent land degradation and to minimise physical disturbance to land.
- 4 To provide public access to community land consistent with the adopted use strategy.
- 5 To provide a healthy environment, especially plant communities on the land.
- 6 Scenic protection of ridgelines and foreshores by retaining and replanting with indigenous vegetation that dominates the built form.
- 7 To provide a broad spectrum of safe, high quality recreational opportunities.
- 8 Maintain flexibility of future decision making and to allow changes in community preferences.
- 9 To allow for temporary uses for private functions, provided Council is satisfied that the temporary use does not significantly affect the permanent use of the land.

PLANNING CONTROLS APPLYING

The land to which this plan applies is subject to the provisions of Wyong Local Environmental Plan 1991. Development consent under the Environmental Planning and Assessment Act, 1979 is required for development under the provisions of the Wyong Local Environmental Plan 1991.

Development Control Plans may also apply to the land.

PLAN OF MANAGEMENT OBJECTIVES

The general objectives of the plan are:

- * To ensure that the Act is complied with in relation to plans of management.
- * To inform Council staff and the community of the way the land will be managed.
- * To implement the specific policies, guidelines and works identified in the plan of management.
- * To progressively improve the values of the land and to minimise the long term cost of maintenance to the Council.
- * To make provision for appropriate leases, licences and agreements in respect of the land.
- * To identify and recognise existing uses and improvements on the land.
- * To provide a reference and data bank in relation to information relevant to present and future management of the land.
- * To set in place an administrative structure to ensure the achievement of land management objectives.
- * To identify the major management issues applying to the land.
- * To simplify the process of management as far as possible.

The core objectives for management of community land categorised as a sportsground are:

- * To encourage, promote and facilitate recreational pursuits in the community involving organised and informal sporting activities and games.
- * To ensure that such activities are managed having regard to any adverse impact on nearby residences.

The core objectives for management of community land categorised as a park are:

- * To encourage, promote and facilitate recreational, cultural, social and educational pastimes and activities.
- * To provide for passive recreational activities or pastimes and for the casual playing of games.
- * To improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.

The core objectives for management of community land categorised as general community use are:

- * To promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:
 - In relation to public recreation and the physical, cultural, social and intellectual welfare or development of individual members of the public; and
 - In relation to purposes for which a lease, licence or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities).

The core objectives for management of community land categorised as a natural area are:

- * To conserve biodiversity and maintain ecosystem function in respect of the land, or the feature or habitat in respect of which the land is categorised as a natural area.
- * To maintain the land, or that feature or habitat, in its natural state and setting.
- * To provide for the restoration and regeneration of the land.
- * To provide for community use of and access to the land in such a manner as will minimise and mitigate any disturbance caused by human intrusion.
- * To assist in and facilitate the implementation of any provisions restricting the use and management of the land that are set out in a recovery plan or threat abatement plan prepared under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994.

MANAGEMENT AUTHORITY

For the purposes of this plan, the management authority is Wyong Shire Council, in accordance with the provisions of the Local Government Act 1993.

The Council's responsibilities for management of land may be delegated to and undertaken by a Section 355 Committee, trusteeship, or other authorised persons or organisations. Where the Council's responsibilities have been delegated, the provisions of this management plan continue to apply.

MANAGEMENT ISSUES

The management of the land must take into account the dominant use and the purpose for which the land is classified as community land and the following matters:

- * Recreation Activities
- * Buildings and Amenities
- * Infrastructure
- * Access and Occupation
- * Development Activities
- * Pollution Control
- * Trees, Vegetation and Landscape
- * Beaches and Foreshores
- * Information, Monitoring and Research
- * Administration
- * General Issues
- * Sportsgrounds
- * Parks and Playgrounds

SECTION 2 - MANAGEMENT GUIDELINES

ACCEPTABLE ACTIVITIES AND USES

This plan of management authorises activities, including and directly associated with the dominant use of the land, provided that the associated activities do not compromise the identified dominant use of the land.

Uses and activities not specifically authorised under this plan may be carried out where development consent has been obtained for the use or activity under the Environmental Planning and Assessment Act 1979.

MANAGEMENT POLICIES AND GUIDELINES

The management policies and guidelines applying to the land are outlined in this section of the plan. The general guidelines apply to all the land, and specific guidelines apply for the different types of categories of land, namely sportsgrounds, parks and playgrounds, and general community use. Common general principles apply to the management of all categories of land but may not apply in all specific situations.

Some matters are subject to additional adopted policies and procedures manuals and these are to apply where appropriate. A list of procedures manuals is attached to the plan.

General management policies and issues are grouped in terms of their general subject and are as follows:

1 Recreation Activities

The main value of the land is for recreational purposes, both active and passive. As far as possible, a high standard of facilities will be provided to meet community needs for recreational facilities.

Domestic Pets

Domestic pets may use the land, provided that they are under the control of a responsible person at all times, and do not cause a loss of amenity to other users of the land, except where specifically publicly notified. Dogs must be registered and leashed.

Motor Sport Areas

No areas are identified as motor sport areas. Any land to be used for motor sports requires the preparation of a specific plan of management.

Golf Courses

This plan does not authorise the provision of golf courses on any land to which this plan applies, except the Wyong Golf Course. Any use of land to which this plan applies for the purpose of a golf course shall require the preparation of a specific plan of management.

Tennis and Netball Courts

This plan does not authorise the provision of additional tennis or netball courts on any land to which this plan applies. Additional facilities shall require the preparation and adoption of a master plan for the site.

Skateboard Areas

Skateboard areas may be provided where the activity does not adversely affect amenity of adjoining landowners

2 Buildings and Amenities

Buildings and amenities may be provided where consistent with the need to facilitate the recreational use of the land. Buildings and amenities are to be maintained to the highest possible standard.

Public Toilets and Amenities

Where appropriate, public toilets and amenities shall be provided and maintained at playing fields and ovals.

Play Equipment and Recreation Equipment

Play equipment shall be constructed and maintained in accordance with the relevant Australian Standard, and may be replaced or removed as required.

Outdoor Furniture (seats, bubblers, barbecues etc.)

Outdoor furniture shall be provided as required and maintained to a safe standard in accordance with any adopted landscape design.

Private Buildings

Private buildings may be constructed only where there is a lease from the Council and that lease specifically makes provision for the use or erection of a private building. Private buildings shall be fully maintained by the user.

Public Buildings

Public buildings may be constructed for any purpose ancillary to the dominant use of the land or any other activity authorised under this plan. Community facilities may also be permitted.

Removal of Buildings or Utilities

Buildings or utilities on the land may be removed by the Council where these are no longer required. The land is to be rehabilitated following removal.

Swimming Pools

Swimming pools may be established or maintained where this is in accordance with a master plan prepared and adopted by the Council. Swimming pools shall be supervised at all times when open and maintained in a good condition to comply with all necessary legislation and requirements.

Mowing

Mowing shall be regularly undertaken as required in accordance with any adopted Council procedures manual.

Cleaning

Buildings and amenities will be regularly cleaned and maintained in a tidy condition in accordance with any adopted Council procedures manual.

Reseeding or Turfing

In areas of concentrated use reseeded or turfing may be undertaken as required.

3 Infrastructure

Any necessary infrastructure to service the recreational use of the land may be constructed.

Services and Utilities

Services and utilities (such as water supply, sewerage, electricity supply, gas and telecommunications) may be constructed, maintained or repaired on the land.

Maintenance

Maintenance will match the level and type of use, and wherever possible, users will be encouraged to help. Areas held under lease, licence or regular occupancy shall be maintained by the regular occupant. Existing assets on the land shall be identified and measures taken to maintain them in a satisfactory manner. The Council may make arrangements for community groups to undertake maintenance for specific facilities on the Council's behalf.

Lighting

Where appropriate, adequate lighting shall be provided on the land to ensure public safety and security for buildings and amenities as far as possible.

Floodlighting

Floodlighting shall be designed and operated to minimise the glare and spillage of light to adjoining properties. Where possible, floodlighting should comply with AS2560.

Fences

Fences may be constructed and shall be in accordance with any standards or guidelines adopted by the Council. Normally, as provided for in the Dividing Fences Act, boundary fences are the responsibility of adjoining owners to construct and maintain and Council does not contribute to fencing boundaries to private land.

Signs

Signs may be erected on the land in accordance with the Council's Sign Code and any adopted sign manual.

4 Access and Occupation

The plan seeks to facilitate access to the land to enable its use for recreational purposes.

Access

Access to the land may be limited by the Council at times where this may interfere with works or may have an adverse effect on the land.

Roads and Parking

Roads and parking areas may be constructed or reconstructed to a safe and all-weather standard. New roads and parking areas may be constructed. In cases where significant new roadworks are proposed, a master plan should be prepared for the individual parcel of land and the works constructed in accordance with that plan.

Cycleways

Where a cycleway has been identified as being located on the land, the cycleway shall be constructed and maintained in accordance with any adopted Council plans and guidelines.

5 Development Activities

Development activities shall be undertaken in a way that minimises the area, degree and duration of disturbance, and areas are to be restored to the greatest extent practicable.

Construction Works

Progressive site stabilisation and restoration shall be undertaken during the construction process.

Stockpiling of Materials

Works are to be completed in stages (clearing, topsoil stripping, relocation of topsoil, mulching, planting, etc) and shall follow the principle of isolating stockpiles of different materials to prevent contamination. Materials and soil may be stockpiled but only on a temporary basis, and provided that measures are taken to prevent adverse affects such as soil erosion, introduction of weed species, soil compaction, and the like. Stockpiles are to be more than 5 metres from trees.

Nutrients Leached from Building Materials

Materials (including concrete, gravel, topsoil, etc) shall be stockpiled in such a way as to prevent nutrients from leaching into watercourses or into groundwater systems.

Protection of Trees

Trees to be protected shall be identified prior to construction and marked appropriately. Measures are to be taken to prevent damage and disturbance to tree roots by cutting of roots, loss of water, soil compaction or build up of soil. Clearing works are to be in accordance with any additional procedures manuals or adopted policies.

New Development Works

New development works (such as construction of roads, parking areas, cycleways, etc) may be undertaken where the works are consistent with the objectives of this plan, and where any necessary approvals have been obtained under the Environmental Planning and Assessment Act 1979 or the Local Government Act 1993.

Filling

As far as possible, no fill should be deposited on the land unless it comes from the same area of parkland and adequate measures are taken to stabilise the fill. Works are to be in accordance with any additional procedures manuals or adopted policies.

Soil Compaction

Measures shall be taken to avoid soil compaction arising from construction works and earthworks. Any compaction will be relieved by appropriate methods which may include the use of soil aeration equipment as necessary.

6 Pollution Control

Management should seek to ensure that no pollution is generated on the land, and that adequate measures are taken to prevent adverse impacts from adjoining land.

Soil Erosion and Sedimentation

All activities are to ensure adequate controls to prevent soil erosion and sedimentation and are to be inspected periodically.

Nutrients

Measures shall be taken to minimise and to control nutrients entering watercourses, water bodies or groundwater.

Environment Protection (noise control, dust, chemicals, etc)

Measures shall be taken during any construction or maintenance works on the land to ensure that normal environmental protection, pollution control and health guidelines are complied with.

Litter

Litter shall be regularly collected and removed. Provision shall be made for the provision of litter bins at all playing fields and ovals. It is the responsibility of all users to ensure that fields and surrounds are left in a tidy manner after use.

Rubbish Dumping

Rubbish dumping is not permitted. Any lawn clippings or garden cuttings are to be disposed of in a manner that does not affect natural vegetation, or encourage the spread of weeds.

Irrigation

Irrigation is to be minimised on any lawns or mowed areas to avoid runoff and a raised water table.

Watercourses

Natural hydrological processes are to be maintained where possible, including natural vegetation and the flow regimes to maintain creek line stability and health of terrestrial and aquatic plant communities.

Noise from Sporting Events

Noise from sporting events shall be required to comply with normal noise pollution control requirements.

Drainage (eg. requirements, detention basins)

Drainage works are allowed on the land to which this plan applies. Any works within defined watercourses are to be minimised, and are to comply with any environmental management guidelines adopted by the Council to minimise the flow of nutrients and pollutants into watercourses.

Fertilisers and Pesticides

The use of fertilisers and pesticides may be permitted on land to which this plan applies, but only where no suitable alternatives exist and an environmental assessment demonstrates that no adverse environmental impact is likely to occur. New landscape designs are to minimise the need for these.

Removal of Silt

Silt shall be removed from drains and silt traps as necessary.

Acid Sulphate Soils

Disturbance to acid sulphate soils causes degradation of lowland environments and estuarine water quality. These are soils with layers rich in iron sulphides which oxidise to sulphuric acid when these previously waterlogged soils are drained or excavated. They are generally associated with estuarine swamps and should preferably be left undisturbed.

7 Trees and Vegetation and Landscape

Proper management of landscaping measures, trees and vegetation is important to provide a high degree of amenity on the land.

Trees

Trees will be maintained, as will maintenance of appropriate growing conditions involving management of soil compaction and other encroachments. Trees are to be regarded as a capital asset requiring appropriate maintenance.

Weed Control

Weed control shall be by both taking preventative measures and active control measures. Prevention of weed infestation shall be by minimising actions that disturb the ground surface and discouraging the conditions which encourage weeds. Measures shall be taken to prevent the dispersion of weeds by fill or the transport of seeds on machinery. Active control measures which are acceptable include physical removal or slashing, accepted biological control techniques, bush regeneration, or chemical spraying where the Council is satisfied that there will be no adverse residual effects and no adverse effect on human health will occur.

Tree Planting and Removal

Trees may be planted, removed or replaced. In replacing trees, regard will be had to endorsed plans and any adopted policies outlining preferred species. Tree planting, maintenance, removal and replacement shall be in accordance with adopted standards, codes, manuals or policies.

Tree Protection

Appropriate protection such as guards and barriers shall generally be provided for all new plantings as may be required.

Landscape Design

Landscape design will be in accordance with any design guidelines adopted by the Council.

Gardens

Gardens may be constructed and maintained on the land.

8 Beaches and Foreshores

Beaches and foreshores are an important recreational resource in Wyong Shire and require careful management

Beaches

Beaches shall be regularly inspected, and litter removed.

Lifeguards

On ocean beaches lifeguards may be provided as required.

Beach Restoration

Beach restoration may be undertaken where there has been erosion of beaches and foreshores, but shall take into account the cause of the erosion. As far as possible, any remedial actions are to provide long term solutions.

Jetties

New jetties and access to them shall only be provided in accordance with a master plan prepared and adopted by the Council.

Removal of Sea Weed

Unless a public safety or health hazard exists, sea weed (wrack) shall not be removed from beaches or foreshores.

9 Information, Monitoring and Research

Monitoring and collection of information relating to the land to which the plan applies are important to enable good management.

Education and Research

Where a demonstrated need has been identified, an educational programme shall be developed to encourage appropriate recreational use of all or part of the land to which this plan applies.

Monitoring

Management arrangements shall be implemented to regularly monitor the usage of the land, environmental conditions and facilities.

Surveys

Surveys of visitation and/or satisfaction with recreational facilities may be undertaken to facilitate the management and use of the land.

10 Administration

Administrative issues have an important influence on the way in which the land is managed.

Staff Resources

The Council shall seek to provide adequate staff resources for the management of the land in accordance with this plan. Staff shall have appropriate qualifications and/or experience.

Environmental Impact Assessment of Activities

The environmental impact of activities carried out on the land will be assessed having regard to the requirements under Part V of the Environmental Planning and Assessment Act 1979.

Role of Other Authorities (eg. Dept Land and Water Conservation)

Other government authorities may have responsibilities or involvement in the management of the land or of immediately adjacent land. This will be taken into account, and where appropriate, consultation will take place with relevant authorities.

Activities Carried Out by Other Authorities

Where activities are carried out on the land by other authorities, the Council will make such authorities aware of the provisions of this plan and as far as possible shall seek to ensure that any activities are compatible with the objectives and guidelines of this plan.

Community Involvement in Management

Where appropriate, the Council may undertake community consultation subsequent to the making of this plan and may give community groups a role in management.

Contract and Volunteer Labour

In managing the land the Council may use contract and volunteer labour but shall ensure that supervisors have appropriate qualifications and/or experience, and are made aware of the requirements of this plan.

Delegation of Management Responsibilities

Where management responsibilities are delegated by the Council a requirement of the delegation shall be that the provisions of this plan of management are complied with.

Leasing

The plan authorises the Council to lease land to which this plan applies for a purpose for which the land was being used at the date of commencement of the plan, or for any other purpose which is specifically allowed under the terms of this management plan. Any leases are to be in accordance with the provisions of the Local Government Act 1993.

Easements

The Council may grant easements for the provision of services over, or on land to which this plan applies.

11 General Issues*Landscape Design*

In any works being undertaken, the Council will seek to ensure a high standard of landscape design.

Maintenance

Existing assets on the land shall be identified and measures taken to maintain them in a satisfactory manner. The Council may make arrangements for community groups to undertake maintenance for specific facilities on the Council's behalf.

Temporary Uses

The Council may allow temporary use of any of the land to which this plan applies up to a maximum continuous period of one month in any calendar year, provided it is satisfied that the use does not significantly adversely affect the permanent uses of the land and conforms to the objectives of this plan. In allowing such a temporary use, the Council will have regard to the environmental impact of the use, as provided for in the Environmental Planning and Assessment Act, 1979.

Public Access

Public access to land to which this plan applies can be denied to assist rehabilitation or protection of special items of significance or where a lease has been granted, but shall not otherwise be denied.

Energy Efficiency

Measures shall be taken to improve the energy efficiency of all buildings and activities carried out on the land to which this plan applies. Measures shall include use of energy efficient lighting, periodic auditing of energy use, and appropriate orientation of any new buildings to incorporate passive solar design principles.

Neighbours

The Council shall endeavour to be a good neighbour, and as far as possible shall consult with adjoining owners in respect of management activities which may affect them.

Public Liability

The Council will maintain public liability insurance for the land to which the plan applies.

Public Safety

Reasonable measures will be taken by the Council to ensure and maintain the public safety of persons using the land.

Commercial Activities (eg. selling food and drinks)

Commercial activities may be carried out on the land to which this plan applies, provided that such use is ancillary to the use of land for a purpose authorised under this plan, and subject to prior Council consent.

Emergencies

This plan authorises any necessary activities to be carried out during declared emergencies as may be decided by the General Manager. Following the carrying out of any activities, periodic monitoring will be undertaken, and rehabilitation works undertaken if necessary.

Bushfire Hazard Reduction

Where a bushfire hazard is identified on land to which this plan applies, measures shall be taken to reduce the bushfire hazard on the land.

Occupation by Adjoining Land Owners

Where the Council is aware of occupation or encroachment by private landowners onto land to which this plan applies, measures will be taken to prevent this occurring.

Land Proposed for Future Development

Land proposed in the Council's community plan for future development for a specific purpose may be utilised for other purposes on an interim basis until required for that purpose.

User Charges

Subject to any provisions in the Local Government Act 1993 user charges for the use of facilities may be imposed by the Council.

Undeveloped Areas

Land to which this plan applies that is undeveloped and unused for recreational purposes may be used for any activity that does not prevent or inhibit its future recreational use, including tree planting, grazing, and mowing. Construction work or filling of the land is not authorised by this plan unless as part of an adopted master plan.

12 Sportsgrounds (Specific Guidelines)

The following specific guidelines apply only to land classified as sportsgrounds.

Mowing

Playing fields and ovals will be mowed in accordance with approved manuals or schedules as required.

Line Marking

Line marking may be undertaken, but will normally be the responsibility of users after the initial line marking by Council.

Erection of Posts

The erection of posts on playing fields is allowed by this plan and is the responsibility of the users.

Watering

Watering of playing fields and ovals shall be undertaken as required.

Wet Weather Use

During periods of wet weather, the Council may restrict use of playing fields and ovals to prevent damage to grass surfaces.

Hours of Operation

The Council may restrict the hours of operation of any playing field at its discretion.

13 Parks and Playgrounds (Specific Guidelines)

The following specific guidelines apply only to land classified as parks and playgrounds.

Boat Ramps

Boat ramps are to be regularly inspected and maintained, and may be upgraded. New boat ramps may only be constructed where a master plan has been prepared and adopted by Council.

Camping Areas

Camping areas may be permitted and shall have adequate arrangements for sewerage and waste disposal.

Caravan Parks

Caravan parks require development consent under the Environmental Planning and Assessment Act 1979 but are generally not a suitable use of community land.

Play Equipment and Recreation Equipment

Play equipment may be installed or removed. Equipment shall be regularly maintained and kept in a safe condition in accordance with the relevant Australian Standard.

SECTION 3 - IMPLEMENTATION

HOW TO APPLY THE MANAGEMENT POLICIES AND GUIDELINES

The management policies and guidelines outlined in this plan must be taken into consideration in making decisions on management of the subject land.

ACTION PLAN

This plan specifies performance targets and priorities for actions to be taken in relation to the land to which the plan applies.

Assessment of the achievement of the objectives of the plan is to be undertaken. A summary of indicators and targets for major objectives is outlined in the table below:

Objectives and Performance Targets of the Plan with respect to the Land	Means by which the Council proposes to achieve the Plan's Objectives and Performance Targets	Manner in which the Council proposes to assess its Performance with respect to the Plan's Objectives and Performance Targets
General Objectives		
To ensure that the Act is complied with in relation to preparation of Plans of Management.	The Plan is prepared in accordance with the Act	The Plan is exhibited and adopted by Council
To inform Council staff and the community of the way the land will be managed.	The Plan is exhibited in accordance with the Act	The Plan is exhibited and adopted by Council
To progressively improve the values of the land and to minimise the long term cost of maintenance to the Council.	Carry out all works identified in the master plan	All works are completed and minimal maintenance of the improvements is required
To make provision for leases, licences and agreements in respect of the land.	The Plan of Management authorises the provision of leases etc. where appropriate	Any leases are prepared, exhibited and adopted in accordance with the provisions of the Local Government Act
To identify and recognise existing uses and improvements on the land.	Physical inspection	The Plan is exhibited and adopted by Council
To provide a reference and data bank in relation to information relevant to present and future management of the land.	Physical inspection and file research	The Plan is exhibited and adopted by Council
To set in place an administrative structure to ensure the achievement of land management objectives.	Ensure that all sections of Council are aware of the contents of the Plan	All future works are carried out in accordance with the Plan
To identify the major management issues applying to the land.	Consultation and staff discussions	The Plan is exhibited and adopted by Council
To simplify the process of management as far as possible.	Preparation of the Plan in accordance with the Act	The Plan is exhibited and adopted by Council

Objectives and Performance Targets of the Plan with respect to the Land	Means by which the Council proposes to achieve the Plan's Objectives and Performance Targets	Manner in which the Council proposes to assess its Performance with respect to the Plan's Objectives and Performance Targets
Sportsground Objectives		
To encourage, promote and facilitate recreational pursuits in the community involving organised and informal sporting activities and games.	The land is developed in accordance with this plan and the master plan.	All works are completed and minimal negative feedback is received.
To ensure that such activities are managed having regard to any adverse impact on nearby residences.	The land is developed in accordance with this plan and the master plan.	All works are completed and minimal negative feedback is received.
Park Objectives		
To encourage, promote and facilitate recreational, cultural, social and educational past times and activities	Development of the reserves in accordance with the master plan	All works are completed and minimal negative feedback is received
To provide for passive recreational activities or past times and for the casual playing of games	Development of the reserves in accordance with the master plan	All works are completed and minimal negative feedback is received
To improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.	Development of the reserves in accordance with the master plan	All works are completed and minimal negative feedback is received
General Community Use Objectives		
<p>To promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:</p> <p>a In relation to public recreation and the physical, cultural, social and intellectual welfare or development of individual members of the public; and</p> <p>b In relation to purposes for which a lease, licence or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities).</p>	Development of the reserves in accordance with the master plan	All works are completed and minimal negative feedback is received
Natural Area Objectives		
To conserve biodiversity and maintain ecosystem function in respect of the land, or the feature or habitat in respect of which the land is categorised as a natural area.	Compliance with guidelines of this plan.	Minimal negative feedback received. User satisfaction.
To maintain the land, or that feature or habitat, in its natural state and setting.	Compliance with guidelines of this plan.	Minimal negative feedback received. User satisfaction.
To provide for the restoration and regeneration of the land.	Compliance with guidelines of this plan.	Minimal negative feedback received. User satisfaction.

Objectives and Performance Targets of the Plan with respect to the Land	Means by which the Council proposes to achieve the Plan's Objectives and Performance Targets	Manner in which the Council proposes to assess its Performance with respect to the Plan's Objectives and Performance Targets
To provide for community use of and access to the land in such a manner as will minimise and mitigate any disturbance caused by human intrusion.	Compliance with guidelines of this plan.	Minimal negative feedback received. User satisfaction.
To assist in and facilitate the implementation of any provisions restricting the use and management of the land that are set out in a recovery plan or threat abatement plan prepared under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994.	Compliance with guidelines of this plan.	Minimal negative feedback received. User satisfaction.

ADMINISTRATION

The Council's General Manager is responsible for implementing the provisions of this plan.

The Council's Strategic Planning Department is responsible for co-ordinating the planning studies and for reviewing the plan.

The main priority for management during the term of this plan is to maintain current facilities at least at their present level, to prepare an updated inventory of facilities and identify future demands. Future plans of management could include a programme of works to be undertaken.

The plan does not provide for significant development works, and any major developments would require the preparation of a specific plan of management to authorise the works on the land on which they are proposed.

REVIEW OF PLAN

The plan may be reviewed, if required, and the updated plan will be adopted by the Council.
